Seen Through a Prism of Color examines violence from a structural perspective including violence in prisons schools and colleges churches homes and within political corporate structures This unique hard hitting book argues that individual violence stems from the structure of our society and its institutions Most of the contributors are African American educators and practitioners who have a thorough understanding of structural violence Some have experienced political violence others have expert knowledge of structural violence within the criminal justice system educational institutions and elsewhere even in churches and homes Their writings are undeniably unflinchingly authentic it is impossible not to be moved and enraged by what they have to say The good news is that in addition to calling attention to the structural violence in our society they provide excellent insights on how the situation might be resolved Violence as Seen Through a Prism of Color shows that much of the violence within the criminal justice system stems from decisions made at the highest levels of government that minority offenders are much more frequently convicted and more harshly sentenced than their white counterparts how cultural racism contributes to the construction of motives for lynching hate crime and police violence against Americans of color such as Abner Louima Amadou Diallo and Rodney King how the judicial system encourages black on black violence by neglecting to halt criminal activities in non white neighborhoods how in the words of Mahatma Gandhi Poverty is the worst form of violence You ll also learn how corporations are amassing great wealth through privatizing prisons and conscripting the labor of non violent African American prisoners how racial profiling affects people of color how the media has exploited black men imprisoned for minor drug offenses how and why violence occurs in and against the black church Helpful charts and tables like one that names the corporations that use prison labor supplement the material you ll be surprised at what you learn Extensive references are included at the end of each chapter

Thin Blue Fault Line - Policing America John C. Franklin, John F. Hein, 2021-02-22 Authors Franklin and Hein have witnessed firsthand difficulties experienced in some black communities They use their knowledge to analyze and discuss the interactions between American policing a subculture of the black community and the BLM movement The authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot black men It describes how blue on black shootings along with police tactics sometimes cause intense citizen responses through public statements outbursts and demonstrations It begins with an examination of the differences between the black and white communities how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another Because of civil rights efforts American policing is going through a transformation A change in policing tactics must be met with a re evaluation of some cultural norms by the black community They also discuss the lack of support by blacks shown to other blacks when there is an impression of being not black enough The authors believe in political correctness but also believe that political correctness is harming the black community because well recognized negative issues in some communities are not being addressed to avoid criticism of black culture In the final chapter the authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself Finally the authors believe that American policing understands its 21st century obligations and is taking steps to meet them

Reading Faces Edward Higgs, 2025-10-20 Reading Faces is the first book to discuss the historical contexts and theoretical underpinnings of the artificial intelligence AI systems that identify individuals or purport to ascribe emotions and characteristics to them based on their facial features It examines the direct impact of past research on the development of AI systems the way in which the past provides contexts which have predisposed people to accept outputs of AI systems as common sense how the role of politics and the changing nature of the state have led to the

introduction of AI systems and their precursors how previous technologies led to the acceptance of the introduction of superficially similar AIs and how the outputs and biases such as purported associations between race and criminality of facial biometrics systems have been determined by the historical nature of the underlying datasets they analyze Reading Faces approaches these issues within the sweep of Western History how it has shaped conceptual categories about the application and ethics of AI and tried to foist those ideas and values on the Global South This book is essential reading for postgraduates scholars as well as non specialist readers such as booksellers and librarians interested in modern AI technology *Through the Lens* Lauren Walsh, 2022-03-10 2020 was a period of groundbreaking social and political upheaval in combination with a colossal epidemiological crisis and it urgently redefined the working conditions of photojournalists The historic 2020 Black Lives Matter protests and the devastating Covid 19 pandemic presented unique challenges for photojournalism forcing photographers into a terrain defined by new ethical technological and safety emotional and physical concerns as well as innovative attacks on press freedom Through a series of interviews with top photographers who covered 2020's biggest crises as well as key photo editors who grappled with these unprecedented obstacles inside the newsroom Through the Lens The Pandemic and Black Lives Matter unpacks the industry's most critical debates as it sheds light on the experiences and thought processes of the visual journalists themselves Importantly this book encourages readers to consider the efforts behind the camera lens the challenges and risks visual journalists face to bring us the news in pictures Richly illustrated with evocative photos Through the Lens is a timely and vital look at the role photojournalism serves in a world of crisis It is a powerful follow up to Lauren Walsh's previous title Conversations on Conflict Photography which offers a crucial exploration of the visual documentation of war and humanitarian crisis The Continued Threat of Corruption to U.S. Border Law Enforcement Agencies United States. Monsters in and Among Us Caroline Joan Picart,Cecil E. Greek,2007 Rather than assuming that film and the media tell us little about the reality of criminological phenomena Gothic criminology as instantiated in this collection of essays recognizes the complementarity of critical academic and aesthetic accounts of deviant behavior as intersecting with the public policy in complex non reductive ways
