New Waves In Ethics New Waves In Philosophy:

New Waves in Metaethics Michael S. Brady, 2010-11-17 Metaethics occupies a central place in analytical philosophy and the last forty years has seen an upsurge of interest in questions about the nature and practice of morality This collection presents original and ground breaking research on metaethical issues from some of the very best of a new generation of philosophers working in this field

New Waves in Applied Ethics Jesper Ryberg, Thomas S. Petersen, Clark Wolf, 2007-11-13 This volume contains work by the very best young scholars working in Applied Ethics gathering a range of new perspectives and thoughts on highly relevant topics such as the environment animals computers freedom of speech human enhancement war and poverty For researchers and students working in or around this fascinating area of the discipline the volume will provide a unique snapshot of where the cutting edge work in the field is currently engaged and where it s headed

New Waves in Ethics T. Brooks, 2011-04-28 Bringing together the leading future figures in ethics broadly construed with essays ranging from metaethics and normative ethics to applied ethics and political philosophy topics include new work on experimental philosophy feminism and global justice incorporating perspectives informed from historical and contemporary approaches alike

New Waves in Ethics T. Brooks, 2011-04-28 Bringing together the leading future figures in ethics broadly construed with essays ranging from metaethics and normative ethics to applied ethics and political philosophy topics include new work on experimental philosophy feminism and global justice incorporating perspectives informed from historical and contemporary approaches alike

New Waves in Applied Ethics Jesper Ryberg, Thomas S. Petersen, Clark Wolf, 2008-01

New Waves in Philosophy of Technology Jan Kyrre Berg Olsen Friis, Evan Selinger, Søren Riis, 2009-01-15 This volume on the philosophy of technology collects new work by the most talented young philosophers in the subject It is a unique collection that crosses the divide between analytic and continental philosophy showing that the rising challenges and extraordinary new possibilities brought about by technological developments necessitate the emergence of new forms of critical philosophical reflection Thought provoking and rigorous this book will stimulate and direct further philosophical research for students and researches in philosophy of science and technology

Governance of Human Gene Editing and Transhumanism Lílian Santos, 2025-01-09 Are there any commonalities between Transhumanism and the WHO framework for global governance of human genome editing If yes what are they and what are the implications for Bioethics To find possible common themes the author applied the reflective thematic analysis RTA method to a set of texts on Transhumanism and a set of texts on the global governance of human genome editing The selected transhumanist texts were the three documents Humanity the former World Transhumanist Association calls the original documents on Transhumanism The Transhumanist Declaration Transhumanist FAQ 3.0 The Transhumanist Manifesto v 4 The selected texts to represent the global governance of human genome editing were the three documents published by WHO on the topic in 2021 the only plan for the global governance of this biotechnology to date Human genome editing a

framework for governance Human genome editing recommendations Human genome editing position paper As a result of the application of the RTA method to the selected texts the author presents and explains three common themes What does this mean for our society What are the implications of the current situation What are the tasks for Bioethics There are emerging questions on the human condition and new concerns to be addressed by Bioethics such as the do it yourself mentality The limitations of therapy vs enhancement ask for serious work on a better bioethical paradigm This book analyses the object intentions and circumstances of enhancement in general and recommends the principle of proportionality The author questions the predominant values and propose a refinement to some conceptions of autonomy protection and equality Finally this book offers key elements for the bioethical evaluation of each type of human genome editing Recognising the current situation and working on the identified tasks has become crucial for contemporary Bioethics

The Continuum Companion to Ethics Christian Miller, 2011-09-29 The Continuum Companion to Ethics offers the definitive guide to a key area of contemporary philosophy The book covers all the fundamental questions asked by meta ethics and normative ethical theory Fourteen specially commissioned essays from an international team of experts reveal where important work continues to be done in the field and most valuably the exciting new directions the field is taking The Companion explores issues pertaining to moral methodology moral realism ethical expressivism constructivism and the error theory morality and practical reason moral psychology morality and religion consequentialism Kantian ethics virtue ethics feminist ethics moral particularism experimental ethics and biology evolution and ethics Featuring a series of indispensable research tools including important technical terms in ethics a historical chronology an extensive overview of contemporary meta ethics and normative ethical theory a detailed list of internet resources for research in ethics and a thorough list of recommended works for further study this is the essential reference tool for anyone working in contemporary philosophical ethics

The Bloomsbury Companion to Ethics Christian B. Miller, 2014-09-25 The Bloomsbury Companion to Ethics offers the definitive guide to this key area of contemporary philosophy Covering all the fundamental questions asked by meta ethics and normative ethical theory thirteen specially commissioned chapters from an international team of experts explore the central ideas terms and case studies in the field and new directions in ethics as a whole Now available in paperback the Companion to Ethics covers issues such as moral methodology moral realism ethical expressivism constructivism and the error theory morality and practical reason moral psychology morality and religion consequentialism Kantian ethics virtue ethics feminist ethics moral particularism experimental ethics and biology evolution and ethics Featuring a series of indispensable research tools including key technical terms a historical chronology a detailed list of internet resources for research in ethics and a thorough list of recommended works for further study this is the essential resource for anyone studying researching and writing in contemporary philosophical ethics

