**The North American West in the Twenty-First Century** Brenden W. Rensink, 2022-11 In 1893 Frederick Jackson Turner famously argued that the generational process of meeting and conquering the supposedly uncivilized western frontier is what forged American identity In the late twentieth century new western historians dissected the mythologized western histories that Turner and others had long used to embody American triumph and progress While Turner s frontier is no more the West continues to present America with challenging processes to wrestle navigate and overcome The North American West in the Twenty First Century edited by Brenden W Rensink takes stories of the late twentieth century modern West and carefully pulls them toward the present explicitly tracing continuity with or unexpected divergence from trajectories established in the 1980s and 1990s Considering a broad range of topics including environment Indigenous peoples geography migration and politics these essays straddle multiple modern frontiers not least of which is the temporal frontier between our unsettled past and uncertain future These forays into the twenty first century West will inspire more scholars to pull histories to the present and by doing so reinsert scholarly findings into contemporary public awareness

**Uncertain Climes** Joseph Giacomelli, 2023-04-05 Uncertain Climes looks to the late nineteenth century to reveal how climate anxiety was a crucial element in the emergence of American modernity Even people who still refuse to accept the reality of human induced climate change would have to agree that the topic has become inescapable in the United States in recent decades But as Joseph Giacomelli shows in Uncertain Climes this is actually nothing new as far back as Gilded Age America climate uncertainty has infused major debates on economic growth and national development In this ambitious examination of late nineteenth century understandings of climate Giacomelli draws on the work of scientists foresters surveyors and settlers to demonstrate how central the subject was to the emergence of American modernity Amid constant concerns about volatile weather patterns and the use of natural resources nineteenth century Americans developed a multilayered discourse on climate and what it might mean for the nation's future Although climate science was still in its nascent stages during the Gilded Age fears and hopes about climate change animated the overarching political struggles of the time including expansion into the American West Giacomelli makes clear that uncertainty was the common theme linking concerns about human induced climate change with cultural worries about the sustainability of capitalist expansionism in an era remarkably similar to the United States unsettled present

**Into the Jungle!** Jimmy Kugler, 2023-01-27 Near the end of World War II and after a small town Nebraska youth Jimmy Kugler drew more than a hundred double sided sheets of comic strip stories Over half of these six panel tales retold the Pacific War as fought by Frogs and Toads humanoid creatures brutally committed to a kill or be killed struggle The history of American youth depends primarily on adult reminiscences of their own childhoods adult testimony to the lives of youth around them or surmises based on at best a few creative artifacts The survival then of such a large collection of adolescent comic strips from America's small town Midwest is remarkable Michael Kugler reproduces the never before published comics of his father's adolescent imagination as a microhistory of American youth in that formative era Also included in Into the Jungle A Boy's

Comic Strip History of World War II are the likely comic book models for these stories and inspiration from news coverage in newspapers radio movies and newsreels Kugler emphasizes how US propaganda intended to inspire patriotic support for the war gave this young artist a license for his imagined violence In a context of progressive American educational reform these violent comic stories often in settings modeled on the artist s small Nebraska town suggests a form of adolescent rebellion against moral conventions consistent with comic art s reputation for outsider or countercultural expressions Kugler also argues that these comics provide evidence for the transition in American taste from war stories to the horror comics of the late 1940s and early 1950s Kugler s thorough analysis of his father s adolescent art explains how a small town boy from the plains distilled the popular culture of his day for an imagined war he could fight on his audacious even shocking terms

