Onrechtmatige daad en andere niet-contractuele verbintenissen - 3de, herziene uitgave prof. mr. J.A. Pontier, 2014-12-16

In dit boek wordt aandacht besteed aan het Nederlandse IPR met betrekking tot onrechtmatige daden en andere niet contractuele verbintenissen. Aan de orde komt de vraag naar de internationale bevoegdheid van de Nederlandse rechter om kennis te nemen van geschillen inzake onrechtmatige daad en andere niet contractuele verbintenissen en om in kort geding voorlopige en bewarende maatregelen te treffen alsmede de vraag naar het toepasselijke recht op deze geschillen. Niet alleen wordt aandacht besteed aan de onrechtmatige daad in algemene zin maar ook wordt ingegaan op bijzondere onrechtmatige daden zoals de aanvaring de ongeoorloofde mededinging het persdelict de grensoverschrijdende milieuverontreiniging en de octrooi en merkinbreuken alsmede de andere niet contractuele verbintenissen zoals de ongerechtvaardigde verrijking de zaakwaarneming en de precontractuele aansprakelijkheid. Bijzondere onrechtmatige daden die onderwerp zijn van andere delen van de Praktijkreeks IPR zoals het verkeersongeval en de productaansprakelijkheid komen alleen kort aan de orde. Het internationaal privaatrecht op deze rechtsgebieden ontwikkelt zich voortdurend zowel door ontwikkelingen in de regelgeving als door rechtspraak. Wijzigingen in de regelgeving inzake de rechtsmacht van de Nederlandse rechter betreffen de herschikking van de EEX Verordening in de zogenoemde EEX Verordening II of de Brussel Ibis Verordening en een enkele bepaling van afdeling 1 van het Wetboek van Burgerlijke Rechtsvordering. Inmiddels heeft met betrekking tot de EEX Verordening II een wijziging plaatsgevonden in verband met onder meer de totstandkoming van de Overeenkomst betreffende een eengemaakt octrooigerecht. Ook is recentelijk Boek 10 BW Internationaal privaatrecht in werking getreden dat naast de Rome II Verordening mede betrekking heeft op de vraag naar het toepasselijke recht in internationale gevallen. Daarnaast is sprake van belangrijke ontwikkelingen in de rechtspraak van met name het Hof van Justitie van de EU inzake de EEX Verordening II welke verordening vanaf 10 januari 2015 van toepassing is.

Internet Intermediaries and Copyright Law Stefan Kulk, 2019-10-02. All forms of online communications and interactions between people and companies on the Internet are facilitated by intermediaries service providers whose decisions and policies have a shaping effect on the Internet its users and the information shared on it. Today because such intermediaries employ technologies that go well beyond the mere transmission and storage of information into new realms potentially disrupting existing business models a rethinking of existing relevant law is called for. The legal analysis and recommendations in this book put the topic of intermediary liability in the perspective of copyright law and offer a vision on how to regulate that liability. In the context of in depth and up to date analyses on EU US German and Dutch law the author discusses such issues and topics as the following: the liability rules in the new Directive on Copyright in the Digital Single Market; liability for the intermediary's own copyright infringements; primary liability; the intermediary's responsibility to stop or prevent the infringements of others; secondary liability; the role that fundamental rights play in copyright law and intermediary liability; the rights and interests of copyright owners.

intermediaries and users and how they are protected notice and takedown by service providers website blocking by Internet access providers the publisher's rights and the use of online articles by platforms legal status of hyperlinks under copyright law and search engine use of copyrighted materials A focus on the strengths and weaknesses of existing EU copyright law concerning Internet intermediaries in terms of how future proof that law is includes detailed attention to legislation regulation and case law With its deeply informed guidance with respect to the methods of regulation in a domain that is heavily influenced by technological developments this book will be welcomed by policymakers legislators academics judges and practitioners working in the area of copyright law as applied to the Internet The detailed attention to the extent to which an intermediary can be held liable for copyright infringements in both the EU and the US will prove highly beneficial for in house counsellors and advisors working for rights holder organizations and intermediary service providers

