whilst challenging money theory by positing substantive and empirically grounded monetary contestation that demonstrates a burden of risk imposed on ordinary people that is only exacerbated by financial inclusion

Aid, Politics and the War of Narratives in the US-Pakistan Relations Hussain Nadim, 2022-07-22 This book analyses the aid politics and the war of narratives between the US and Pakistan under the Kerry Lugar Berman Act 2009 2013 using the security development nexus as a framing discourse and taking a decolonial approach to the subject The book explores the politics of US foreign aid to Pakistan with regard to the issues of sovereignty and agency to analyse the notions of aid power and narratives in the asymmetrical US Pakistan relations Based on primary interviews and extensive data analysis of US foreign aid datasets the book specifically argues that foreign aid is based under the hubris of the security development nexus which encourages a dialectical power struggle between the US and Pakistan and between the civil and military actors inside Pakistan which use the indivisibility of security and development to advance their strategic interests over each other This book is a timely analysis given the recent political turmoil in Pakistan that saw the ouster of

Prime Minister Imran Khan who blamed the Biden Administration for orchestrating a regime change conspiracy against his government Interdisciplinary and relevant to academic and policy debates this book will be of interest to researchers in the fields of Development Studies International Relations Policy Studies Area Studies and in particular South Asian Politics

Proxy Wars Eli Berman, David A. Lake, 2019-03-15 The most common image of world politics involves states negotiating cooperating or sometimes fighting with one another billiard balls in motion on a global pool table Yet working through local proxies or agents through what Eli Berman and David A Lake call a strategy of indirect control has always been a central tool of foreign policy Understanding how countries motivate local allies to act in sometimes costly ways and when and how that strategy succeeds is essential to effective foreign policy in today's world In this splendid collection Berman and Lake apply a variant of principal agent theory in which the alignment of interests or objectives between a powerful state and a local proxy is central Through analysis of nine detailed cases *Proxy Wars* finds that when principals use rewards and punishments tailored to the agent's domestic politics proxies typically comply with their wishes when the threat to the principal or the costs to the agent increase the principal responds with higher powered incentives and the proxy responds with greater effort if interests diverge too much the principal must either take direct action or admit that indirect control is unworkable

Covering events from Denmark under the Nazis to the Korean War to contemporary Afghanistan and much in between the chapters in *Proxy Wars* engage many disciplines and will suit classes taught in political science economics international relations security studies and much more

The Sovereign Lives of India and Pakistan Atul Mishra, 2021-10-20 The *Sovereign Lives of India and Pakistan* explores what it has meant for the two countries to act as sovereign states entangled at birth by an unsatisfactory partition Sovereignty is conventionally understood as a means to achieve the goals that states set for themselves This book argues that for India and Pakistan sovereignty has become an end in itself and that its pursuit has aided majoritarianism insecurity and mutual estrangement It examines the trajectory of three problems that the partition of 1947 bequeathed to the two states It investigates the state minority relations national identity debates and contestation over Kashmir to outline the parallel processes of minoritization homogenization and territorialization It shows how these processes signify the two states' quest for sovereignty The scholarship on India and Pakistan often privileges their bilateral relations In contrast the author carries out the deeper task of a single frame analysis and critique of their intertwined statehoods Ultimately the book shows the inadequacy of the nation state form as the basis for political community in the subcontinent It concludes by pointing to the contemporary relevance of alternative ideas of sovereignty and political community in South Asia that were articulated during the first half of the 20th century

Threats to External and Internal Security of Pakistan In the Age of Globalization Zain Ul Abiden Malik, 2024-09-11 Diploma Thesis from the year 2024 in the subject Politics Topic International relations grade A Jamia Hamdard University School of History and Civilization Shaanxi Normal University Xi'an Shaanxi China course International Relations language English abstract We live in an era of

globalization where the question of security has emerged in a new form and character In this dissertation an attempt has been made to assess the current external as well as internal security threats to Pakistan and to investigate feasible remedial measures to enhance the national structure on domestic fronts As evident from the title this dissertation revolves around the internal and external security threats to Pakistan in the light of globalization Various external and internal security threats to Pakistan weaknesses of our national response and viable countermeasures are proposed in this dissertation This topic is one of Pakistan s most critical burning issues and is well recognized nationally and internationally as it evaluates the characteristics of the social order in Pakistan from several perspectives to find out the causes of domestic unrest and stresses the primary factors contributing in the peace of our society The importance of this research study further increases as the articles and study papers available on this topic are still in want of more input to chalk out viable solutions of the problems counter actions In this dissertation an active attempt has been made to assess the flaws of the security structure of Pakistan in order to propose practical countermeasures In order to achieve progress and prosperity all Pakistan need is sincerity cooperation and unity The origin of the domestic security challenges of a country can be traced from the internal and external quarters India and Afghanistan the two immediate neighbors pose a conventional or external threat to the stability of Pakistan Furthermore global powers like United States and Russia also threaten the stability of Pakistan due to their changing interests in the global order setting On the other hand internal threats to Pakistan are due to the domestic political ethnic sectarian extremism and Jihadi culture prevalent in the country It is often carried out by external activities According to the official nationalism of Pakistan the country was created on the basis of the two nation theory which clearly states that the Indian Muslims are a separate and distinct community for the Hindu nation

