Onno Greiner Architect:

Onno Greiner, architect Marc van der Marck, Onno Greiner, 1985-01-01 Onno Greiner (1924-2010) Andrea Prins, 2016
Monografie over de ideeën en het werk van de architect Onno Greiner 1924-2010 **Queering Architecture** Marko Jobst, Naomi Stead, 2023-01-26 Featuring contributions from a range of significant voices in the field this volume renews the conversation around what it means to speak of the queer in the context of architecture and offers a fresh take on the methodological and epistemological challenges this poses to the discipline of architectural theory Architecture as a discipline a profession and an applied practice is always subordinate to its own conceptual framework which is one of orderliness It refers to buildings but also to infrastructures of thought and knowledge to conventions and taxonomies to structures of governance hierarchies of power and systems of administration How then can one look at queering architectural discourse when the very term queer celebrated for its elusive nature resists and attacks such order Divided into four subsections the essays in this anthology each pursue a distinct line of inquiry methods practices spaces and pedagogies in order to help particularize the proposed queering of architecture They demonstrate the paradoxical nature of the endeavour from a diverse range of perspectives from questions of mapping queer theory in architecture to issues of queer architectural archives or lack thereof to non Western challenges to the very term queer and the queering of basic assumptions across affiliated disciplines Queering Architecture not only provides a bold challenge to the normative methods employed in architectural discourse but also addresses how establishing queer methodologies is a paradox in itself **Architecture, Actor and Audience** Iain Mackintosh, 2003-09-02 Explores the contribution the design of a theatre can make to the theatrical experience It also examines the failure of many modern theatres to appeal to audiences and theatre people Theatre Spaces 1920-2020 Iain Mackintosh, 2023-03-09 In this lavishly illustrated hands on account of the creation of new theatre spaces spanning a century Iain Mackintosh offers a compelling history that is part memoir part impassioned call to rethink the design of our theatre spaces and the future of live theatre As the originator of theatre designs as diverse as the Cottesloe in 1977 Glynedebourne in 1994 the Orange Tree Theatre in 1991 the Martha Cohen Theatre in 1985 and the Tina Packer Playhouse in 2001 he discovered why the same show worked in some theatres but not in others It is this unique blend of experience that informs this account of many of the best known theatre spaces in Britain besides many international examples including the Guthrie Theater Minneapolis and the Oslo Opera House Running throughout is a consideration of factors which have shaped design thinking during this time and which demand attention today After the long theatre closures driven by the Covid 19 pandemic Mackintosh argues that now is the time to discover the routes travelled over the last century Published in partnership with the Society of Theatre Research the book features a foreword by Sir Richard Eyre Director of the National Theatre 1987-1997 TD & T. United States Institute for Theatre Technology, 1997 **Gids voor moderne architectuur in Amsterdam / Guide to Modern Architecture in Amsterdam** Paul Groenendijk, Piet

Vollaard, Piet Rook, 1996 Gebouwen en stedenbouwkundige projecten in Amsterdam in de periode van 1900 tot heden

ABM, 1986 Abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century Photography is covered from its invention in 1839 to the present A particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature Approximately 13 000 new entries are added each year Published with title LOMA from 1969 1971 **Architectural**

Publications Index, 1998 **Critical seventies** Martien de Vletter, 2004 There is no period in the history of the Netherlands which excites such emotion resistance or aversion as the decade of the 1970s Following in the wake of the democratization wave of 1968 some regard the 1970s as a period when pluralism was possible and desirable at all levels For others the crowning moment of 1968 degenerated into a quagmire of public consultation and a culture of always inconclusive committee meetings The 70s were either hip and groundbreaking or dogmatic and rigid The architecture of the time which headed off in pursuit of new definitions and forms is similarly divisive Though a number of architectural trajectories were driven by a devoted social engagement and a profound belief in architecture as a means of molding society the sheer plethora of movements failed to generate a single and unanimous alternative resulting instead in polarization and pluralism The Critical Years focuses on architecture urban planning and spatial planning from 1968 to 1982 Specific projects from the period are discussed and extensively documented on the basis of six themes and an introductory essay considers the context in which building and planning changed so radically With the imminent demolition and renovation of much of the infrastructure and architecture of the 1970s this book is a critical and timely document of one of the most important periods for architecture in the Netherlands **Gids voor moderne architectuur in Nederland** Paul Groenendijk, Piet Vollaard, Piet Rook, 1998 Reis gids voor moderne Nederlandse architectuur waarin ruim 700 objecten worden afgebeeld en beknopt beschreven **Encyclopedia of Twentieth Century Architecture** R. Stephen Sennott, 2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclopedie of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries **The Architects' Journal**, 1991 Structuralism in Dutch Architecture Wim J. van Heuvel, Wim J Heuvel (van), 1992 Overzicht van een aantal architectuurprojecten uit de periode 1960 1991 die wel door de term structuralisme worden benoemd *Architecture Series: Bibliography*, 1986 Avery Index to Architectural Periodicals, 2d Ed., Rev. and Enl Avery Library, 1991 *World Architecture*, 1997 Politiek op de plank Joyce
