Reinventing New London John J. Ruddy, 2000 As the twentieth century dawned New London home to a dying whaling industry was trying to reinvent itself as it had so many times before When the U S Navy and the Coast Guard arrived the city got a new lease on life That is where Reinventing New London begins chronicling the history of the Whaling City through vivid photographs taken over the next sixty years During that time the nation s first submarine base and the U S Coast Guard Academy were established and those who were stationed there helped to win two world wars But just as its future seemed assured New London found itself in ruins after the catastrophic hurricane of 1938 From the ashes of the storm the city built a seaside resort Ocean Beach Park on Long Island Sound Meanwhile New London faced its greatest challenge ever in the changing times after World War II As residents and businesses fled to suburbia the city undertook a bold campaign to reinvent itself yet again and what resulted changed New London forever **Images of America** Lianne E. Crandall,2014-04-28 This book examines the long complex experience of American involvement in irregular warfare It begins with the American Revolution in 1776 and chronicles big and small irregular wars for the next two and a half centuries What is readily apparent in dirty wars is that failure is painfully tangible while success is often amorphous Successfully fighting these wars often entails striking a critical balance between military victory and politics America s status as a democracy only serves to make fighting and to a greater degree winning these irregular wars even harder Rather than futilely insisting that Americans should not or cannot fight this kind of irregular war Russell Crandall argues that we would be better served by considering how we can do so as cleanly and effectively as possible      American Architect and the Architectural Review ,1903
