Walk-Through Metal Detector  
Fully Weatherproof

## PEOPLE SCREENING

Fully Weatherproof - IP 65

Rugged Structure

Unique Multi-Zone Principle

For Harsh Conditions

The Metor 200 WP is a fully weatherproof protection class IP 65 rugged construction multi-zone walk-through metal detector for harsh climates ranging from winter conditions to tropical environments. The Metor 200 WP offers superior operation when exposed to mild or severe mechanical vibration.

### UNIQUE MULTI-ZONE PRINCIPLE

This multi-zone design guarantees first-rate performance. Each detection zone functions as an independent detector and automatically increases discrimination by reducing the cumulative signal effect caused by distributed harmless objects.

### THE BENEFITS OF THE MULTI-ZONE PRINCIPLE

- Superior discrimination.
- Reliable detection of threat items regardless of object orientation.
- High traffic throughput. Each zone can be adjusted independently to meet your security needs.
- Optimum immunity to environmental interference and external stationary metal.

### MOBILITY

The unit can be easily moved to different locations.

### COUNTERS

Intelligent traffic and alarm counter calculates the traffic flow and the number of caused alarms. The traffic counters can be set to determine the number of pass throughs, thereby giving an accurate count.

The Metor 200 WP can withstand temperatures as cold as -30°C (-22°F) with optional heater.

### EIGHT INDEPENDENT DETECTION ZONES

- Target objects are independently detected in each zone.
- Signals from suspicious objects do not combine to produce unnecessary alarms.
- Provides more uniform detection.
- Zone display illumination at the level where a detection occurs.

### USER-FRIENDLY INTERFACE

All parameters are set through a remote control unit that utilizes pushbuttons to eliminate unauthorized personnel to control the gates. The alphanumeric display on the remote control shows the results of the self-testing, diagnostics, traffic counting and parameter adjustment.

### OPTIONS & ACCESSORIES

**EQUAL ZONE DISPLAY:** By installing a zone display on both sides of the detector it is possible to see the alarm on the same side whatever the walking direction.
