The Way the Money Goes Christopher Hood, Maia King, Iain McLean, Barbara Maria Piotrowska, 2024-01-20 Based on documents and over 120 in depth interviews with civil servants and ministers this book explores what happened to the UK's fiscal constitution the framework for planning and controlling public spending under three different governments from the early 1990s to the mid 2010s The book combines analysis of developments in the fiscal constitution under each government with vignettes that range from the funding of a new Treasury building to efforts to crowdsource ideas for spending cuts The book also includes chapters devoted to different aspects of spending control namely capital spending spending by subnational governments running cost expenditure fiscal forecasting for expenditure planning and the development of new accounting metrics intended to promote better use of public spending and public assets

The Ecogothic Werewolf in Literature Kaja Franck, 2025-08-21 Using an Ecogothic lens this book offers a new conceptual framework for the werewolf in literature recasting the lycanthrope as an emblem for society's fear of untamed wilderness Tracing lycanthropy from a place of liminality to hybridity and to myriad and complex subjectivities The Ecogothic Werewolf in Literature reassesses the Gothic werewolf to show how the relationship between humans and wolves has influenced its representation in literature Starting with Dracula and tracing lycanthropic imaginings through natural histories folk and fairy tales to contemporary iterations in the works of Maggie Stiefvater Whitley Strieber and Glen Duncan Kaja Franck reconsiders the trope of the beast within in the werewolf canon From early conservationist Aldo Leopold's awakening regarding the death of wolves to George Monbiot's call to rewild tensions around humanity's responsibility to the natural world have emerged in lycanthropic literature A challenge to previous anthropocentric analysis of Gothic horror's stock monster Franck considers the changing attitude towards wolves alongside the growing environmentalism movement and reclaims the wolf from the figure of the werewolf

In-House Lawyers' Ethics Richard Moorhead, Steven Vaughan, Cristina Godinho, 2018-11-29 This book provides an empirically grounded in depth investigation of the ethical dimensions to in house practice and how legal risk is defined and managed by in house lawyers and others The growing significance and status of the role of General Counsel has been accompanied by growth in legal risk as a phenomenon of importance In house lawyers are regularly exhorted to be more commercial proactive and strategic to be business leaders and not mere lawyers but they are increasingly exposed for their roles in organisational scandals This book poses the question how far does going beyond being a lawyer conflict with or entail being more ethical It explores the role of in housers by calling on three key pieces of empirical research two tranches of interviews with senior in house lawyers and senior compliance staff and an unparalleled large survey of in house lawyers On the basis of this evidence the authors explore how ideas about in house roles shape professional logics how far professional notions such as independence play a role in those logics and the ways in which ethical infrastructure are managed or are absent from in house practice It concludes with a discussion of whether and how in house lawyers and their regulators need

to take professionalism and professional ethicality more seriously

The Oxford Handbook of Mobile Music Studies, Volume 2 Sumanth Gopinath, Jason Stanyek, 2014-03-21 The two volumes of The Oxford Handbook of Mobile Music Studies consolidate an area of scholarly inquiry that addresses how mechanical electrical and digital technologies and their corresponding economies of scale have rendered music and sound increasingly mobile portable fungible and ubiquitous At once a marketing term a common mode of everyday life performance and an instigator of experimental aesthetics mobile music opens up a space for studying the momentous transformations in the production distribution consumption and experience of music and sound that took place between the late nineteenth and the early twenty first centuries Taken together the two volumes cover a large swath of the world the US the UK Japan Brazil Germany Turkey Mexico France China Jamaica Iraq the Philippines India Sweden and a similarly broad array of the musical and nonmusical sounds suffusing the soundscapes of mobility Volume 2 investigates the ramifications of mobile music technologies on musical sonic performance and aesthetics Two core arguments are that mobility is not the same thing as actual movement and that artistic production cannot be absolutely sundered from the performances of quotidian life The volume s chapters investigate the mobilization of frequency range by sirens and miniature speakers sound vehicles such as boom cars ice cream trucks and trains the gestural choreographies of soundwalk pieces and mundane interactions with digital media dance music practices in laptop and iPod DJing the imagery of iPod commercials production practices in Turkish political music and black popular music the aesthetics of handheld video games and chiptune music and the mobile device as a new musical instrument and resource for musical ensembles

