New York City and the Hollywood Musical Martha Shearer, 2016-09-26 In examining the relationship between the spectacular iconic and vibrant New York of the

musical and the off screen history and geography of the real city this book explores how the city shaped the genre and equally how the genre shaped representations of the city Shearer argues that while the musical was for many years a prime vehicle for the idealization of urban density the transformation New York underwent after World War II constituted a major challenge to its representation Including analysis of 42nd Street Swing Time Cover Girl On the Town The Band Wagon Guys and Dolls West Side Story and many other classic and little known musicals this book is an innovative study of the relationship between cinema and urban space *Decline and Reimagination in Cinematic New York* Cortland

Rankin,2022-09-02 *Decline and Reimagination in Cinematic New York* examines the cinematic representation of New York from the mid 1960s through the mid 1980s placing the dominant discourse of urban decline in dialogue with marginal perspectives that reimagine the city along alternative paths as a resilient adaptive and endlessly inspiring place Drawing on mainstream independent documentary and experimental films the book offers a multifaceted account of the power of film to imagine the city s decline and reimagine its potential The book analyzes how filmmakers mobilized derelict space and various articulations of nature as settings and signifiers that decenter traditional understandings of the city to represent New York alternately as a desolate wasteland a hostile wilderness a refuge and playground for outcasts a home to resilient and resourceful communities a studio for artistic experimentation an arcadia conducive to alternative social arrangements and a complex ecosystem This book will be of interest to scholars and students of film studies media studies urban cinema urban studies and eco cinema

Suicide: Dream Baby Dream, A New York City Story Kris Needs,2015-10-12 We were living through the realities of war and bringing the war onto the stage Everybody hated us man Alan Vega Born out of the city s vibrant artistic underground as a counter cultural performance art statement opposing the war by mirroring its turmoil Suicide became the most terrifyingly iconoclastic band in history and also one of the most influential By the time the punk scene they re usually associated with came out of CBGBs in the mid seventies Suicide had already been causing havoc in New York s clubs for several years Working closely with the author Rev and Vega explain the influences and events which led to the birth of Suicide and their early struggles They invoke another world and era peppered with smoky jazz clubs Iggy Pop in his new born Stooge persona and even suffer an attack from beat guru Allen Ginsberg Along with interviewing major figures in the Suicide story the author reaches back into 40 years chronicling and interviewing major players in New York s musical history including Blondie Jayne County James Chance and the New York Dolls While the city changes around them it all adds up to the definitive account of the lives and times of this unique duo **Kings of the Garden** Adam J.

Criblez,2024-04-15 In *Kings of the Garden* Adam J Criblez traces the fall and rise of the New York Knicks between the 1973 the year they won their last NBA championship and 1985 when the organization drafted Patrick Ewing and gave their fans hope after a decade of frustrations During these years the teams led by Walt Frazier Earl Monroe Bob McAdoo Spencer Haywood and Bernard King never achieved tremendous on court success and their struggles mirrored those facing New York

City over the same span In the mid seventies as the Knicks lost more games than they won and played before smaller and smaller crowds the city they represented was on the brink of bankruptcy while urban disinvestment growing income inequality and street gangs created a feeling of urban despair Kings of the Garden details how the Knicks fortunes and those of New York City were inextricably linked As the team s Black superstars enjoyed national fame Black musicians DJs and B boys in the South Bronx were creating a new culture expression hip hop that like the NBA would become a global phenomenon Criblez s fascinating account of the era shows that even though the team s efforts to build a dynasty ultimately failed the Knicks like the city they played in scrappily and spectacularly symbolized all that was right and wrong with the NBA and the nation during this turbulent creative and momentous time **Capital** Kenneth Goldsmith,2016-03-08

Acclaimed artist Kenneth Goldsmith s thousand page homage to New York City Here is a kaleidoscopic assemblage and poetic history of New York an unparalleled and original homage to the city composed entirely of quotations Drawn from a huge array of sources histories memoirs newspaper articles novels government documents emails and organized into interpretive categories that reveal the philosophical architecture of the city Capital is the ne plus ultra of books on the ultimate megalopolis It is also a book of experimental literature that transposes Walter Benjamin s unfinished magnum opus of literary montage on the modern city The Arcades Project from nineteenth century Paris to twentieth century New York bringing the streets and its inhabitants to life in categories such as Sex Central Park Commodity Loneliness Gentrification Advertising and Mapplethorpe Capital is a book designed to fascinate and to fail for can a megalopolis truly ever be captured in words Can a history no matter how extensive ever be comprehensive Each reading of this book and of New York is a unique and impossible project Memory and the Built Environment in 20th-Century American Literature Alice Levick,2021-05-20

