relationality This approach at once pedagogical and practical has the capacity to transform the classroom from a place of containment to one of expansiveness Through critical qualitative creative and arts integrated approaches this collection aims to explore the co curricular capacity of lived experience to re humanize education This is a timely project given the multiple race health environmental and socio political crises playing out on the world stage Contributions include works by authors who explore co curricular inclusion of lived experience for its potential to create more equitable and representative curricula co curricular capacity of lived experience to advance relationality both human and more than human and co curricular potential of lived experience to un privilege the current prioritization of the quantifiable in favour of more inclusive and holistic epistemologies
