Self-Publishing for Beginners Learn2succeed.com Incorporated, 2015-06-04 Everybody has a book inside them but it doesn't do any good until you pry it out. Well, best-selling author Jodi Picoult is partly correct in making that statement; however, the challenge is what to do with it after it is pruned out. It won't do any good until it is published. Most first-time authors are rejected by publishers, so what do they do if their manuscript has been turned down? This book will provide them with a practical alternative: i.e. self-publish it. How to prepare your manuscript and use the Internet to conduct research. Some of the computer software that can help in preparing your manuscript. Suggestions on ways to edit and proofread it. Learn about the cataloguing, copyright and legal stuff. Learn how to publish print books and eBooks and how to advertise, market and sell them online. Learn about the importance of metadata to help in the discoverability of your titles. Learn about the Digital Rights Management to protect your electronic content, the issues around pricing and offering free content. Take a look into the future: what the publishing industry will look like and the social consequences as the publishing industry continues to go digital. This book is written under a pseudonym by a publisher with many years of experience operating a small publishing company. It is packed with inside information that will help every aspiring author self-publish their own print books or eBooks.

Take Control of Your Paperless Office, 4th Edition Joe Kissell, 2024-02-02 Digitize your documents and reduce paper clutter. Version 4.0.1 updated February 2, 2024. The paperless office doesn't have to be a myth. Turn paper into usable digital files, reducing clutter and increasing convenience. This book helps you assess your situation, develop a strategy and learn clever techniques for keeping more paper at bay with detailed discussion of the hardware, software and processes needed to get the job done. Join Joe Kissell as he helps you clear the chaos of an office overflowing with paper. With Joe's guidance, you can develop a personal clean-up strategy and choose your tools, including a scanner and the software you need to perform OCR (optical character recognition). You'll also learn about devices and services for storing your digitized documents and document management apps that help you categorize, locate and view your digital document collections. Once you have your gear in hand, Joe shows you how to convert your paper documents to digitized files and gives you ideas for how to organize your office workflow, explaining how to develop day-to-day techniques that reduce the amount of time you spend pressing buttons, launching software and managing documents. You'll also master paper-reducing skills such as scanning or photographing documents you find while out and about, business cards, receipts, menus, flyers and more, so you keep only digitized versions. Joe discusses a variety of mobile scanning options for iOS, iPadOS and Android. Creating a digitized image of your signature so you can sign and share documents digitally rather than printing them for the sole purpose of signing.

them with a pen Using paperless options for bills invoices bank statements and the like Cutting down on unwanted catalogs and junk mail Switching to mostly paperless postal mail Using your computer to send and receive faxes without a fax machine fax modem or separate phone line Amazingly some people still need to do this even in the 21st century The book contains answers to numerous questions including What is a searchable PDF and why is it key to a paperless office What differentiates document scanners from other types of scanners What s a book scanner What if I need a mobile portable scanner What does TWAIN stand for and should my scanner support it Why do I need OCR software and what features should I look for How do I choose a good scanner and OCR software How should I name and file my digitized documents What are my options if I need to edit a scanned PDF How can I automate my workflow for scanning documents What paper documents should I keep in physical form How do I use common tools to add a signature to a PDF How can I access my digital documents remotely How should I back up my important digital documents
