Living in a Microbial World Bruce Hofkin, 2020-11-26. As with the first edition this second edition of *Living in a Microbial World* is written for students taking a general microbiology course or a microbiology based course for non science majors. The conversational style and use of practical everyday examples make the essential concepts of microbiology accessible to a wide audience. While using this approach the text maintains scientific rigor with clear explanations spanning the breadth of microbiology including health evolution ecology food production biotechnology and industrial processes. Each chapter contains a series of case studies based on microbiology in the news in history and in literature. There are questions at the end of each case study and the end of each chapter as well as an online quiz with help on answering the questions. The text questions and cases have been updated to reflect the changing influence of microbiology in the world today from the microbiome to new disease outbreaks Ebola and Zika and antibiotic resistance to new biotechnology tools CRISPR Cas.
