### **Catholic Survival in the Dutch**

**Republic** Genji Yasuhira, 2025-10-01 Even in adversity Catholics exercised considerable agency in post Reformation Utrecht. Through the political practices of repression and toleration Utrecht's magistrates under constant pressure from the Reformed Church attempted to exclude Catholics from the urban public sphere. However by mobilizing their social status and networks Catholic Utrechters created room to live as pious Catholics and honourable citizens claiming more rights in the public sphere through their spatial practices and in discourses of self representation. This book explores how Catholic priests and laypeople cooperated and managed to survive the Reformed regime by participating in a communal process of delimiting the public, continuing to rely on the medieval legacy and adapting to early modern religious diversity. Deploying their own understandings of publicness Catholic Utrechters not only enabled their survival in the city and the Catholic revival in the Dutch Republic but also contributed to shaping a multi religious society in the Northern Netherlands.
