Bright Green Lies

Derrick Jensen,Lierre Keith,Max Wilbert,2021-03-16 This disturbing but very important book makes clear we must dig deeper than the normal solutions we are offered Yvon Chouinard founder of Patagonia Works Bright Green Lies exposes the hypocrisy and bankruptcy of leading environmental groups and their most prominent cheerleaders The best known environmentalists are not in the business of speaking truth or even holding up rational solutions to blunt the impending ecocide but instead indulge in a mendacious and self serving delusion that provides comfort at the expense of reality They fail to state the obvious We cannot continue to wallow in hedonistic consumption and industrial expansion and survive as a species The environmental debate Derrick Jensen and his coauthors argue has been distorted by hubris and the childish desire by those in industrialized nations to sustain the unsustainable All debates about environmental policy need to begin with honoring and protecting not the desires of the human species but with the sanctity of the Earth itself We refuse to ask the right questions because these questions expose a stark truth we cannot continue to live as we are living To do so is suicidal folly Tell me how you seek and I will tell you what you are seeking the German philosopher Ludwig Wittgenstein said This is the power of Bright Green Lies It asks the questions most refuse to ask and in that questioning that seeking uncovers profound truths we ignore at our peril Chris Hedges Pulitzer Prize winning journalist and author of America The Farewell Tour

The War Against the Greens David Helvarg,1994 A Shadowy backlash against environmentalists has begun to emerge in America the most visible element of which calls itself the Wise Use movement Among its stated goals are the unregulated use of timber oil gas minerals and range land and the abolition of all environmental laws and agencies In this first in depth investigation of the Wise Use backlash author David Helvarg visits rallies conferences and confrontations that are the fronts in its war against the greens Helvarg shows the dimensions of this struggle as it is being waged in the courts in the media through popular mouthpieces like Rush Limbaugh and sympathetic coverage in influential newspapers such as the New York Times in the heretical claims of the movement's counterscience and in the growing number of physical confrontations and threats used against environmental activists Helvarg also documents the failure of the FBI to prevent such violence
