## **New London Postcard History Series:**

*New London* Lawrence Keating and Catherine Keating, 2015 Founded in 1646 and known as the Whaling City New London has played an important role in American history since Colonial days Its natural harbor at the mouth of the Thames River connects the city to the sea Around the turn of the 20th century New London flourished as the hub of southeastern Connecticut With roots as one of the main ports for the whaling industry the city became home to a wealthy summer resort called the Pequot Colony Over the years dramatic changes occurred as a result of natural disasters such as the 1938 hurricane and man made changes such as the 1960s redevelopment project Historical postcards offer a glimpse into bustling city life during this exciting time *New London Police Department* Sr. Sgt. Lawrence M. Keating, Lawrence Keating, and Catherine Keating, 2019 New London Connecticut established its first permanent police force in 1868 when a nightwatch and police station were approved by city council In the late 1800s and into the early 1900s the busy port of New London doubled in population reaching almost 20 000 by 1910 with just 17 patrolmen keeping order In January 1924 the council approved the hiring of a woman as a police officer In the early 1960s a police union was formed by members of the Patrolmen s Benevolent Association to provide better working conditions By the early 1990s the department had moved into its current building and updated its computer aided dispatch added mobile computers in police cars digitized its maps and created a new records management system The current department chief s office overlooks a bus and train depot a busy deepwater port and a city that draws thousands of people every summer **Route 7, The Road North** Laurie J. Bepler, Virginia B. Bepler, 1999-12-01 From the 1890s through the 1920s the postcard was an extraordinarily popular means of communication and many of the postcards produced during this golden age can today be considered works of art Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes documenting local landmarks and assembling crowds of local children only too happy to pose for a picture These images printed as postcards and sold in general stores across the country survive as telling reminders of an important era in Americas history This fascinating new history of Route 7 from Norwalk to Canaan Connecticut showcases more than two hundred of the best vintage postcards available **A Postcard History of the Passenger Liner** Christopher Deakes, 2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world

of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting Japan In The Late Meiji Era. A Unique Postcard History Graham Thomas, 2025-06-03 Other than their artistic merits little research has been done on postcards as historic and cultural artefacts Behind this void lie many reasons In part because of their very nature the fact that they were popular and mass market rather turned the serious historian away In part because they are disposable and they were cheap They possess no status As Arisa Yamaguchi writes in Sartorial Japonisme and the Experience of Kimonos in Britain 1865 1914 the fast and easy to send postcard was considered the letter of the poor because it was cheap In part it is because they are rarely accompanied by a narrative Most of the big collections hold pristine examples that are unspoiled with a written message Hence most postcards are little more than snapshots of scenes such as the countryside towns villages events portraits of celebrities and ordinary people but rarely do they have background information added Over the years their subject matter has become increasingly opaque and their significance lost And it has to be acknowledged many postcards carry images that are banal and possess no inherent or obvious artistic or historic merit Nor do we have much insight into what postcards actually meant to either the sender or the recipient and the role they played in people's lives Yet during this Golden Age whether in Japan Britain and many other countries they became a critical part of telling and spreading the story of a nation In some instances they had an important role in disseminating propaganda but most importantly for a swathe of the population they were an aide to communication when people were neither articulate or literate Let the postcard do the talking in a manner of speaking This collection and analysis is very different most critically as the postcards enjoy the continuity of coming from one person sent frequently over three years They were the equivalent of today's text and social media messaging and posts sent at a time that was pivotal in Japan's history Each postcard is illustrated and described while the first chapters look at Japan during the late Meiji era and the introduction and early history of picture postcards Much has never been covered before so this will be of interest not only to Japan historians but also those interested in the evolution of the picture postcard and why they became so popular

Florey, 2016-04-29 American women's suffrage activists were fascinated with suffrage themed postcards. They collected them, exchanged them, wrote about them, used them as fundraisers, and organized postcard day campaigns. The cards they produced were imaginative and ideological, advancing arguments for the enfranchisement of women and responding to antisuffrage broadsides. Commercial publishers were also interested in suffrage cards, recognizing their profit potential. Their products, though, were reactive rather than proactive; conveying stereotypes they assumed reflected public attitudes, often negative towards the movement. Cataloging approximately 700 examples, this study examines the visual rhetoric of suffrage postcards in the context of the movement itself and as part of the general history of postcards.
