**Nobody in Their Right Mind Should Want to Be an Innkeeper** Thomas Remington, 2014-04-28 It seems that so many times when I have gathered with friends and family inevitably the topic of conversation ends up being a storytelling session about all the whacky things that have happened over the course of my years of being in the business of innkeeping and hotel and motel management The reactions I ve gotten have ranged from shock to uncontrolled laughter As much as I ve found pleasure in making people laugh my friends have always said You really need to write a book And so here it is I left the hospitality industry nearly a decade ago and haven t regretted it it has taken that long since then to get this book together Working on it in fits and starts I believe has been instrumental in crafting what I hope to be a masterpiece whereby not unlike those hours of sitting around the kitchen table or open fire I can cause people to pause in shock or laugh out loud for that is my intent Too often the nonsensical dreams of wannabe innkeepers clouds the realities of what may lie before them I had no such chimera since my fantasies had been more of the nightmare variety I m not sure that I can say the same for my wife as is displayed in the opening sentence In my storytelling my wife has often remarked to me that to her it appeared all these weird things happen to you Without fail my response has been that these weird things happen to everyone It s just that most people don t pay attention to what s going on around them I have paid attention and I hope that I have been able to present those observations in an entertaining fashion worthy of your time I am not one to write in adult or cursing language although there are on rare occasions some expletives to be found here they became necessary only because I was quoting someone and felt it necessary to maintain the moment To all those people who have ever thought about or seriously considered becoming an innkeeper the authenticity of that lifestyle might be more than you had bargained for This book is not a how to for getting started in the inn keeping profession but it does contain a lot of valuable information based on my experiences that could be useful to anyone in this business or who is interested in jumping into it It helps to give those with such thoughts a better understanding what the commitment actually means It s not all roses and it demands a special person Anyone who has been an innkeeper a hotel or motel manager or even an employee of such should read this book You will find yourself in it and be able to relate Meanwhile for any of you who have ever stayed at a bed and breakfast inn hotel motel etc you might just find out I m writing about you

West,2019-04-15 Literary Depictions of Dangerous Reading explores how selected American and European literary texts from  
the classic to the contemporary represent reading as a dangerous endeavor It investigates how the texts being read or the  
conditions of reading may produce danger and considers the various qualities of the dangers depicted literal or metaphorical  
real or imagined minor or mortal Whereas readers can readily imagine being depressed or bored by a book or even perhaps  
corrupted in some moral fashion readers typically assume that the mere words on a page cannot directly affect their health  
Nevertheless literature can and does stage readings in which readers suffer actual harm from the magical or supernatural  
qualities of a given text Such impossibly dangerous reading fascinates the author argues by exaggerating the dangers that  
may inhabit certain real experiences of reading      **Hellcats** Kenny Behnke-Gapp,2022-05-27 The Hellcats from Liverpool
