Awareness and Wisdom in Addiction Therapy Leo Gürtler,Gerhard Scholz,Urban Struder,2012-02-01 In this extended essay experts address both the recovery and the long term goal of healing from addiction arguing that a full cure from drug addiction or habitual addiction can be achieved Combining both the principles of systemic therapy and experience gained through years of counseling they have developed a unique model called in depth systemic therapy which extends the classic model by introducing and expanding on the mental dimension The central point of this work is the thesis that addicts themselves have to reorganize and restructure their own habitual ways of perception and cognition with Vipassana meditation serving as the instrument to realize this transformation Vipassana comprises an ethical lifestyle concentration of the mind through meditation and working progressively on one s one mental somatic models offering a unique and successful approach to the treatment of addiction

Climbing The Mountain Harvey Webb,2020-04-27 What this model The Sun Lotus Recovery Model puts forward is a spiritual approach that does not offer an intervention of a Higher Power but one that supports the individual to find their naturally inherent inner potential and develop themselves without an

intervention from a Higher Power This is called in Buddhism The Middle Way or The Inner Way or even The Sacred Way which teaches that Human potential Life is unlimited and that by tapping into that well spring of potential Buddha Nature through Buddhist Practice the individual can bring about a profound positive change on the deepest and most fundamental level of Life This is also a Human centered approach which says that the individual already has the potential for positive change and just needs the correct causes and conditions to manifest it without the need of an intervention by an exterior God or a Higher Power Buddhism is a philosophical faith that has no Godhead or Higher Power to pray too for salvation from addiction or suffering It teaches that the individual can bring about their own Enlightenment through their own efforts through Buddhist Practice thus overcoming the Four Universal Sufferings of Birth Old Age Sickness and Death and all the other existential Human sufferings including that of addiction From this model and understanding Sun Lotus Recovery was devised and is the complete A to Z of Addiction and Recovery I hope the reader truly finds something useful in this writing and that it is a tool for them to overcome the misery caused by an addiction disorder not only in their Life but in the lives of all those who are connected to them through Human bonds of family and love I am not a special person I am not a different person I am in fact a very ordinary person who has been able to sustain my Recovery through this programme which I will now explain and deliver in these writings If I am able to succeed in using this Life philosophy faith and practice to maintain my own Recovery from my addiction disorder and to experience my own personal growth and development into a better happier more contented Human Being then I believe that this can also be the experience of anyone else who chooses to follow in my footsteps whatever their nationality gender race or sexual orientation as these teachings and practices are truly Universal and transcend all such distinctions between us Human Beings If this endeavour can enable and empower even a single person to transform themselves and enable them to break the chains and shackles of this painful and Life devouring brain disorder then my mission would have been accomplished The title of the book derives from the Nichiren Shoshu Buddhist tradition of going on a pilgrimage to The Head Temple at Taiseki Ji nearby Fujinomiya nestled in the foothills of Mount Fuji Japan called Tozan which is translated into English as Climbing the Mountain This is why The Nichiren Shoshu School is also known as The Fuji School

The 12-Step Buddhist Darren Littlejohn, 2009-03-10 The face of addiction and alcoholism is a face that many have seen before it may be a celebrity a colleague or even a family member And though the 12 step program by itself can often bring initial success many addicts find themselves relapsing back into old ways and old patterns or replacing one addiction with another Author Darren Littlejohn has been there and back and presents a complimentary guide for recovery to the traditional twelve step program out of his own struggles and successes through the study of Zen and Tibetan Buddhism Working with the traditional 12 Step philosophy the author first shares his own life path and how he came to find the spiritual solace that has greatly enhanced his life in recovery Then he details out how his work integrating Buddhism into the traditional twelve step programs validates both aspects of the recovery process While being careful not to present himself as a Tibetan lama or Zen master the author shows how each step such as admitting there is a problem seeking help engaging in a thorough self examination making amends for harm done and helping other drug addicts who want to recover fits into the Bodhisattva path This integration makes Buddhism accessible for addicts and the 12 Steps understandable for Buddhists who may otherwise be at a loss to help those in need The 12 Step Buddhist is designed to be a complimentary practice to the traditional 12 step journey not a replacement While traditional twelve step programs help addicts become sober by removing the drug of choice and providing a spiritual path they rarely delve deep into what causes people to suffer in the first place The integration of Buddhism with the traditional process provides the wisdom and meditations that can help addicts truly find a deep spiritual liberation from all causes and conditions of suffering for good

Singh,2016-11-24 This book explores a wide range of mindfulness and meditative practices and traditions across Buddhism It deepens contemporary understanding of mindfulness by examining its relationship with key Buddhist teachings such as the Four Noble Truths and the Noble Eight Fold Path In addition the volume explores how traditional mindfulness can be more meaningfully incorporated into current psychological research and clinical practice with individuals and groups e g through the Buddhist Psychological Model Key topics featured in this volume include Ethics and mindfulness in P li Buddhism and their implications for secular mindfulness based applications Mindfulness of emptiness and the emptiness of mindfulness Buddhist teachings that support the psychological principles in a mindfulness program A practical contextualization and explanatory framework for mindfulness based interventions Mindfulness in an authentic transformative everyday Zen practice Pristine mindfulness Buddhist Foundations of Mindfulness is an indispensable resource for clinical psychologists and affiliated medical and mental health professionals including specialists in complementary and alternative medicine as well as social work as well as teachers of Buddhism and meditation **The Reality Between** Kenneth Lucas,2004 In The Reality Between author Ken Lucas takes up where Elisabeth K bler Ross left off Lucas elegantly makes the case that although psychotherapists have limited the use of K bler Ross s Five Stages of Grief to physical death patients can be taught to see anger depression and even addiction in their own grief context The Reality Between shows how therapists can train themselves to hear the dozens of grief states their patients are experiencing at every single moment Most psychotherapists fail to see their patients drowning in grief Anger and depression are grief stages not simply stressors or stand alone issues Most people die unhappily in the middle of K bler Ross s grief stages As humans we have a duty to become just as fluid and dynamic as the ever changing world around us Placing grief into a much larger more fundamental Eastern context is a must for every psychotherapist
