Cities and the Knowledge Economy Tim May, Beth Perry, 2017-11-02 Cities and the Knowledge Economy is an in depth interdisciplinary international and comparative examination of the relationship between knowledge and urban development in the contemporary era Through the lenses of promise politics and possibility it examines how the knowledge economy has arisen how different cities have sought to realise its potential how universities play a role in its realisation and overall what this reveals about the relationship between politics capitalism space place and knowledge in cities The book argues that the 21st century city has been predicated on particular circuits of knowledge that constitute expertise as residing in elite and professional epistemic communities In contrast alternative conceptions of the knowledge society are founded on assumptions which take analysis deliberation democracy and the role of the citizen and communities of practice seriously Drawing on a range of examples from cities around the world the book reflects on these possibilities and asks what roles the practice of active intermediation the university and a critical and engaged social scientific practice can all play in this process The book is aimed at researchers and students from different disciplines geography politics sociology business studies economics and planning with interests in contemporary urbanism and the role of knowledge in understanding development as well as urban policymakers politicians and practitioners who are concerned with the future of our cities and seek to create coalitions of different communities oriented towards more just and sustainable futures

**Knowledge Economy and the City** Ali Madanipour, 2013-03-01 This book explores the relationship between space and economy the spatial expressions of the knowledge economy The capitalist industrial economy produced its own space which differed radically from its predecessor agrarian and mercantile economies If a new knowledge based economy is emerging it is similarly expected to produce its own space to suit the new circumstances of production and consumption If these spatial expressions do exist even if in incomplete and partial forms they are likely to be the model for the future of cities

**Handbook of Creative Cities** D. E. Andersson, E. Andersson, Charlotta Mellander, 2011-01-01 With the publication of The Rise of the Creative Class by Richard Florida in 2002 the creative city became the new hot topic among urban policymakers planners and economists Florida has developed one of three path breaking theories about the relationship between creative individuals and urban environments The economist E. Andersson and the psychologist Dean Simonton are the other members of this creative troika In the Handbook of Creative Cities Florida Andersson and Simonton appear in the same volume for the first time The expert contributors in this timely Handbook extend their insights with a varied set of theoretical and empirical tools The diversity of the contributions reflect the multidisciplinary nature of creative city theorizing which encompasses urban economics economic geography social psychology urban sociology and urban planning The stated policy implications are equally diverse ranging from libertarian to social democratic visions of our shared creative and urban future Being truly international in its scope this major Handbook will be particularly useful for policy makers that are involved in urban development academics in

urban economics economic geography urban sociology social psychology and urban planning as well as graduate and advanced undergraduate students across the social sciences and in business , The Earthscan Reader in Sustainable Cities David Satterthwaite,2021-12-24 The last five years have brought an enormous growth in the literature on how urban development can meet human needs and ensure ecological sustainability This collection brings together the most outstanding contributions from leading experts on the issues surrounding sustainable cities and urban development The Earthscan Reader in Sustainable Cities is fully international in scope and coverage It will be the basic introduction to the subject for a wide range of students in urban geography planning and environmental studies and is essential reading for professionals involved with the successful running and development of cities Cities and the Cultural Economy Thomas A. Hutton,2015-08-27 The cultural economy forms a leading trajectory of urban development and has emerged as a key facet of globalizing cities Cultural industries include new media digital arts music and film and the design industries and professions as well as allied consumption and spectacle in the city The cultural economy now represents the third largest sector in many metropolitan cities of the West including London Berlin New York San Francisco and Melbourne and is increasingly influential in the development of East Asian cities Tokyo Shanghai Hong Kong and Singapore as well as the mega cities of the Global South e g Mumbai Capetown and S o Paulo Cities and the Cultural Economy provides a critical integration of the burgeoning research and policy literatures in one of the most prominent sub fields of contemporary urban studies Policies for cultural economy are increasingly evident within planning development and place marketing programs requiring large resource commitments but producing on the evidence highly uneven results Accordingly the volume includes a critical review of how the new cultural economy is reshaping urban labour housing and property markets contributing to gentrification and to precarious employment formation as well as to broadly favorable outcomes such as community regeneration and urban vitality The volume acknowledges the important growth dynamics and sustainability of key creative industries Written primarily as a text for upper level undergraduate and Masters students in urban economic and social geography sociology cultural studies and planning this provocative and compelling text will also be of interest to those studying urban land economics architecture landscape architecture and the built environment Lessons from Covid-19: Building a fairer, healthier, inclusive and sustainable post-pandemic society Hannah Bradby,Guillermina Jasso,Kath Woodward,William Outhwaite,Valeria Pulignano,Sin Yi Cheung,2023-01-12 New Economic Spaces in Asian Cities Peter W. Daniels,K.C. Ho,Thomas A. Hutton,2012-04-27 The East and Southeast Asia region constitutes the world s most compelling theatre of accelerated globalization and industrial restructuring Following a spectacular realization of the industrialization paradigm and a period of services led growth the early twenty first century economic landscape among leading Asian states now comprises a burgeoning New Economy spectrum of the most advanced industrial trajectories including finance the knowledge economy and the new cultural economy In an agenda setting volume New Economic Spaces in Asian Cities draws

on stimulating research conducted by a new generation of urban scholars to generate critical analysis and theoretical insights on the New Economy phenomenon within Asia New industry formation and the transformation of older economic practices constitute instruments of development as well as signifiers of larger processes of change expressed in the reproduction of space in the city Asia's major cities become the key staging areas for the New Economy driven by the growing wealth of an urban middle and professional class higher education institutions city based inter regional movements and urban mega projects New Economic Spaces in Asian Cities animates this New Economy discourse by means of vibrant storylines of instructive cities and sites including cases studies situated in cities such as Tokyo Seoul Shanghai Beijing Shenzhen and Singapore Theoretical and normative issues associated with the emergence of the new cultural economy are the subject of the book's context setting chapters and each case study presents an evocative narrative of development interdependencies and exemplary outcomes on the ground New Economic Spaces in Asian Cities offers a vivid contribution to our understanding of the ongoing transformation of Asia's urban system including the critical intersections of global and local regional dynamics in processes of new industry formation and the relayering of space in the Asian metropolis The synthesis of empirical profiles normative insights and theoretical reference points enhances the book's interest for scholars and students in fields of Asian studies urban and cultural studies and urban and economic geography as well as for policy specialists and urban community planners

Creative Milieux Quentin Stevens, 2017-10-02 The so called creative industries are increasingly being presented as an important tool of urban regeneration and economic development Until now research on the clustering of such activities has been limited to economics geography and urban policy This book is the first to gather together emerging research in urban design and spatial planning that explores what characteristics of the built form of cities support the distinctive activity patterns of various creative industries and how and why they cluster together at a range of local scales The book offers detailed case studies and comparative analyses of creative city neighbourhoods on five continents Contributions examine urban forms building types and other qualities of place that attract and retain creative workers and foster creative production outlining a range of methodologies for studying them Taken altogether Creative Milieux offers new insights for urban design practice and for its role in wider urban policy This book was originally published as a special issue of the Journal of Urban Design