Non-Contractual Liability Arising out of Damage Caused to Another Christian von Bar, 2009-08-17 Non contractual liability arising out of damage caused to another is one of the three main non contractual obligations dealt with in the DCFR The law of non contractual liability arising out of damage caused to another in the Common Law known as tort law or the law of torts but in most other jurisdictions referred to as the law of delict is the area of law which determines whether one who has suffered a damage can on that account demand reparation in money or in kind from another with whom there may be no other legal connection than the causation of damage itself Besides determining the scope and extent of responsibility for dangers of one's own or another's creation this field of law serves to protect fundamental rights in the private law domain that is to say horizontally between citizens inter se Based on pan European comparative research which annotates the work this volume presents model rules on liability Explanatory comments and illustrations amplify the policy decisions involved During the drafting process comparative material from over 25 different EU jurisdictions has been taken into account The work therefore is not only a presentation of a future model for European rules to come but provides also a fairly detailed indication of the present legal situation in the Member States

Competition Law Rogier W. De Vrey,2006 The main aim of this book is to discuss the state of unfair competition law in the
 European Union In this respect the various efforts that have been made in the past to come to harmonization of this area of
 law and the reasons that they were only partially successful are reviewed In addition the International and European
 regulations that refer to unfair competition like e g the Paris Convention the TRIPs and the recent 2004 Unfair Commercial
 Practices Directive are discussed Also an overview is given of the unfair competition laws in the United Kingdom Germany
 and the Netherlands with respect to the problem areas of slavish imitation misleading advertising denigrating one s
 competitor trade secrets and finally misappropriation of valuable trade assets Unfair competition law is traditionally
 considered part of intellectual property law Not only the relation of unfair competition law to intellectual property laws are
 therefore part of the discussion but also the areas of consumer protection law since unfair competition law is partly
 orientated towards consumer protection and competition as an economic concept is the topic of thorough review ,

Choice of Law in Copyright and Related Rights Mireille M. M. van Eechoud, 2003-01-01 Nobody denies that the traditional territorial approach to copyright and other intellectual property rights has come under pressure Yet it persists Faced with the need to determine the applicable law in cross border cases lawyers everywhere wrestle with the implications of the territorial nature of copyright and related rights In this book Mireille van Eechoud clears the way to the formulation of conflict rules that reflect the purpose of copyright law to protect creators and stimulate the production and use of information without reverting to old fashioned notions of territoriality She shows how the applicable law can be determined for four distinct legal avenues of intellectual property law Which exclusive rights exist in an intellectual creation and for how long Who is considered to own such right How can these rights be transferred and What continues infringement of copyright and related rights Mireille van Eechoud shows how when

each of these questions is approached in the light of the different allocation principles used in modern choice of law a new clarity begins to emerge that promises in time to build a set of conflict rules well suited to the unprecedented copyright and related rights issues that we find so difficult to resolve today Her in depth analysis draws in the classis multilateral conventions and treaties underlying policies technological and economic developments utilitarian grounds versus justice considerations and issues of infringement in the digital environment INFORMATION LAW SERIES 12 *Autonomous Vehicles and Civil Liability in a Global Perspective* Hans Steege, Ilaria Amelia Caggiano, Maria Cristina Gaeta, Benjamin von Bodungen, 2024-04-30 In the automotive sector digitalisation connectivity and automation are rapidly expanding In tomorrow's vehicles human beings will merely be passengers which raises a host of complex legal issues regarding accidents involving self driving vehicles This book is the first to offer a comprehensive global overview of civil liability regimes for all levels of vehicle automation in jurisdictions that represent some of the most important markets for the automotive industry After a technical introduction to how self driving cars work the individual chapters analyse the liability for driving automation at SAE J3016 levels 0 through 5 from a country specific perspective All chapters were written by experts in the field and follow a uniform legal structure Hence the book offers an essential comparative analysis of similarities and differences in the jurisdictions examined while also providing suggestions for future legislative changes at the national and international level The book is not only relevant for legal scholars and practitioners but will also be of particular interest to anyone involved in the design manufacture distribution and operation of self driving vehicles *Recht en media* E.M.T.