Accounts and Papers of the House of Commons Great Britain. Parliament. House of Commons, 1857 *The Working Class* Ian Gilbert, 2018-03-27 In *The Working Class* Poverty education and alternative voices Ian Gilbert unites educators from across the UK and further afield to call on all those working in schools to adopt a more enlightened and empathetic approach to supporting children in challenging circumstances One of the most intractable problems in modern education is how to close the widening gap in attainment between the haves and the have nots Unfortunately successive governments both in the UK and abroad have gone about solving it the wrong way Independent Thinking founder Ian Gilbert s increasing frustration with educational policies that favour no excuses and compliance and that ignore the broader issues of poverty and inequality is shared by many others across the sphere of education and this widespread disaffection has led to the assembly of a diverse cast of teachers school leaders academics and poets who unite in this book to challenge the status quo Their thought provoking commentary ideas and impassioned anecdotal insights are presented in the form of essays think pieces and poems that draw together a wealth of research on the issue and probe and discredit the current view on what is best for children from poorer socio economic backgrounds Exploring themes such as inclusion aspiration pedagogy and opportunity the contributions collectively lift the veil of feigned equality of opportunity for all to reveal the bigger picture of poverty and to articulate the hidden truth that there is always another way This book is not about giving you all the answers

however The contributors are not telling teachers or schools leaders how to run their schools their classroom or their relationships the field is too massive too complex too open to debate and to discussion to propose off the shelf solutions Furthermore the research referred to in this book is not presented in order to tell educators what to think but rather to inform their own thinking and to challenge some of the dominant narratives about educating the feckless poor This book is about helping educators to ask the right questions and its starting question is quite simple how can we approach the education of young people from disadvantaged backgrounds in a way that actually makes a difference for all concerned Written for policy makers and activists as well as school leaders and educators The Working Class is both a timely survey of the impact of current policies and an invaluable source of practical advice on what can be done to better support disadvantaged children in the school system Edited by Ian Gilbert with contributions from Nina Jackson Tim Taylor Dr Steven Watson Rhythmical Mike Dr Ceri Brown Dr Brian Male Julia Hancock Paul Dix Chris Kilkenny Daryn Egan Simon Paul Bateson Sarah Pavey Dr Matthew McFall Jamie Thrasivoulou Hywel Roberts Dr Kevin Ming Leah Stewart Real David Cameron Sir Al Aynsley Green Shona Crichton Floyd Woodrow Jonathan Lear Dr Debra Kidd Will Ryan Andrew Morrish Phil Beadle Jaz Ampaw Farr Darren Chetty Sameena Choudry Tait Coles Professor Terry Wrigley Brian Walton Dave Whitaker Gill Kelly Roy Leighton Jane Hewitt Jarlath O'Brien Crista Hazell Louise Riley Mark Creasy Martin Illingworth Ian Loynd David Rogers Professor Mick Waters and Professor Paul Clarke

Macro-Level Learning through Massive Open Online Courses (MOOCs): Strategies and Predictions for the Future McKay, Elspeth, Lenarcic, John, 2015-03-31 To some in academia Massive Open Online Courses are a paradigm shift in online education while others perceive them as a threat to traditional styles of pedagogy In this regard the time honored model of the university lecture is seen as being a potential casualty of the rise of MOOCs Macro Level Learning through Massive Open Online Courses MOOCs Strategies and Predictions for the Future provides insight into the emerging phenomenon of MOOCs as a design manual for the course designer with a collection of chapters that deal with all facets of the MOOC debate Industry training developers corporate trainers educators post graduate students and others will benefit from the information provided in this book

Thinking Ahead Paul A. Wagner, Daphne Johnson, Frank Fair, Daniel Fasko Jr., 2018-02-09 This book addresses a very important aspect of teacher training as well as the training of educational administrators school counselors and other educational allied professionals an aspect that is too often overlooked That aspect is role modeling a deliberative mind A deliberative mind is one filled with wonderment and eagerness to learn We introduce educational professionals to systematic pondering and large scale wonderment

