Defence Diplomacy and National Security Strategy Ian Liebenberg, Dirk Kruijt, Shrikant Paranjpe, 2020-04-20 The post cold war era presented security challenges that at one level are a continuation of the cold war era at another level these phenomena manifested in new forms Whether the issues of economics and trade transfer of technologies challenges of intervention or humanitarian crisis the countries of the South previously pejoratively labelled Third World or developing countries have continued to address these challenges within the framework of their capabilities and concerns The volume explores defence diplomacies national security challenges and strategies dynamics of diplomatic manoeuvres and strategic resource management of Latin American southern African and Asian countries [The Government of Namibia Goes Digital](#), 2005 An overview of websites and databases of central government in Namibia **State Succession to International Responsibility** Patrick Dumberry, 2007-07-30 The break up of the Soviet Union Yugoslavia and Czechoslovakia and the unification of Germany in the 1990s marked the dramatic return to center stage in international law of the issue of State succession This book deals with one particularly controversial aspect of State succession that until now has not received much attention the question of State succession to international responsibility In State Succession to International Responsibility the international lawyer and scholar Patrick Dumberry addresses the question critical for our times whether or not a new State may be held responsible for wrongful acts committed before its independence by the predecessor State He also considers the reverse situation whether or not a new State may claim reparations for wrongful acts committed before its independence by third parties and which affected the predecessor State or one of its nationals State Succession to International Responsibility contains the most comprehensive analysis ever published of doctrine and State practice related to these questions It is the first attempt to examine systematically State conduct both historical and modern with a view to identifying the factors and circumstances under which rights and obligations of a predecessor State may be transferred to a new State Winner 2008 ASIL Certificate of Merit for High Technical Craftsmanship And Utility To Practicing Lawyers And Scholars [Security and Democracy in Southern Africa](#) Gavin Cawthra, André Du Pisani, Abillah H. Omari, 2007 A study of the ambiguity of democratization and how it can generate violence Southern Africa has embarked on one of the world s most ambitious security co operation initiatives seeking to roll out the principles of the United Nations at regional levels This book examines the triangular relationship between democratization the character of democracy and its deficits and national security practices and perceptions of eleven southern African states Based on national studies conducted by African academics and security practitioners over three years it includes an examination of the way security is conceived and managed as well as a comparative analysis of regional security co operation in the developing world The study concludes that democratization is ambiguous and uncertain and can in some cases generate violent conflict Building a common security regime in southern Africa will require moving beyond regime solidarity In particular progress will mean building

multinational institutions entrenching democratic practices drawing on civil society and integrating the southern African project with that of the African Union The authors conclude with a set of policy recommendations that aim to strengthen both states and civil society within the framework of an emerging common security system

International Law Reports: Volume 91 E. Lauterpacht,C. J. Greenwood,1993 *Demilitarisation and Peace-Building in Southern Africa* Peter Batchelor,2018-12-17 First published in 2004 this work is based on a collaborative research project this trilogy considers the dynamics of demilitarisation and peace building in southern Africa in the aftermath of major violent conflicts The overall aim of the research is to support and facilitate the achievement of sustainable peace and human development in southern Africa by analysing demilitarisation and peace building processes in the region and identifying policy options and interventions for peace building The central focus of the research is the extent to which demilitarisation following the termination of wars has contributed to broad processes of peace building in the affected region Has the military in southern Africa downsized and refocused towards new roles Has there been a peace dividend allowing more investment in

economic and human development thereby dealing with some of the root causes of conflict Volume I provides a conceptual framework for the analysis of demilitarisation and peace building processes applicable particularly in the southern Africa context This volume argues that a broad concept of peace building has to take into account economic political social and cultural factors at the local national and regional level *International Law* Malcolm N.