From the paving of the Los Angeles River in 1938 and the creation of the G I Bill in 1944 to the construction of the Interstate Highway System during the late 1950s and the brownstoning movement of the 1970s throughout the mid 20th century the United States saw a wave of changes that had an enduring impact on the development of urban spaces Focusing on the relationship between processes of demolition and restoration as they have shaped the modern built environment and the processes by which memory is constructed hidden or remade in the literary text this book explores the ways in which history becomes entangled with the urban space in which it plays out Alice Levick takes stock of this history both in the form of its externalised concretised manifestation and its more symbolic representation as depicted in the mid 20th century work of a selection of American writers Calling upon access to archival material and interviews with New York academics authors local historians and urban planners this book locates Freud s Uncanny in the cracks between the absent and present invisible and visible memory and history as they are presented in city narratives demonstrating both the passage of time and the imposition of 20th century modernism With reference to the works of D J Waldie Joan Didion Hisaye Yamamoto Raymond Chandler Marshall Berman Gil Cuadros Paule Marshall L J Davis and Paula Fox Memory and the

Built Environment in 20th Century American Literature unpacks how time becomes visible in Los Angeles Sacramento Lakewood and New York in the decades just before and after the Second World War questioning how these spaces provide access to the past in both narrative and spatial forms and how at times this access is blocked **Play, Creativity, and Social Movements** Benjamin Shepard, 2012-05-23 As we play we step away from stark reality to conjure up new possibilities for the present and our common future Today a new cohort of social activists are using it to create social change and reinvent democratic social relations In contrast to work or routine play must be free To the extent that it is it infuses a high octane burst of innovation into any number of organizational practices and contexts and invites social actors to participate in a low threshold highly democratic process of collaboration based on pleasure and convivial social relations Despite the contention that such activities are counterproductive movements continue to put the right to party on the table as a part of a larger process of social change as humor and pleasure disrupt monotony while disarming systems of power Through this book Shepard explores notions of play as a social movement activity considering some of the meanings applications and history of the concept in relation to social movement groups ranging from Dada and Surrealism to Situationism the Yippies to the Young Lords ACT UP to the Global Justice anti gentrification community and anti war movements of recent years **The Manhattan Project** David Kishik, 2015-03-11 This sharp witty study of a book never written a sequel to Walter Benjamin's Arcades Project is dedicated to New York City capital of the twentieth century A sui generis work of experimental scholarship or fictional philosophy it analyzes an imaginary manuscript composed by a ghost Part sprawling literary montage part fragmentary theory of modernity part implosive manifesto on the urban revolution The Manhattan Project offers readers New York as a landscape built of sheer life It initiates them into a world of secret affinities between photography and graffiti pragmatism and minimalism Andy Warhol and Robert Moses Hannah Arendt and Jane Jacobs the fl neur and the homeless person the collector and the hoarder the glass covered arcade and the bare concrete street These and many other threads can all be spooled back into one realization for far too long we have busied ourselves with thinking about ways to change the city it is about time we let the city change the way we think **Consuming Architecture** Daniel Maudlin, Marcel Vellinga, 2014-03-05 Projecting forward in time from the processes of design and construction that are so often the focus of architectural discourse Consuming Architecture examines the variety of ways in which buildings are consumed after they have been produced focusing in particular on processes of occupation appropriation and interpretation Drawing on contributions by architects historians anthropologists literary critics artists film makers photographers and journalists it shows how the consumption of architecture is a dynamic and creative act that involves the creation and negotiation of meanings and values by different stakeholders and that can be expressed in different voices In so doing it challenges ideas of what constitutes architecture architectural discourse and architectural education how we understand and think about it and who can claim ownership of it Consuming Architecture is aimed at students in architectural education and will also be of

interest to students and researchers from disciplines that deal with architecture in terms of consumption and material culture
