[Time and Difference in Rabbinic Judaism](#) Sarit Kattan Gribetz,2022-08-09 How the rabbis of late antiquity used time to define the boundaries of Jewish identity The rabbinic corpus begins with a question when and is brimming with discussions about time and the relationship between people God and the hour Time and Difference in Rabbinic Judaism explores the rhythms of time that animated the rabbinic world of late antiquity revealing how rabbis conceptualized time as a way of constructing difference between themselves and imperial Rome Jews and Christians men and women and human and divine In each chapter Sarit Kattan Gribetz explores a unique aspect of rabbinic discourse on time She shows how the ancient rabbinic texts artfully subvert Roman imperialism by offering rabbinic time as an alternative to Roman time She examines rabbinic discourse about the Sabbath demonstrating how the weekly day of rest marked Jewish time from Christian time Gribetz looks at gendered daily rituals showing how rabbis created men s time and women s time by mandating certain rituals for men and others for women She delves into rabbinic writings that reflect on how God spends time and how God s use of time relates to human beings merging divine time with human time Finally she traces the legacies of rabbinic constructions of time in the medieval and modern periods Time and Difference in Rabbinic Judaism sheds new light on the central role that time played in the construction of Jewish identity subjectivity and theology during this transformative period in the history of Judaism **Make Brilliant Work**

Michael Jackson, 2018-04-14 An integral part of Canada's political culture constitutional monarchy has evolved since Confederation to become a uniquely Canadian institution How has it shaped twenty first century Canada How have views on the monarchy changed Eleven experts on the history of Canada's Crown take up these questions from diverse perspectives Scholars and Their Kin Stéphane Gerson, 2025-02-19 Spotlights historians who have embraced the methodological practical and ethical challenges of writing about the most slippery of subjects their own families Historians have often been discouraged from writing about their relatives subjects who are deemed too close for objective analysis But new work by scholars interested in their own families raises fascinating questions about subjectivity and how historians might put it to use It also invites historians to abandon traditional aspects of academic writing and draw instead on literary

Richard V. Barnett, 2020-10-16 The blatant conspiracy by the world governments to deny a certain group of people of their history heritage and legacy is the biggest crime that has ever been committed in the history of the world For years the political powers along with some of the most influential church leaders in the world have been a part of a major cover up to keep the Hebrew people in a state of mental and spiritual bondage that began way before the early years of the slave trade To the general reader the Hebrew people are the Chosen first fruit of The Most High they have been persecuted raped sold into slavery murdered and oppressed and all because they are the chosen people of The Most High These are just some of the issues surrounding the Hebrews today this book will explore what is the true purpose of the Hebrew Israelites and how they are beginning to wake up to and deal with their true identity today This book also explores how The Most High is carefully placing his people back into the natural position as the rulers of the earth and how that he has planned for them to lead other nations way before they became disobedient by not following his laws statutes and commandments **Michael Jackson**

Marriage and Values in Public Policy Elizabeth van Acker,2017-01-20 Marriage is a site of political conflict It is a controversial issue in the UK Australia and the US where there is a clash of values between neoliberal governments and diverse groups either strongly opposing or supporting marriage In the meantime fewer couples are marrying while other family forms are more widely accepted This book explores this disconnect by examining policy issues such as class divides ethnicity religion same sex marriage gender relations and romantic expectations A top down approach explores different government policy responses to marriage In all three countries there are differences and similarities in how governments react to the changes in family formations but values or conceptions of the desirable play a significant role Enhancing stability and commitment as well as personal responsibility are important for policymakers who aim to keep the family intact and thereby lower the burden on the public purse It is difficult for political actors to respond to conflicting and changing values surrounding the diversity in relationships or to translate them into policies There is a strong case to be made for increased policy attention to adult relationships and a much weaker case for marriage Rich evidence is drawn from interviews with key stakeholders as well as politicians speeches government departmental reports stakeholders documents and responses to government policies and media articles
