**Oxford Studies in Agency and Responsibility Volume 4** David Shoemaker, 2017-07-25. *Oxford Studies in Agency and Responsibility* is a series of volumes presenting outstanding new work on a set of connected themes investigating such questions as: What does it mean to be an agent? What is the nature of moral responsibility? Of criminal responsibility? What is the relation between moral and criminal responsibility if any? What is the relation between responsibility and the metaphysical issues of determinism and free will? What do various psychological disorders tell us about agency and responsibility? How do moral agents develop? How does this developmental story bear on questions about the nature of moral judgment and responsibility? What do the results from neuroscience imply if anything for our questions about agency and responsibility? OSAR thus straddles the areas of moral philosophy and philosophy of action but also draws from a diverse range of cross-disciplinary sources including moral psychology, psychology proper including experimental and developmental psychology, philosophy of psychology, philosophy of law, legal theory, metaphysics, neuroscience, neuroethics, political philosophy and more. It is unified by its focus on who we are as deliberators and inter-actors, embodied practical agents negotiating sometimes unsuccessfully a world of moral and legal norms.

*Just Deserts* Daniel C. Dennett, Gregg D. Caruso, 2021-01-14. The concept of free will is profoundly important to our self-understanding, our interpersonal relationships and our moral and legal practices. If it turns out that no one is ever free and morally responsible, what would that mean for society, morality, meaning and the law? *Just Deserts* brings together two philosophers, Daniel C.

Dennett and Gregg D Caruso to debate their respective views on free will moral responsibility and legal punishment In three extended conversations Dennett and Caruso present their arguments for and against the existence of free will and debate their implications Dennett argues that the kind of free will required for moral responsibility is compatible with determinism for him self control is key we are not responsible for becoming responsible but are responsible for staying responsible for keeping would be puppeteers at bay Caruso takes the opposite view arguing that who we are and what we do is ultimately the result of factors beyond our control and because of this we are never morally responsible for our actions in the sense that would make us truly deserving of blame and praise punishment and reward Just Deserts introduces the concepts central to the debate about free will and moral responsibility by way of an entertaining rigorous and sometimes heated philosophical dialogue between two leading thinkers **Oxford Studies in Agency and Responsibility Volume 6** David
