implementing and managing institutions This Handbook provides experiential advice to tackle the technical institutional and financial challenges faced by decision makers considering urban rail projects It brings together the expertise of World Bank staff and the input of numerous specialists to synthesize international good practices and recommendations that are independent of commercial financial political or other interests The material presented is intended as an honest broker guide to maximize the impact and manage the challenges of urban rail systems in cities in both developed and developing countries Rather than identify a single approach this Handbook acknowledges the complexities and context necessary when approaching an urban rail development by helping to prepare decision makers to ask the right questions consider the key issues perform the necessary studies apply adequate tools and learn from international good practice all at the right time in the project development process

Navigating Multi-agency NEPA Processes to Advance Multimodal

Transportation Projects Donald J. Emerson, Doris Lee, Crystal M. Cummings, Jennifer Thompson, Bridget M. Wieghart, Shelly Brown, 2016 This report analyzes approaches taken by state departments of transportation DOTs their local partners and other project sponsors to satisfy National Environmental Policy Act NEPA requirements for transportation projects involving more than one mode Specific objectives of the research were to 1 characterize the challenges inherent in satisfying the NEPA requirements of multiple U S DOT agencies 2 identify strategies and tactics that state and local transportation agencies have used to overcome these challenges and 3 suggest new and innovative strategies that can be applied by state and local transportation agencies in future multimodal NEPA processes Twelve case studies illustrate successful practices and provide examples of institutional arrangements used to comply with NEPA requirements for two or more U S DOT agencies The case studies demonstrated that there is no single best way to approach the NEPA process for multimodal situations Success may depend more on the willingness and motivation of the agencies to work together to find common ground and to work around differing processes and less upon a specific organizational structure An effective interagency approach depends on how well the project sponsor and other agencies are able to work together and bridge their procedural differences

Guide for the Preservation of Highway Tunnel Systems Chester Allen, Martha Averso, Carrie Hargraves, Sue McNeil, Susan McNeil, 2015 The guide explains how executives can incorporate and communicate capital funding needs for tunnel improvements as part of their overall transportation system funding Additionally the guide delivers a process for prioritizing needs using an overall measure of effectiveness that is calculated using a risk based urgency score and developing capital funding and staffing programs to accomplish tunnel preservation goals The guide also serves as a training tool for new personnel The contractors final report is available from the project description page