India-Pakistan Strategic Relations

Christoph Mumtaz, Uzma Bluth, 2020-05-25 India and Pakistan have been in a state of persistent conflict that goes back to the very creation of these states after decolonization This conflict has resulted in several wars and continuing armed clashes After both states became nuclear powers one would have expected a fundamental change in the way they wage war since it is a fundamental principle of International Relations theory that nuclear armed states do not go to war with each other But the situation in South Asia seems to defy this principle India s conventional superiority should be neutralized by Pakistan s nuclear capability while Pakistan s risk taking behavior should be reduced But as a matter of fact the situation has turned out quite differently Although large scale conventional wars have not occurred the nuclear status seems to have encouraged conflict and risk taking The number of armed clashes rose Bluth and Mumtaz scrutinize the atypical and seemingly paradoxical impact of nuclearization on the conflict between India and Pakistan paying extra attention on the question of how stable this paradoxical strategic relationship is They demonstrate that the dominant paradigm used in the International Relations literature is by far not adequate to explain the strategic relations between India and Pakistan and set to work on developing a more coherent explanation A must read for everyone interested in International Relations and conflict

resolution research **Imagining Pakistan** Rasul Bakhsh Rais, 2017-08-30 Imagining Pakistan argues that the creation of Pakistan is a result of Muslim modernism in the Subcontinent as it defined the struggle for identity nationalism and empowerment of Muslim communities This modernist movement represented the ideals of inclusivity equal rights a liberal constitutional framework and a shared sense of political community among diverse ethnic and regional groups However while this modernity was the ideal of Pakistan's founders it faced resistance from Islamists obsessed with recovering a past legacy of lost Muslim glory A major threat to political modernism also came from the military that wanted to create a strong and secure Pakistan through controlled democracy Multiple interventions by the military and deviations from the foundational republican ideas left Pakistan in the rough sea of power struggles causing institutional decay and creating space for the rise of radical Islam Imagining Pakistan analyzes the institutional imbalance between the military and the civilian groups the idea of the security state and the Islamist social forces and movements that have been engaged in the politics of Islamic revival It argues that Pakistan's stability security and progress will depend on pursuing the path of political modernity Although the restoration of parliamentary democracy and the resilience of the Pakistani society are hopeful signs resolving the critical issues that Pakistan faces today will require consolidation of democracy better leadership and a moderate and modernist vision of both the state and the society **Vigilante Islamists** Joshua T. White, Professor of the Practice of International Affairs Joshua T White, 2025-07-17 For over three decades the Pakistani state has had to contend with the rise of violent anti state movements that have sought to overthrow the government for being insufficiently Islamic This book provides an inside look at how Islamist political parties which often have sympathies with these radical groups but also have a stake in the democratic system make decisions about whether to support or undermine violent movements that are challenging the state With five studies that span three decades the book provides a detailed look at some of Pakistan's most interesting and controversial political parties **Charting a Course: Strategic Choices for a New Administration** Richard D. Hooker (Jr.), 2016 Excerpt from Charting a Course Strategic Choices for a New Administration The new administration takes office in a time of great complexity Our new President faces a national security environment shaped by strong currents globalization the proliferation of new poor and weak states as well as nonstate actors an enduring landscape of violent extremist organizations slow economic growth the rise of China and a revanchist Russia a collapsing Middle East and a domestic politics wracked by division and mistrust While in absolute terms the Nation and the world are safer than in the last century today the United States finds itself almost on a permanent war footing engaged in military operations around the world No formal document describes a grand strategy for the United States and indeed many academics deny that one exists Yet a close look at our history as a world power suggests that core interests and how we secure them have remained generally consistent over time If grand strategy rises above particular strategies intended to secure particular objectives many decades of focusing on nuclear deterrence power projection alliances and partnerships and military and economic

strength probably constitute the underpinnings of a coherent grand strategy How we employ and leverage these instruments of national power to protect defend and advance the national interest is after all the essence of grand strategy In a dangerous world these pillars have provided a strong foundation for national security If our domestic politics can achieve consensus on future threats and solutions America is well positioned to lead and prosper in a world that will remain both dangerous and uncertain R D Hooker Jr Director Institute for National Strategic Studies National Defense University Washington D C

