Newman And His Contemporaries:

Newman and His Contemporaries Edward Short, 2011-04-21 **Newman and His Contemporaries** Edward Short, 2011-04-21 This is a book on John Henry Newman's influence on some of the most fascinating characters of the 19th century and their influence on him. No one in nineteenth century England had a more varied circle of friends and contacts than John Henry Newman. 1801-1890 the priest, theologian, educator, philosopher, poet, and writer who began his career as an Anglican, converted to Catholicism and ended his days a Cardinal. That he was also a leading member of the Oxford Movement, brought the Oratory to England, founded the Catholic University in Dublin, and corresponded with men and women from all backgrounds from around the world made him a figure of enormous interest to his contemporaries. In this study of Newman's personal influence, Edward Short looks closely at some of Newman's relations with his contemporaries to show how this prophetic thinker drew on his personal relationships to develop his many insights into faith and life. Some of the contemporaries covered include Keble, Pusey, Gladstone, Matthew Arnold, Richard Holt Hutton, Lady Georgiana Fullerton, and Thackeray. Based on a careful reading of Newman's correspondence, the book offers a fresh look at an extraordinary figure whose work continues to influence our own contemporaries.

Newman and His Critics Short, 2024-09-08 Criticism is often received as a sharp sword, enraging and embittering the recipient. Yet it may also prompt an honest re-examination and a humble defense of one's writings. Newman and his Critics, Edward Short's masterful account of John Henry Newman's dealings with his critics, demonstrates that Newman's charity and love of the truth brought forth magnificent writings that are instructive and convincing, free of acrimony and acerbity. We have much to learn from Newman's truly Christian way of engaging with those who disagreed with him.

John Henry Newman and the English Sensibility Jacob Phillips,2023-04-06 Asides about John Henry Newman being either particularly English or particularly un English are common John Henry Newman and the English Sensibility scrutinises Newman s theological writings to establish how his theology can be considered distinctively English or un English at the different stages of its development In his Tractarian period Newman s theology is shown to be profoundly characterised by common 19th century tropes of a perceived English sensibility namely an instinct for compromise an affection for reserve and a markedly empirical orientation to life In the period following Newman s conversion to Catholicism in 1845 however his theology turns against the Englishness of his earlier years as he critiques of the many theological dangers of a self confident cultural sensibility In his mature writings nonetheless Newman re incorporates certain elements of his earlier Englishness with a Catholic grounding yet also maintains an antipathy to certain targets of his post conversion polemics Phillips finds that the English instinct for compromise is not incorporated into Newman s mature theology which remains unabashedly one sided in its understanding of God and the Catholic Church taking precedence over elements of a cultural sensibility pertaining ultimately to the sphere of the natural The affection for reserve however is shown to be capable of gracious elevation when reconfigured on a Catholic grounding Most importantly the profoundly empirical orientation to life which was considered typical of Englishness in Newman s day emerges as something exhibiting what Newman might consider a antecedent affinity to Catholic theology This book thus concludes by offering a view of the English Catholic sensibility as characterised by a mindset of careful reserve toward knowledge and words about God arising from a marked concern for the living embodied present as the site of God s transformative action in the twists and turns of human life **Newman and**
