*Handbook of the Sociology of Education* Maureen T. Hallinan, 2006-11-24 The aim of the Handbook of Sociology of Education is to present the most theoretically grounded and empirically rigorous sociological analyses of schools to date The authors are distinguished researchers in the field Their contributions to the Handbook offer major theoretical perspectives on the schooling process and describe significant empirical studies of schools and their effects on individuals and society The research presented in the Handbook is built on three fundamental tenets of sociology First the authors adopt the perspective that schools are a central institution in society An understanding of the function of schooling in social life is enhanced by viewing schools as interrelated with other societal institutions The study of how the context of schooling influences education processes is critical to an understanding of school outcomes Rather than being determined solely by ascribed and achieved characteristics an individual's cognitive and social development are influenced heavily by the structures and networks in which the individual is embedded Communities families schools and social groups are critical elements in the educative process By viewing the school as a societal institution and highlighting the interaction between context and individual behavior the Handbook chapters provide a broader and deeper understanding of the determinants of learning in contemporary society The second sociological insight that guides the research in the Handbook is that the school is a social system

*The Middling Sorts* Burton J. Bledstein, Robert D. Johnston, 2013-10-31 According to their national myth all Americans are middle class but rarely has such a widely used term been so poorly defined These fascinating essays provide much needed context to the subject of class in America

**Drug Use Trajectories Among Minority Youth** Yonette F. Thomas, LeShawndra N. Price, 2016-09-01 This volume examines trajectories of drug use among ethnic minority youth in the United States with a focus on African Americans and Hispanics It also highlights what research designs have been employed

to address these differences as well as suggests strategies for moving this discourse forward by identifying potential targets for prevention and intervention with minority youth This book features essays by leading experts in the field who have grappled with this issue for decades Inside readers will find an insightful dialogue that addresses such questions as Why are African American and Hispanic youth more likely than their White peers to abstain from drug use during adolescence but are more likely to become problem users later in life What impact does the stress caused by discrimination have on potential drug use To what extent does religiosity protect minority youth from drug use as past research suggests that it protects White youth What is the influence of neighborhood context on exposure to and use of substances among urban African American children Taken together the essays in this book identify underexplored risk and protective factors and gaps in the current state of knowledge that can be used to develop effective culturally specific drug abuse prevention strategies This book is for anyone with an interest in the initiation and escalation of drug use among African Americans and Hispanics Latinos and factors that influence these patterns over the life course It will also be an ideal resource for those interested in better understanding the mechanisms by which risk and protective factors are related to the development of drug use and addiction particularly the ways in which such factors contribute to health differences and have disproportionately more negative consequences for ethnic minorities

**Drug Use Among Racial/ethnic Minorities**, 2003 Draws together data from multiple sources to address the issue of substance use and related consequences for minority subgroups of the U S population Serves as an information source for the direction and scope of prevention and intervention programs Juvenile Offending Thom Brooks, 2023-05-31 Tackling juvenile offending has become a key part of crime reduction strategies The articles selected for this volume examine juvenile offending from various critical perspectives and represent the work of the most influential international figures in the field The issues addressed include the different needs and perspectives of youth offenders whether offenders should be treated differently from others because of their age recommendations of policy changes identification of risk factors issues surrounding the sentencing of juvenile offenders and the relevance of restorative justice

Forbidden Fruit Mark D. Regnerus, 2009-08-19 Americans remain deeply ambivalent about teenage sexuality Many presume that such uneasiness is rooted in religion But how exactly does religion contribute to the formation of teenagers sexual values and actions What difference if any does religion make in adolescents sexual attitudes and behaviors Are abstinence pledges effective What does it mean to be emotionally ready for sex Who expresses regrets about their sexual activity and why Tackling these and other questions Forbidden Fruit tells the definitive story of the sexual values and practices of American teenagers paying particular attention to how participating in organized religion shapes sexual decision making Merging analyses of three national surveys with stories drawn from interviews with over 250 teenagers across America Mark Regnerus reviews how young people learn and what they know about sex from their parents schools peers and other sources He examines what experiences teens profess to have had and how they make sense of these experiences in

light of their own identities as religious moral and responsible persons Religion can and does matter Regnerus finds but religious claims are often swamped by other compelling sexual scripts Particularly interesting is the emergence of what Regnerus calls a new middle class sexual morality which has little to do with a desire for virginity but nevertheless shuns intercourse in order to avoid risks associated with pregnancy and STDs And strikingly evangelical teens aren't less sexually active than their non evangelical counterparts they just tend to feel guiltier about it In fact Regnerus finds that few religious teens have internalized or are even able to articulate the sexual ethic taught by their denominations The only and largely ineffective sexual message most religious teens are getting is Don't do it until you're married Ultimately Regnerus concludes religion may influence adolescent sexual behavior but it rarely motivates sexual decision making **Family Matters**

Gregory C. Elliott, 2009-02-17 Combining empirical evidence with indices to measure mattering **Family Matters** The Importance of Mattering to Family in Adolescence explores the inverse relationship between mattering and dysfunctional behavior in adolescence Defines mattering and distinguishes among the three ways that people can matter to others awareness importance and reliance Utilizes empirical evidence from a quantitative analyses of data from a nationwide survey of 2,004 adolescents to support author's assertions Explores the impact of structural and demographic factors such as family structure in developing of a sense of mattering in adolescents Includes helpful indices including his Mattering Index and Rosenberg's Self Esteem Index Suggests how parents teachers and other significant people in the lives of adolescents can work to instill a sense of mattering in those under their care **Addiction Medicine: A Multidisciplinary Approach** Joel J.