The Bloomsbury Handbook of Ethics Christian B. Miller, 2023-10-19 Updated and expanded to represent the fundamental questions at the heart of philosophical ethics today the second edition of The

Bloomsbury Handbook of Ethics covers the key topics in metaethics and normative ethical theory This edition includes 12 fully revised chapters and 3 newly commissioned contributions from a range of esteemed academics who provide accessible introductions to their own areas of expertise The first part of the book covers the field of metaethics including subjects such as moral realism expressivism constructivism practical reason moral psychology experimental ethics and evolutionary ethics as well as two new chapters that respond to ethical debates concerning moral relativism and moral responsibility that enable students and scholars to better navigate this complicated ethical terrain Moving onto normative ethical theory the second part of the book ranges across morality and religion consequentialism and particularism as well as Kantian virtue feminist and Confucian ethics This comprehensive edition provides a one stop resource for students of ethics which includes updated detailed overviews of the field and methodological issues as well as an appendix of additional resources including technical terms in ethics

African Personhood and Applied Ethics Motsamai Molefe, 2020-02-03 Recently the salient idea of personhood in the tradition of African philosophy has been objected to on various grounds Two such objections stand out the book deals with a lot more The first criticism is that the idea of personhood is patriarchal insofar as it elevates the status of men and marginalises women in society The second criticism observes that the idea of personhood is characterised by speciesism The essence of these concerns is that personhood fails to embody a robust moral political view African Personhood and Applied Ethics offers a philosophical explication of the ethics of personhood to give reasons why we should take it seriously as an African moral perspective that can contribute to global moral political issues The book points to the two facets that constitute the ethics of personhood an account of 1 moral perfection and 2 dignity It then draws on the under explored view of dignity qua the capacity for sympathy inherent in the moral idea of personhood to offer a unified account of selected themes in applied ethics specifically women animal and development

Irrealism in Ethics Bart Streumer, 2014-04-15 Irrealism in Ethics presents a collection of six original essays contributed by prominent moral philosophers that address various forms of the philosophical position of ethical irrealism Addresses various forms of the philosophical position of ethical irrealism Presents arguments both for and against the two major versions of ethical irrealism the error theory and expressivism Offers innovative new arguments on topics relating to ethical irrealism Features original contributions from internationally prominent moral philosophers

The Global Justice Reader Thom Brooks, 2023-02-01 A unique compendium of foundational and contemporary writings in global justice newly revised and expanded The Global Justice Reader is the first resource of its kind to focus exclusively on this important topic in moral and political philosophy providing an expertly curated selection of both classic and contemporary work in one comprehensive volume Purpose built for course work this collection brings together the best in the field to help students appreciate the philosophical dimensions of critical global issues and chart the development of diverse concepts of justice and morality Newly revised and expanded the Reader presents key writings of the most influential writers on global justice including Thomas Hobbes Immanuel Kant

John Stuart Mill Martha C Nussbaum and Peter Singer Thirty nine chapters across eleven thematically organized sections explore sovereignty rights to self determination human rights nationalism and patriotism cosmopolitanism global poverty women and global justice climate change and more Features seminal works from the moral and political philosophers of the past as well as important writings from leading contemporary thinkers Explores critical topics in current discourses surrounding immigration and citizenship global poverty just war terrorism and international environmental justice Highlights the need for shared philosophical resources to help address global problems Includes a brief introduction in each section setting out the issues of concern to global justice theorists Contains complete references in each chapter and a fully up to date extended bibliography to supplement further readings The revised edition of *The Global Justice Reader* remains an ideal textbook for undergraduate and graduate courses in global justice and human rights cosmopolitanism and nationalism environmental justice and social justice and citizenship and an excellent supplement for general courses in political philosophy political science social science and law

The Oxford Handbook of Moral Realism Paul Bloomfield, David Copp, 2023 Morality seems to play a special role in human life distinct from conventional norms like those of etiquette or simple preferences based on subjective tastes There are various theories of the foundations of morality some of which treat morality as subjective in an important way Moral realism is however a family of theories that take morality to have an objective factual basis such that morality is not up to us and is not under our control The contributions in this Oxford Handbook explore the central ideas and themes constituting moral realism and defend particular views about it

