New Model Army 1645–60

The Restoration of 1660 is often quoted as the birth date of the modern British Army. While this may be true as far as continuity of unit identity is concerned, the evidence of history shows that the creation of an efficient military machine, and its proving on the battlefield, predates the Restoration by 15 years. It was on the battlefields of the Civil War that the foundations of the British professional army were laid. Here, supported by a wide variety of photographs and eight full colour plates, Stuart Asquith details the history, organisation, weapons and equipment of the New Model Army.

US Cavalry on the Plains 1850-90 Philip Katcher, 1985 Two events in the 19th century turned the minds of Americans westwards towards eventual and inevitable conflict with the Plains Indians The first was victory in the Mexican American War which brought millions of acres of new land in the West The second was the discovery of gold in California One of the results of this migration was conflict with the Indians who inhabited the Plains So it was natural that the Army the nation s armed peace keepers should be sent to garrison the West This book by Philip Katcher tells the absorbing story of the US cavalymen who patrolled the Plains from 1850 90 The Israeli Army in the Middle East Wars 1948-73 John Laffin, Mike Chappell, 1982-07-29 Israel assumes in advance that defeat in war means an end to the Jewish nation and it wages war accordingly This fact influences the Israeli approach to its army and to the strategy tactics training and conduct of war Surrounded by hostile nations Israel has fought six victorious wars between 1948 and 1973 For a force which began as an irregular impoverished and improvised group this is a formidable record Backed by plenty of photographs and eight full page colour plates this fine text examines the six wars fought between 1948 73 including the extraordinary Israeli victory of 1967
