Miami And Erie Canal Images Of America:

Miami and Erie Canal Bill Oeters and Nancy Gulick, 2014 Travel through the history of Ohio's historic canals and follow its growth throughout the years told with hundreds of photographs In the 1800s the United States was a nation obsessed with finding a form of transportation that was the fastest cheapest and most reliable at the time canals were the answer Canals broke through vast open countryside forested woodlands and rolling hills to expose the heart of the nation to development They took passengers and goods off of dusty or muddy roads and delivered them to their destinations faster and cheaper than by any other means From Toledo to Cincinnati the Miami and Erie Canal provided western Ohio with that sorely needed waterway and became part of the 1 000 miles of Ohio canals contributing to the national network of canals Today with the help of government corporations and citizens many parts of the Ohio canal system have been preserved or restored and can be visited and experienced Watered sections of canal quietly reflect a bygone era and lead an explorer down the towpaths of history [The Miami and Erie Canal](#) , *Italians of Greater Cincinnati* Philip G. Ciafardini, Pamela Ciafardini Casebolt, 2008 *Italians of Greater Cincinnati* focuses on the Italian immigration into the Cincinnati area beginning in the early 1800s The northern Italians were the first to arrive followed by those in the south of Italy including Sicily In the spring of 1892 plans were being made to build a Catholic church for the estimated 4 000 Italian immigrants In 1897 two biological Italian immigrant sisters who had joined the religious order of the Sisters of Charity of Cincinnati Sr Blandina and Sr Justina Segale began their life's work with the poor immigrants living in the Cincinnati area Today descendants of these early immigrants as well as those who arrived in the 20th century continue to celebrate their rich Italian heritage through social clubs and community involvement The photographs contained in this volume detail the lives of the Italians as they strived to become Americans *Middletown Ohio* Roger L. Miller, George C. Crout, 1998-09-10 Over the years Middletown has grown from a simple village of 50 people to a city of over 50 000 Located along the Great Miami River Middletown developed from a farming community into an industrial city located on I 75 a major national highway The Miami Erie Canal helped speed Middletown's progress and provided a link between northern and southern Ohio The canal allowed for further industrial growth with such businesses as grist and saw mills porkpacking plants and paper and tobacco plants Today Middletown is a steel producing community with many other important industries The construction of railroads and new roads and highways also played an important role in Middletown's growth This work recalls many of the people that brought this success and development to Middletown The everimproving cameras and the rise of the art of photography allowed much of this town's history to be captured on film Many of these images taken by both professionals and amateurs are recorded in Middletown Ohio Join Mr Miller and Mr Crout in celebrating a community rich in history and heritage

factories and families have come and gone since the canal was abandoned but by making the most of every new method of travel and technology Tippecanoe Tipp City continues to thrive The name change came in 1938 because of mail delivery mix ups with another Ohio town of the same name but that did not change the fact that its founding people have made Tippecanoe a great place to raise children and build a future In Tipp City today that tradition continues as it has always been a place where people were so busy living their lives that they didn't know they were living history