The Oxford Handbook of Reasons and Normativity Daniel Star, 2018 The Oxford Handbook of Reasons and Normativity maps a central terrain of philosophy and provides an authoritative guide to it Few concepts have received as much attention in recent philosophy as the concept of a reason to do or believe something And one of the most contested ideas in philosophy is normativity the ought in claims that we ought to do or believe something This is the first volume to provide broad coverage of the study of reasons and normativity across multiple philosophical subfields In addition to focusing on reasons in ethics epistemology and the philosophy of mind action and language the Handbook explores philosophical work on the nature of normativity in general Topics covered include the unity of normativity the fundamentality of reasons attempts to explain reasons in other terms the relation of motivational reasons to normative reasons the internalist constraint the logic and language of reasons and ought connections between reasons intentions choices and actions connections between reasons reasoning and rationality connections between reasons knowledge understanding and evidence reasons encountered in perception and testimony moral principles prudence and reasons agent relative reasons epistemic challenges to our access to reasons normativity in relation to meaning concepts and intentionality instrumental reasons pragmatic reasons for belief aesthetic reasons and reasons for emotions

Morality Without Foundations Mark Timmons, 2004-11-18 Timmons defends an original metaethical view that exploits certain contextualist themes in philosophy of language and epistemology

He advances a view that employs semantic contextualism when engaging in moral discourse

The End of Morality Richard Joyce, Richard Garner, 2018-12-18 According to the moral error theorist all moral judgments are mistaken The world just doesn't contain the properties and relations necessary for these judgments to be true But what should we actually do if we decided that we are in this radical and unsettling predicament that morality is just a widespread and heartfelt illusion One suggestion is to eliminate all talk and thought of morality abolitionism Another is to carry on believing it anyway conservatism And yet another is to treat morality as a kind of convenient fiction fictionalism We tend to think of moral thinking as valuable and useful e.g. for motivating cooperative behavior but we can also recognize that it can be harmful e.g. hindering compromise and even disastrous e.g. inspiring support for militaristic propaganda Would we be better off or worse off if we stopped basing decisions on moral considerations This is a collection of twelve brand new chapters focused on a critical examination of the options available to the moral error theorist After a general introduction outlining the topic explaining key terminology and offering suggestions for further reading the chapters address questions like Is it true that the more that people are motivated by moral concerns the more likely it is that society will be elitist authoritarian and dishonest Is an appeal to moral values a useful tool for helping resolve conflicts or does it actually exacerbate conflicts Would it even be possible to abolish morality from our thinking If we were to accept a moral error theory would it be feasible to carry on believing in morality in everyday contexts Might moral discourse be usefully modeled on familiar metaphorical language where we can convey useful and important truths by uttering falsehoods Does moral thinking support or undermine a commitment to feminist goals What role do moral judgments play in addressing important decisions affecting climate change

The End of Morality Taking Moral Abolitionism Seriously is the first book to thoroughly address these and other questions systematically investigating the harms and benefits of moral thought and considering what the world might be like without morality

The Bloomsbury Research Handbook of Indian Ethics Shyam Ranganathan, 2016-11-17 Featuring leading scholars from philosophy and religious studies The Bloomsbury Research Handbook of Indian Ethics dispels the myth that Indian thinkers and philosophers were uninterested in ethics This comprehensive research handbook traces Indian moral philosophy through classical scholastic Indian philosophy pan Indian literature including the Epics Ayurvedic medical ethics as well as recent traditionalist and Neo Hindu contributions Contrary to the usual myths about India that Indians were too busy being religious to care about ethics moral theory constitutes the paradigmatic differentia of formal Indian philosophy and is reflected richly in popular literature Many of the papers make this clear by an analytic explication that draws critical comparisons and contrasts between classical Indian moral philosophy and contemporary contributions to ethics By critically addressing ethics as a sub discipline of philosophy and acknowledging the mistaken marginalization of Indian moral philosophy this handbook reveals how Indian contributions can illuminate contemporary philosophical research on ethics Unlike previous approaches to Indian ethics this volume is organized in accordance with major topics in moral philosophy

The volume contains an extended introduction exploring topics in moral semantics the philosophy of thought metaethical and normative ethical theory and the politics of scholarship which serve to show how the diversity of Indian moral philosophy is a contribution to the discipline of ethics With an overview of Indian moral theory and a glossary this is a valuable guide to understanding the past present and future research directions of a central component of Indian philosophy *Robust Realism in Ethics* Stephen Ingram,2023 Stephen Ingram defends a robustly realistic metaethical theory based on the concept of normative arbitrariness of which he provides the first in depth analysis He argues that a correct understanding of dialogue about moral matters leads to an understanding of moral epistemology and normative language that supports this view

Punishment Thom Brooks,2012 Punishment is an area of increasing importance and concern to both citizens and politicians How do we decide what should be crimes How do we decide when someone is responsible for a crime What should we do with criminals These are the main questions raised in this book

Uncover the mysteries within is enigmatic creation, **New Waves In Ethics New Waves In Philosophy** . This downloadable ebook, shrouded in suspense, is available in a PDF format (Download in PDF: *).
