Sustainability Management And Business Strategy In Asia

Katsuhiko Kokubu, Yoshiyuki Nagasaka, 2019-10-15 Sustainability is a concept that unifies the environment economy and society and has spread as a key concept in enterprise management The United Nations adopted the Sustainable Development Goals SDGs in 2015 which require worldwide efforts to reach a sustainable society and also applies to private enterprises Sustainability should be developed in connection with management strategy and Asia's role including that of Japan is important to improve global sustainability This book addresses how sustainability management in the Asian context is currently practised and proposes practices for the future Investigation of the effect of business domain characteristics on the integration of sustainability and management and elucidation of the process and features of EMCS Environmental Management Control System inside and outside of companies have been indicated The book points that companies need to use and design Sustainability Management Control Systems in order to implement a CSR Corporate Social Responsibility strategy and match employees behavior to CSR activities MFCA Material Flow Cost Accounting has started to expand rapidly into other Asian industries from Japan as a method of Environmental Management Control The fundamental idea and procedure of MFCA and many case examples of Japanese MFCA have been reported These findings help us to consider a policy for continuous use of MFCA Moreover the relationship between Toyota Production System and MFCA has been explained and Material Flow Time Costing as a new management accounting concept is proposed Based on the literature review the study has made recommendations for Asian companies strategic management and governmental policy making to improve both quality and quantity of sustainability disclosure in Asia One of the papers has identified the development and implementation of social and environmental accounting by Indonesian state owned enterprises and their determining factors In a Japanese manufacture the effect of smoothed production has been analyzed as an example of environmental management This led to an increase in production quality without additional capital spending

China's Industrial Policies and the Global Business Revolution

Ling Liu, 2005-07-05 As China has blended market reforms with comprehensive industrial policies most research has focused on the national government's strategies for economic growth However one of the unique characteristics of industrial policy in China is that it involves government intervention at all levels from the political elite all the way down to village leaders This book focuses on the domestic appliance industry and China's three major business groups in this area Haier Hisense and Aucma The Haier Group in particular is one of the most successful and competitive enterprises in China and is very well placed to compete globally as the Chinese economy becomes more integrated with the world trading system This volume shows how industrial policy is formulated at the national level and implemented at the local level and examines how local government frequently intervenes in local enterprises business strategy and management Of practical importance this book provides academics business people and policy makers with

valuable insights into the development process and a concrete understanding of the challenges faced in the global business revolution by one of the world's most dynamic economies *50 Years Of Engineering In Singapore* Tao Soon Cham, 2017-10-13 An underpinning force in Singapore's remarkable 50 year transformation into a sophisticated world class city engineering has contributed significantly to the nation's economic infrastructural and social developments A joint publication by The Institution of Engineers Singapore and World Scientific Publishing to celebrate Singapore's 50th birthday 50 Years of Engineering in Singapore brings to life the extraordinary engineering feats across multiple disciplines and tells the stories of these exceptional engineers who with their determinations and courage turned the little red dot into a jewel of a city A vibrant record of engineering excellence the publication traces the goliath challenges impeding the nation's growth over the past five decades and the engineering innovations that brought about wealth creation higher standards of living and enhanced liveability This compendium covers land transportation ERP system MRT and LRT roads and buses system water management and engineering energy supply and maintenance manufacturing in the areas of electronics precision engineering chemical and pharmaceutical bio medical engineering housing cities infrastructure and land use reclamation and underground air and sea hub and telecommunications ICT and software *Potent Greenhouse Gases*, 2007 **2024-25 RRB/DRDO/ISRO Refrigeration & Air Conditioning Solved Papers** YCT Expert Team, 2024 25 RRB DRDO ISRO Refrigeration Air Conditioning Solved Papers **Absolute Beginner's Guide to Wi-Fi Wireless Networking** Harold Davis, 2004 Provides information on wireless networking covering such topics as 802.11 standards hotspots and setting up a wireless network **SINGAPORE Major Manufacturers Directory**, **Hoshin Kanri** David Hutchins, 2016-07-22 The results of the quality revolution have been mixed Global competition has elevated the most successful companies in terms of providing goods and services but even then initiatives such as total quality business process re engineering and Six Sigma have been heralded as the solution only to have been replaced with the next big thing when it came along Hoshin Kanri is not the next big thing in quality it is a strategic approach to continuous improvement that provides a context for all of the individual elements such as Six Sigma or Lean Manufacturing David Hutchins Hoshin Kanri shows you how to develop a dynamic vision for continuous improvement to implement effective policies to support it to link key performance indicators to Six Sigma Lean Manufacturing and Kaizen and to sustain a strategy led programme for improving business performance

Quality Beyond Borders David Hutchins, 2019-04-09 Winner of the Walter E Masing Book Prize 2019 at the International Academy for Quality Perceptions as to the nature of the Quality Sciences and disciplines vary across the world depending on local industrial history This can cause problems for global organisations who often want to retain the quality policies of the parent company whilst attempting to embrace the approaches familiar to local people For example whilst Western organisations have embraced Six Sigma Lean and other Japanese management techniques we have tended to adopt them in a hotchpotch fashion bolting them on without ever understanding the context behind total quality control In Japan

these concepts are not considered to be standalone but are all part of a seamless companywide matrix of interactive concepts which can be summed up as company wide quality work of by and for all In essence this means that quality is everybody s responsibility from the chief executive downwards David Hutchins has over several decades worked in all of the cultural blocks and has consistently managed to integrate all of these differences into a single companywide approach When the concepts covered are integrated into a total company wide programme the intention is to make that organisation the best in its business in Japanese terms this implies Dantotsu which means number one thinking Accessible and practical in approach Quality Beyond Borders is split into short sections each representing a self contained idea for the reader to digest and reflect on It is a valuable resource for business practitioners students and academics alike that will enable you to reach beyond your own borders to implement new ideas with significant results

ASIA Major Companies Directory , Sun Rise: Your Complete Guide to Sustainable Living , **China's Outward Foreign Investment** Xiaofei Li,2010-08-13 This book explores the characteristics of China s outward foreign investment its motivation its sector distribution and its geographical distribution in order to illustrate the current pattern of merchant state dualism in China s overseas foreign direct investment Merchant state dualism is a hybrid relationship between the state and society that maintains state control over merchants while giving them some autonomy By investigating the interactions between business and government elites to determine Chinese outward foreign investment and by exploring the reasons for selecting certain foreign investments in light of internal political and economic concerns and the external effect of investing in politically sensitive countries the book highlights the political underpinnings and calculations of China s foreign investment It thus sheds light on current merchant state dualism by concluding that merchant state dualism is the most suitable model for explaining contemporary Chinese government business relations
