Cats Covey M Brian,2020-02-29 More than half of shelter surrendered cats are surrendered because owners expectations do not line up with how the cat is acting Owners think that cats are being spiteful when they urinate on their bed when in reality it might be a behavioral issue or medical problem Many times these cats do not get spayed neutered at the appropriate time and can start having aggression issues or urination issues The more cats you put into a household the more it can create a hostile environment that may also start to create more issues at home If you have multiple cats but only one litterbox you are setting yourself up for frustration The usual rule is one litterbox per cat plus an additional litterbox If your litterboxes are in places your cats do not like going into or are guarded by the other animals in the house then your cats may start peeing or pooping in inappropriate areas Also think about your older cats do they have to go down into the basement to use a litterbox If so they might have a hard time due to arthritic issues I am often brought cats for euthanasia where the owners state she just got sick for the last month and it s not fair for her to live anymore While this statement may be true and I don t want to see animals suffer the first part is avoidable Half of the issue is veterinarians can sometimes blow off how important healthcare is to cat owners it isn t that we don t care but a lot of owners aren t as receptive to it since it s just a cat What Plants are Toxic to Cats? Ruslana Shurpatenko,2023-12-11 This is must have book for cat enthusiasts new cat owners and anyone intrigued by the world of feline companionship This book dives deep into the art of raising and understanding cats exploring cat breed their unique characteristics and providing invaluable insights into solving common
