Guanxi And Business (2nd Edition) Yadong Luo, 2007-02-27 Guanxi or interpersonal relationships is one of the major

dynamics of Chinese society A pervasive part of the Chinese business world for the last few centuries it binds literally millions of Chinese firms into a social and business web Any business in this society including local firms and foreign investors and marketers inevitably faces guanxi dynamics In China s new fast paced business environment guanxi has been more entrenched than ever heavily influencing Chinese social behavior and business practice However as in other emerging economies corruption in China is becoming more rampant which makes guanxi and corruption often intermingled As such business executives need to place greater caution today in the practice and process of guanxi development and utilization Due to the growing academic and practical interest in guanxi this second edition provides a timely update to the systematic and vigorous exploration of the various social economic cultural and business issues relating to the complex concept and practice of guanxi *Harvard Business School Core Collection 1995 Baker Library, 1995* The Competitive Advantage of Knowledge-Based Resources in the Semiconductor Industry Russell W. Wright, 2021-12-12 First Published in 1997 Knowledge and knowledge based resources occupy critical positions in a company s value chain The theme of the book is that organizational distinctive competences are asymmetrical accumulations of knowledge based resources relative to a firm s competitors These accumulations of knowledge and capabilities enable and constrain a firm s ability to develop competences in specific areas such as new product development Knowledge and capabilities are sources of competitive advantage to the extent that they are non transferable and non imitable The imitability of knowledge based resources is a function of two conceptually distinct attributes tacitness and tangibility This book looks at how the evolution of industry knowledge influences new product strategies in successive product generations of the semiconductor industry This book also makes some basic distinctions among the types of organizational resources that tend to generate unusual economic returns