Southeast Asia's Multipolar Future Thomas Parks, 2023-06-15 Southeast Asia is rapidly becoming a competitive space for geopolitical rivalries The growth in China U S strategic competition is creating deep anxiety among Southeast Asia leaders China's rising power is felt across every corner of Southeast Asia and many leaders are worried about the long term implications of rising Chinese influence in the region The United States increasingly assertive approach

towards China is welcomed by some governments but the growth in tensions is creating deep anxiety about a possible new Cold War How can the region prevent a repeat of the divisions and bitter rivalries of the previous Cold War This book argues that Southeast Asia is emerging as an open autonomous region where small and middle powers can maintain their sovereignty and shape the regional order Despite new superpower pressures the region is moving towards a multi polar order with greater agency for Southeast Asian countries The key to Southeast Asia s future may be other external powers particularly Japan Australia India and Europe who can provide ASEAN governments with more diverse partnerships enabling them to avoid the bipolar blocs of superpower rivalries The book argues that external partners are helping to shape the geopolitical order by supporting ASEAN leadership and diluting the influence of great powers Southeast Asian countries also have remarkable capacity to manage asymmetrical relations and balance external powers The book describes the region s history of managing great power relations drawing on historical and contemporary cases By examining the dynamics between Southeast Asia and external powers the book predicts that the region s future will look entirely different from its Cold War past

Real World Psychology Catherine A. Sanderson,Karen R. Huffman,2019-12-24 Real World Psychology balances comprehensive coverage of the key concepts in introductory psychology with a concise presentation style and engages students with current and interesting research that explores these concepts in real life contexts Real World

Psychology features the incomparable author team of Karen Huffman Palomar College and Catherine Sanderson Amherst College who create an outstanding text that is appealing to students and instructors at a wide range of academic institutions. The new edition has been thoroughly updated and features a new focus on Scientific Thinking and Practical Applications underscoring the fact that connecting the principles of psychological science to everyday life is critical to student engagement and ultimately key to their success not only in the introductory psychology course but in whatever their chosen field of study and in everyday life. Students will leave the course with an appreciation of how a basic yet scientific understanding of human behavior can benefit them in their studies in their personal lives and in their professional endeavors.

The Empire's New Clothes Philip Murphy, 2018-08-01 In the wake of Brexit the Commonwealth has been identified as an important body for future British trade and diplomacy but few know what it actually does. How is it organized and what has held it together for so long? How important is the Queen's role as Head of the Commonwealth? Most importantly, why has it had such a troubled recent past and is it realistic to imagine that its fortunes might be reversed? In *The Empire's New Clothes* Murphy strips away the gilded self-image of the Commonwealth to reveal an irrelevant institution afflicted by imperial amnesia. He offers a personal perspective on this complex and poorly understood institution and asks if it can ever escape from the shadow of the British Empire to become an organization based on shared values rather than a shared history.

Essentials of Mathematical Thinking Steven G. Krantz, 2017-10-06 *Essentials of Mathematical Thinking* addresses the growing need to better comprehend mathematics today. Increasingly, our world is driven by mathematics in all aspects of life. The book is an excellent introduction to the world of mathematics for students not majoring in mathematical studies. The author has written this book in an enticing, rich manner that will engage students and introduce new paradigms of thought. Careful readers will develop critical thinking skills which will help them compete in today's world. The book explains: What goes behind a Google search algorithm? How to calculate the odds in a lottery? The value of Big Data? How the nefarious Ponzi scheme operates? Instructors will treasure the book for its ability to make the field of mathematics more accessible and alluring with relevant topics and helpful graphics. The author also encourages readers to see the beauty of mathematics and how it relates to their lives in meaningful ways.

Shared Prosperity in a Fractured World Dani Rodrik, 2025-11-04 New practical approaches to confronting today's most daunting global issues. Fighting climate change, saving democracy, and eradicating poverty are urgent global challenges, yet the world's leaders continue to pursue outdated policies that focus on one while worsening the tradeoffs between each of them. *Shared Prosperity in a Fractured World* shows how the nations of the world can achieve all three objectives. Dani Rodrik provides a bold new vision of globalization, one in which we accelerate the green transition to achieve a sustainable planet, shore up the middle class to restore democracy's foundations, and hasten economic revitalization in the developing world to put an end to poverty. The rising tide of authoritarianism has demonstrated our inability to alleviate economic anxieties. Economic nationalism has raised the specter of increased protectionism and

deteriorating prospects for economic growth And automation and other new technologies have undercut the advantages of low cost unskilled labor in manufacturing and export oriented industrialization Rodrik reveals how we can restore prosperity through new forms of collaborative public private action to promote renewables and green industries middle class jobs and enhanced productivity in labor absorbing services even in the absence of global cooperation He explains why this new kind of globalization must also recognize the legitimate desire of governments to pursue their economic social and security interests autonomously Turning conventional economic wisdom on its head Shared Prosperity in a Fractured World builds on practices that work while radically transforming those that don t presenting a grounded clear eyed approach to tackling the problems that affect us all at home and around the world
