Brief Chapter Summary and Learning Objectives

Use a production possibilities frontier to analyze opportunity costs and trade-offs.

2.3 The Market System (pages 51–58)

Explain the basic idea of how a market system works.

Markets enable buyers and sellers of goods and services to come together to trade.

Entrepreneurs, those who own or operate businesses, produce goods and services that consumers want and decide how these goods and services should be produced to yield the most profit.

It is essential that government protects rights to private property in order for a market system to work well.