*Nuclear Country* Catherine McNicol Stock,2020-09-18 Militarization and nuclearization were the historical developments most essential to the creation of the rural New Right Both North Dakota and South Dakota have long been among the most reliably Republican states in the nation in the past century voters have only chosen two Democrats Franklin Roosevelt and Lyndon B Johnson and in 2016 both states preferred Donald Trump by over thirty points Yet in the decades before World War II the people of the Northern Plains were not universally politically conservative Instead many Dakotans including Republicans supported experiments in agrarian democracy that incorporated ideas from populism and progressivism to socialism and communism and fought against bigness in all its forms including bonanza farms out of state railroads corporations banks corrupt political parties and distant federal bureaucracies but also surprisingly the culture of militarism and the expansion of American military power abroad In *Nuclear Country* Catherine McNicol Stock explores the question of why between 1968 and 1992 most voters in the Dakotas abandoned their distinctive ideological heritage and came to embrace the conservatism of the New Right Stock focuses on how this transformation coincided with the coming of the military and national security states to the countryside via the placement of military bases and nuclear missile silos on the Northern Plains This militarization influenced regional political culture by reinforcing or re contextualizing long standing local ideas and practices particularly when the people of the plains found that they shared culturally conservative values with the military After adopting the first two planks of the New Right national defense and conservative social ideas Dakotans endorsed the third plank of New Right ideology fiscal conservatism Ultimately Stock contends that militarization and nuclearization were the historical developments most essential to the creation of the rural New Right throughout the United States and that their impact can best be seen in this often overlooked region s history **Empire's Tracks** Manu

**Muslims** Ken Chitwood, 2025 The stories and struggles of Puerto Rican Muslims in modern day America Racial Worldmaking Mark C. Jerng, 2017-11-07 When does racial description become racism Critical race studies has not come up with good answers to this question because it has overemphasized the visibility of race According to dominant theories of racial formation we see race on bodies and persons and then link those perceptions to unjust practices of racial inequality Racial Worldmaking argues that we do not just see race We are taught when where and how to notice race by a set of narrative and interpretive strategies These strategies are named racial worldmaking because they get us to notice race not just at the level of the biological representation of bodies or the social categorization of persons Rather they get us to embed race into our expectations for how the world operates As Mark C Jerng shows us these strategies find their most powerful expression in popular genre fiction science fiction romance and fantasy Taking up the work of H G Wells Margaret Mitchell Samuel Delany Philip K Dick and others Racial Worldmaking rethinks racial formation in relation to both African American and Asian American studies as well as how scholars have addressed the relationships between literary representation and racial ideology In doing so it engages questions central to our current moment In what ways do we participate in racist worlds and how can we imagine and build one that is anti racist **Audiovisual Alterity** Michael L. Austin, 2024-11-04 This new book fully expands our understanding of how historically marginalized groups are represented in music videos Author Michael Austin explores the ways in which Asian and Pacific Islanders Indigenous communities the LGBTQIA community drag performers religious minorities and the incarcerated are represented The book also covers several contemporary

controversies involving music videos especially cultural appropriation. Importantly this book also explores the ways in which marginalized communities use music videos as a way to find their own voice and represent themselves. *Black Montana* Anthony W. Wood, 2021-07 *Black Montana* argues that the state of Montana in its capacity as a settler colony worked to exclude the Black community that began to form inside its borders after Reconstruction. *The Conservative Heartland* Jon K. Lauck, Catherine McNicol Stock, 2020-04-17 In the wake of the 2016 presidential election there was widespread shock that the Midwest the Democrats so called blue wall had been so effectively breached by Donald Trump. But the blue wall as *The Conservative Heartland* makes clear was never quite as secure as so many observers assumed. A deep look at the Midwest's history of conservative politics this timely volume reveals how conservative victories in state houses legislatures and national elections in the early twenty first century far from coming out of nowhere in fact had extensive roots across decades of political organization in the region. Focusing on nine states from Iowa and the Dakotas to Indiana and Ohio the essays in this collection detail the rise of midwestern conservatism after World War II a trend that coincided with the transformation of the prewar Republican Party into the New Right. This transformation the authors contend involved the Midwest and the Sunbelt states. Through the lenses of race class gender and sexuality their essays explore the development of midwestern conservative politics in light of deindustrialization environmentalism second wave feminism mass incarceration privatization and debates over same sex marriage and abortion among other issues. Together these essays map the region's complex patchwork of viable rural and urban areas variously subject to a wide array of conflicting interests and concerns. The perspective they provide at once broad and in depth offers unique historical insight into the Midwest's political complexity and its status as the last real competitive battleground in presidential elections. *Health System Management and Leadership - E-Book* William R.
