Summary: Commonly Asked Questions about Standards and Assessments , *Education Policy Perils* Christopher H. Tienken, Carol A. Mullen, 2015-11-06. *Education Policy Perils* provides educators and those interested in the future of public education with research based and practical analyses of some of the foremost issues facing public schools today. The collection, written by experienced scholar practitioners, offers insights that include nuanced descriptions of various challenges facing educators and recommendations for overcoming them with an eye toward more successful policy and better implementation. The authors apply their expertise to a range of issues from international testing to policy challenges related to curriculum on the state and national levels. This volume positions ongoing debates within the wider context of an education landscape struggling to displace junk science ideology with empirical research. The scope and sequence combined with the expertise of the contributors make this volume a vital resource for educators at all levels during a pivotal time of major changes in education policy. *Nurturing Your Child's Math and Literacy in Pre-K-Fifth Grade* Mary Mueller, Alisa Hindin, 2016-11-23. With recent changes in the curriculum and standards in language arts and mathematics, parents often are challenged to find ways to help their children be successful in their learning endeavors. While parents want to be involved in their children's education, they are often unsure of their role in their children's learning and the best ways to help their children to succeed academically. Moreover, with the changes in how math and literacy are being taught, parents often struggle with helping even first grade children with their homework. In this book, we set out to alleviate this struggle by offering parents a resource they can use to navigate their child's education, communicate with teachers, and support their children in learning mathematics and literacy. After providing an overview of the current educational climate and tips for communication with teachers, we share strategies and suggestions parents can use to assist their children in language arts and mathematics. We provide detailed descriptions of activities, games, books, and conversations that connect with what children will be learning at each grade level. **Resources in Education** ,2001-04 **NJ ASK Language Arts Literacy, Grade 6** Frank Stebbins, 2010.
