Principles of Evidence in International Criminal Justice Karim A. A. Khan, Caroline Buisman, Christopher Gosnell, 2010 Principles of Evidence in International Criminal Justice provides an overview of the procedure and practice concerning the admission and evaluation of evidence before the international criminal tribunals The book is both descriptive and critical and its emphasis is on day to day practice drawing on the experience of the Yugoslavia Rwanda and Sierra Leone Tribunals This book is an attempt to define and explain the core principles and rules that have developed at those ad hoc Tribunals the rationale and origin of those rules and to assess the suitability of those rules in the particular context of the International Criminal Court which is still at its early stages The ICC differs in structure from the ad hoc Tribunals and approaches the legal issues it has to resolve differently from its predecessors The ICC is however confronted with many of the same questions The book examines the differences between the ad hoc Tribunals and the ICC and seeks to offer insights as to how and in which circumstances the principles established over years of practice at the ICTY ICTR and SCSL may serve as guidance to the ICC practitioners of today and the future The contributors represent a cross section of the practising international criminal bar drawn from the ranks of the Bench the Prosecution and the Defence and bringing with them different legal domestic cultures Their mixed background underlines the recurring theme in this book which is the manner in which a legal culture has gradually taken shape in the international Tribunals drawing on the various traditions and experiences of its participants

The Defaulting State and the South China Sea Arbitration Alfredo C. Writing History in International Criminal Trials Richard Ashby Wilson,2011-03-07 Why do international criminal tribunals write histories of the origins and causes of armed conflicts Richard Ashby Wilson conducted research with judges prosecutors defense attorneys and expert witnesses in three

international criminal tribunals to understand how law and history are combined in the courtroom Historical testimony is now an integral part of international trials with prosecutors and defense teams using background testimony to pursue decidedly legal objectives In the Slobodan Milo evi trial the prosecution sought to demonstrate special intent to commit genocide by reference to a long standing animus nurtured within a nationalist mindset For their part the defense called historical witnesses to undermine charges of superior responsibility and to mitigate the sentence by representing crimes as reprisals Although legal ways of knowing are distinct from those of history the two are effectively combined in international trials in a way that challenges us to rethink the relationship between law and history

The Arms Trade and International Criminal Law Tomas Hamilton,2025-01-22 Despite the establishment of UN embargoes the Arms Trade Treaty ATT and the EU Common Position arms export regulation suffers from significant legal and practical limitations This book critically evaluates the existing body of Arms Trade Law highlighting its inadequacies in preventing weapons from reaching perpetrators of mass violence Drawing on interviews participant observation and empirical research to assess the perspectives of judges and lawyers it also explores the International Criminal Court s narrow focus on prosecuting political and military leaders Arguing that institutional attitudes and commitments contribute to a legal culture that obscures the potential for an arms trader case the book illustrates these dynamics through a case study of the UN Security Council s response to the Second Congo War and the ICC s investigations in the DRC Situation elucidating missed opportunities to enforce accountability against the entire spectrum of actors responsible for international crimes Through detailed examination of the arms trade s complexities The Arms Trade and International Criminal Law foregrounds the structural causes of atrocity and argues for broader accountability It investigates how individuals including corporate executives state officials and arms traffickers can be held directly accountable for atrocities under international law even when their actions are geographically or causally distant from the violence itself Furthermore by advancing a specific interpretation of the actus reus and mens rea elements of accomplice liability under Article 25 of the Rome Statute this book argues for a robust legal basis upon which the ICC can prosecute arms traders It therefore underscores how international criminal law can complement existing regulations by leveraging its expressive function to condemn all those who profit from atrocity

Library of Congress Subject Headings Library of Congress,2012 **Histories Written by International Criminal Courts and Tribunals** Aldo Zammit Borda,2020-12-18 This book argues for a more moderate approach to history writing in international criminal adjudication by articulating the elements of a responsible history normative framework The question of whether international criminal courts and tribunals ICTs ought to write historical narratives has gained renewed relevance in the context of the recent turn to history in international criminal law the growing attention to the historical legacies of the ad hoc Tribunals and the minimal attention paid to historical context in the first judgment of the International Criminal Court The starting point for this discussion is that in cases of mass atrocities prosecutors and judges are inevitably understood to

be engaged in writing history and influencing collective memory whether or not they so intend Therefore while writing history is an inescapable feature of ICTs there is still today a significant lack of consensus over the proper place of this function Since Hannah Arendt articulated her doctrine of strict legality in response to the prosecutor's expansive didactic approach in Eichmann the legal debate on the subject has been largely polarised between restrictive and expansive approaches to history writing in mass atrocity trials What has been noticeably missing from this debate is the middle ground The contribution this book seeks to make is precisely to articulate a framework that occupies that ground The book asks what are the lenses through which judges of ICTs interpret historical events what kind of histories do ICTs write and what kinds of histories should ICTs produce Its arguments for a more moderate approach to history writing are based on three distinct but interrelated grounds 1 Truth and Justice 2 Right to Truth and 3 Legal Epistemology Different target audiences may benefit from this book Court officials and legal practitioners may find the normative framework developed herein useful in addressing the tensions between the competing objectives of ICTs and in particular in assessing the value of the history writing function Lawyers historians and other academics may also find the analysis of the strengths constraints and blind spots of the historical narratives written by ICTs interesting This issue is particularly timely in view of current debates on the legacies of ICTs Aldo Zammit Borda is Director of the Centre for Access to Justice and Inclusion at Anglia Ruskin University Cambridge UK
