of the state of the field This book now in its third edition brings together leading researchers economists historians philosophers political scientists and sociologists along with scholars from communication education law management and policy schools to investigate the impact of associational life Chapters consider the history of the nonprofit sector and of philanthropy the politics of the public sphere governance mission and engagement access and inclusion and global perspectives on nonprofit organizations Across this comprehensive range of topics *The Nonprofit Sector* makes an essential contribution to the study of civil society Praise for previous editions Takes a decidedly multidisciplinary approach invaluable *Journal of Policy Analysis and Management* A major contribution to the field *Social Forces* Thinking Globally Mark Juergensmeyer, 2014 In this accessible text Mark Juergensmeyer a pioneer in global studies provides a comprehensive overview of the emerging field of global studies from regional topical and theoretical perspectives Each of the twenty compact chapters in *Thinking Globally* features Juergensmeyer's own lucid introduction to the key topics and offers brief excerpts from major writers in those areas The chapters explore the history of globalization in each region of the world from Africa and the Middle East to Asia Europe and the Americas and cover key issues in today's global era such as Challenges of the global economy Fading of the nation state Emerging nationalisms and transnational ideologies Hidden economies of sex trafficking and the illegal drug trade New communications media Environmental crises Human rights abuses *Thinking Globally* is the perfect introduction to global studies for students and an exceptional resource for anyone interested in learning more about this new area of study *Religion and Social Justice For Immigrants* Pierrette Hondagneu-Sotelo, 2006-10-18 Religion has jumped into the sphere of global and domestic politics in ways that few would have imagined a century ago Some expected that religion would die as modernity flourished Instead it now stares at us almost daily from the front pages of newspapers and television broadcasts Although it is usually stories about the Christian Right or conservative Islam that grab headlines there are many religious activists of other political persuasions that are working quietly for social justice This book examines how religious immigrants and religious activists are working for equitable treatment for immigrants in the United States The essays in this book analyze the different ways in which organized religion provides immigrants with an arena for mobilization civic participation and solidarity Contributors explore topics including how non Western religious groups such as the Vietnamese Caodai are striving for community recognition and addressing problems such as racism economic issues and the politics of diaspora how interfaith groups organize religious people into immigrant civil rights activists at the U S Mexican border and how Catholic groups advocate governmental legislation and policies on behalf of refugees **Global Education Monitoring Report** Global Education Monitoring Report Team, UNESCO, 2022-09-30 The 2022 Gender Report presents fresh insights on progress towards gender parity in education with respect to access attainment and learning It showcases out of school rate trends and the results of a new model that provides coherent estimates combining multiple sources of information on completion rates It also reviews

the results of learning assessments released over the past 18 months which present an almost global picture of the gender gap in reading mathematics and science achievement in lower and upper primary and lower secondary grades. They provide a baseline against which to assess the impact of COVID 19 on inequality when post pandemic data start being released next year. A companion to the 2021 2 GEM Report it emphasizes the role of non state actors in influencing gender inequality in and through education. Non state actors have filled in provision gaps left by the public education system. The 2022 Gender Report presents evidence on gender gaps in the share of students enrolled in private institutions by sex and what drives these gaps in the various regions. It also provides case studies on the privatization of childcare in high income countries, the impact of non state faith based schools in Asia on gender norms and the role of women's universities around the world. Some non state actors have pushed the gender equality agenda forward while others have undermined progress in order to maintain the status quo. Some have been at the front line for girls' education in emergencies. Some have lobbied against comprehensive sexuality education. Some champion inclusion of marginalized girls while others maintain discriminatory gender norms. Depending on the context it is important not to make assumptions but to look carefully at the data and work together to eliminate all forces that prevent anyone on the basis of gender from fulfilling their potential through education. In its exploration of the complex and ever changing fabric of African lives after the end of colonial power, this book offers readers insight into how daily life has changed for Africans over the last 75 years and what it looks like today. The book covers various aspects of the lives of the peoples of Africa in the post colonial era such as domestic life, economic activities, intellectual pursuits, material culture, political power, leisure and spiritual engagements. This addition to the Daily Life through History series recognizes the anguish of previous experiences of colonial rule while simultaneously commemorating the optimism and liveliness of the present and future of Africa. Discussing large moments like Nelson Mandela's presidency or South Africa hosting the FIFA world cup to the small, what a typical meal or holiday might look like for those across the continent, this book is an homage to the eternal essence of Africa and its inhabitants. Ultimately, the volume provides readers a glimpse into the diverse lived experiences across this remarkable continent as it navigates the intricacies of post colonial existence and establishes its trajectory on the international platform.
