Peer-to-peer Training Facilitator's Guide Michele N. Costanza,2009 The peer to peer P2P training approach

involves small groups of people from similar social groupings who are not professional teachers helping each other to learn. The P2P approach has great potential for rapidly identifying emerging lessons learned and integrating them into wide reaching Army training. The present research identified the instructional principles and best practices for P2P from academia, industry and the military supporting effective P2P training and incorporated them into a Soldier friendly facilitator's guide. A formative evaluation was conducted with Soldiers using the guide to prepare and conduct group discussions for a face to face group setting and a distributed group setting where Soldiers were linked via video teleconference. One group of Soldiers served as facilitators and used the facilitator's guide to prepare and lead discussions with other Soldiers who served as learners. Feedback on the guide was mostly positive with Soldiers indicating that the guide provided an appropriate amount of information and a usable format and tools for structuring and fostering group discussions. Ongoing efforts to transition P2P methods into Army training are discussed.

A Manual of the Geology of India R. D. Oldham, 1893 **Popular Photography**, 1999-08 **Popular Photography**, 2005-02 **Foundations of Korean Martial Arts: Masters, Manuals and Combative Techniques** Michael DeMarco, M.A., et al., 2017-01-29. Most of what are referred to as Korean martial art styles are actually derived from Japanese Okinawan karate systems or find their roots in Chinese boxing. The Korean peninsula has existed as a fragile territory between China and Japan and thus shared many cultural elements from their neighbors. To what degree has the Japanese and Chinese arts influenced those practiced in Korea over the centuries? Can we distinguish any original Korean martial art style? Chapters in this anthology are derived from the *Journal of Asian Martial Arts* specifically in response to such questions as asked above. The authors provide great detail on the military martial manuals that recorded both battlefield arts and personal combative arts and use these sources to give a picture of the martial traditions practiced in Korea for hundreds of years. In chapter one Stanley Henning provides an excellent overview of martial arts in Korea since the earliest dynasties. These include bare hand arts as well as those with

weaponry His overview illuminates the time and place of highly influential military manuals as discussed in the chapter by Manuel Adrogu John Della Pia s two chapters focus on a particular manual the Muye Dobo Tongji 1790 providing details of open hand and weapons training in particular with the unique Korean native sword Two chapters provide the theory and practice of qigong methods for health and martial effectiveness Dr Patrick Massey et al offer results on the use of breathing methods affecting lung capacity Sean Bradley s chapter goes deeply into the medical theories that parallel the practice of Sinmoo Hapkido s qigong methods The final two chapters focus on practical fighting applications from Hapkido Marc Tedeschi s chapter provides sound advice for self defense against multiple opponents In addition to detailing principles that give any defender a helpful advantage Tedeschi shows nineteen examples of techniques against two three and four opponents that include pressure point striking throws arm bars locks and a variety of kicks In the closing chapter Sean Bradley discusses a few of his favorite techniques where he learned them and why they are memorable Rich in historical details and practical advice this anthology will prove to be a prized reference work to all interested in the Korean martial traditions