Youth and the National Narrative Marie Lall,Tania Saeed,2019-11-28 The role of the security establishment in Pakistan has been strengthened in a post Musharraf era as social institutions are increasingly drawn into the security agenda Pakistan's problems are often explained through the lens of ethnic or religious differences the tense relationship between democracy and the Pakistan military or geopolitics and terrorism without taking into account young citizens role in questioning the state and the role of the education system Based on new research and interviews with more than 1900 Pakistanis aged 16-28 the authors examine young people's understanding of citizenship political participation the state and terrorism in post Musharraf Pakistan The authors explore the relationship between the youth and the security state highlighting how the educational institutions social media political activism and the entire nature of the social contract in Pakistan has been increasingly securitized The focus is on the voices of young Pakistanis their views on state accountability or lack thereof political literacy and participation and the continued problem of terrorism that is transforming their views of both their country and the world today With 67% of the country's population under the age of 30 this book is a unique window into how Pakistan is likely to evolve in the next couple of decades

Comparative Grand Strategy Thierry Balzacq,Peter Dombrowski,Simon Reich,2019-05-28 This book develops a new approach in explaining how a nation's Grand Strategy is constituted how to assess its merits and how grand strategies may be comparatively evaluated within a broader framework The volume responds to three key problems common to both academia and policymaking First the literature on the concept of grand strategy generally focuses on the United States offering no framework for comparative analysis Indeed many proponents of US grand strategy suggest that the concept can only be applied at most to a very few great powers such as China and Russia Second characteristically it remains prescriptive rather than explanatory ignoring the central conundrum of why differing countries respond in contrasting ways to similar pressures Third it often understates the significance of domestic politics and policymaking in the formulation of grand strategies emphasizing mainly systemic pressures This book addresses these problems It seeks to analyze and explain grand strategies through the intersection of domestic and international politics in ten countries grouped distinctively as great powers The G5 regional powers Brazil and India and pivotal powers hostile to each other who are able to destabilize the global system Iran Israel and Saudi Arabia The

book thus employs a comparative framework that describes and explains why and how domestic actors and mechanisms coupled with external pressures create specific national strategies Overall the book aims to fashion a valid cross contextual framework for an emerging research program on grand strategic analysis **The Terrorism Trap** Harrison

Akins,2023-06-20 After two decades and trillions of dollars the United States fight against terrorism has achieved mixed results Despite the vast resources and attention expended since 9 11 terrorism has increased in many societies that have been caught up in the war on terror Why have U S policies been unable to stem the tide of violence Harrison Akins reveals how the war on terror has had the unintended consequence of increasing domestic terrorism in U S partner states He examines the results of U S backed counterterrorism operations that targeted al Qaeda in peripheral regions of partner states over which their central governments held little control These operations often provoked a violent backlash from local terrorist groups leading to a spike in retaliatory attacks against partner states Senior U S officials frequently failed to grasp the implications of the historical conflict between central governments and the targeted peripheries Instead they exerted greater pressure on partner states to expand their counterterrorism efforts This exacerbated the underlying conditions that drove the escalating attacks trapping these governments in a deadly cycle of tit for tat violence with local terrorist groups This process Akins demonstrates accounts for the lion s share of the al Qaeda network s global terrorist activity since 2001 Drawing on extensive primary sources including newly declassified documents dozens of in depth interviews with leading government officials in the United States and abroad and statistical analysis **The Terrorism Trap** is a groundbreaking analysis of why counterterrorism has backfired **The Challenge of Global Migration - Human Rights, Security and Refugees**

Christoph Bluth,2024-07-30 This is a comprehensive study that examines the sources of refugee flows in particular as they relate to political persecution trafficking human slavery and human rights challenges Liberal democratic states have been contending with significant refugee inflows The migration of large populations to Europe and North America is driven by various factors including regional conflicts the impacts of global warming political opposition to autocratic regimes and societal as well as cultural relations The purpose of this study is to understand the nature of human rights challenges to cut through false perceptions and myths in relation to the sources of migration and refugee flows and to provide a deeper understanding for academics and practitioners in relation to the support for refugees and victims of human slavery
