MEET the ENGLISH DAVID CASON,2015-02-22 The single quality that sets the English apart from their European cousins is that they are an island people Their closest neighbours are the fish in the sea This unusual relationship brings out unexpected behaviour and highlights their eccentricity they drive on

the opposite side of the road to the rest of the world like their beer warm rather than cold prefer roundabouts to traffic lights pretend that foreign languages don't exist sprinkle vinegar over their chips and for centuries used a peculiar measurement system with strange units of feet stones and hands The English are indeed an enigmatic folk normal on the surface but stranger with every layer revealed encyclopaedias could be written about their quirky habits This slim volume attempts no more than to scratch the surface of a big subject C.R.A.P Ravi Kodukula,2016-03-31 Now that you hold this book in your hand let me talk to you for a while not that you are a dimwit but I am sure you would have figured this out by now This book does not have any purpose or meaning There's already a lot of crap flying around in the publishing world so I just thought of adding some more really This book does not come from somebody highly accomplished or acclaimed in fact this book does not intend to cause that earth shattering shift too toward any acclamation There is no foreword middles or epilogue to this book There are no endorsements from highly acclaimed litterateurs This book does not claim to be a bestseller and will never get to be one This book does not address a social cause it does not solve the carbon catastrophe that you see around you This is not a self help book so no philosophy no quantum physics no next generation robotics in here And this book is definitely not from the wannabe stables of a Booker or a Pulitzer This book at its worst can go down the bookshelves as the World
