Mi5 In The Great War:

MI5 in the Great War Nigel West, 2014-07-31 In 1921 MI5 commissioned a comprehensive top secret review of the organisation's operations during the First World War. Never intended for circulation outside of the government, all seven volumes of this fascinating and unique document remained locked away in MI5's registry until now. Recently declassified and published here for the first time, *MI5 in the Great War* is filled with detailed and previously undisclosed accounts centring on the Security Service's activities during the conflict. The main narrative examines MI5's various attempts to both manage and detect double agents, the detection and execution of enemy spies, its study of German pre-war espionage and the Kaiser's personal network of spies seeking to infiltrate British intelligence. Coinciding with the centenary of the start of the Great War, this historically significant document has been edited and brought up to date by bestselling writer and historian Nigel West, providing an extraordinary insight into the early years of MI5 and its first counterintelligence operations. **Historical**

The Five Eyes, a spy network between the intelligence agencies of the US, UK, Canada, Australia and New Zealand, has been steeped in secrecy since its official formation in 1956. Yet the Five Eyes' very existence is not legally binding; it functions as a marriage of convenience, riddled with distrust, competing intelligence agendas and a massive imbalance of power that favors the US. Richard Kerbaj draws on interviews with intelligence officials, world leaders and recently declassified archives to reveal the authoritative but unauthorized stories of the alliance. In bypassing the usual censorship channels, he tells this extraordinary account of the Five Eyes, unlikely cast of characters who played a crucial role in its history and exposes the network's hidden role in influencing global events that continue to shape our daily lives.
