Pinto, 2018-11-29 Operations Management Managing Global Supply Chains takes a holistic integrated approach to managing operations and supply chains by exploring the strategic tactical and operational decisions and challenges facing organizations worldwide Authors Ray R Venkataraman and Jeffrey K Pinto address sustainability in each chapter showing that sustainable operations and supply chain practices are not only attainable but are critical and often profitable practices for organizations to undertake With a focus on critical thinking and problem solving Operations Management provides students with a comprehensive introduction to the field and equips them with the tools necessary to thrive in today's evolving global business environment

The UAW's Southern Gamble Stephen J. Silvia, 2023-05-15 The UAW's Southern Gamble is

the first in depth assessment of the United Auto Workers efforts to organize foreign vehicle plants Daimler Chrysler Mercedes Benz Nissan and Volkswagen in the American South since 1989 an era when union membership declined precipitously Stephen J Silvia chronicles transnational union cooperation between the UAW and its counterparts in Brazil France Germany and Japan and documents the development of employer strategies that have proven increasingly effective at thwarting unionization Silvia shows that when organizing unions must now fight on three fronts at the worksite in the corporate boardroom and in the political realm The UAW s Southern Gamble makes clear that the UAW s failed campaigns in the South can teach hard won lessons about challenging the structural and legal roadblocks to union participation and effectively organizing workers within and beyond the auto industry

Romm, 2016 Climate change will have a bigger impact on humanity than the Internet has had This entry in the What Everyone Needs to Know series offers the most up to date examination of climate change s foundational science as well as its implications for our future and its core solutions Alongside detailed but highly accessible descriptions of what is causing climate change this book answers questions about the practical implications of this growing force on our world As the world struggles to stem climate change and its effects everyone will become a part of this story of the century Here is what you need to know

**Marketing** Michael R. Solomon, Greg W. Marshall, Elnora W. Stuart, Bradley R. Barnes, Vincent Wayne Mitchell, Wendy Tabrizi, 2019 Marketing Real People Real Decisions is the only text to introduce marketing from the perspective of real people who make real marketing decisions at leading companies everyday Timely relevant and dynamic this reader friendly text shows students how

marketing concepts are implemented and what they really mean in the marketplace With this book the authors show how marketing can come alive when practiced by real people who make real choices The 3rd European edition presents more information than ever on the core issues every marketer needs to know including value analytics and metrics and ethical and sustainable marketing And with new examples and assessments the text helps students actively learn and retain chapter content so they know what's happening in the world of marketing today This edition features a large number of new cases from prominent marketing academics and professionals from around Europe

**How to Navigate Strategic Alliances and Joint Ventures** Meeta Dasgupta, 2020-03-03 This book takes readers across the different stages of an alliance lifecycle and through practical incidents discusses and debates on the decisions to be taken Organizations large and small are realizing the importance of collaborations to achieve their business objectives Organizations to create independent and joint values are entering into strategic alliances with their suppliers customers and even their competitors Every alliance follows a lifecycle and decisions have to be taken by executives at each stage Anticipated revenues and other sources of financial value remain unrealized if inadequate decisions are taken and alliances fail or under perform This book takes readers across the different stages of an alliance lifecycle and through practical incidents discusses and debates on the decisions to be taken The book also demonstrates the various challenges faced by executives in an alliance This book is perfect for managerial executives who are contemplating proposing a strategic alliance for their organizations or are part of an organization juggling various ongoing alliances alliance managers and business development professionals In short the content of the book should be of interest to anyone for whom alliances are a topic of interest

**The New Domestic Automakers in the United States and Canada** A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may

offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide

### **Rethinking Innovation and Design for Emerging Markets**

Christophe Midler, Bernard Jullien, Yannick Lung, 2017-05-18 The authors have put together a fascinating narrative of the creation process of one of the most successful example of frugal engineering in recent years They bring out insightful details of what managerial organizational and technological pathways were taken to come up with a disruptive innovation that has the potential to change the entry level automobile market in India and other emerging markets The book significantly deepens and extends the knowledge of disruptive and reverse innovation as well as of strategic alliance management The book keeps the reader captive and is a must read for all who have an interest in innovation
