Full Year Concepts

SEMESTER 1 CONTENT

Technological Determinism I: Focus on Media's Effects

The 'Medium is the Message'

Medium: plural of media, something in between, forms of expression, something intermediate (ex. behaviour)

Message: all media work over us entirely. They are so persuasive in their personal, political, economic, etc consequences, that they leave no part of us untouched, unaffected, unaltered. Change in media – change in society (change on the individual)

The medium is the message (focus on media effects)

- The message is the change of scale or pace or pattern that it introduces human affairs
- We usually notice the message (symbols) not the media itself

'The Gadget Lover'

Shock, trauma, numbness (cognitive overload)

When a new technology enters our system, we go numb to everything else

Ex. Myth of Narcissus

- Mistook his reflection to someone else and fell in love with it
- Was so taken with (overwhelmed) his reflection that he was numb to everything else
- This is where the word narcosis comes from – a state of stupor
- He adapted to his extension of himself (that technology) and became a closed system
- The central nervous system acts to protect itself through amputation or isolation (brain is in cognitive overload so you amputate your other senses to focus on one thing)
 - Ex. Battle shock – shock induces a generalized numbness
 - Ex. The numbing effect that technology has on its users
- tech – NUMBING EFFECT on society
 - Ex. social media works to keep users scrolling for as long as possible

Technological Determinism II: Media Ages

Media translates other media

- Writing translates inner thought
- Phone translates telephones into calls, letters into email, television into Netflix, etc.

Mit Finance Final Exam

Morris Goldstein

Mit Finance Final Exam:

Banking's Final Exam Morris Goldstein, 2017-05-30 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009 stress testing of large financial institutions has become the cornerstone of banking supervision worldwide The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable In Banking's Final Exam one of the world's leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses leading to a false sense of reassurance about the safety and soundness of the banking system Some weaknesses can be corrected within the existing bank capital regime but others will require bold reforms including higher minimum capital requirements for the largest and most systemically important banks The banking industry is likely to resist these reforms but this book explains why their objections do not hold water

The Bankers' New Clothes Anat Admati, Martin Hellwig, 2024-01-09 A Wall Street Journal Financial Times and Bloomberg Businessweek Book of the Year Why our banking system is broken and what we must do to fix it New bank failures have been a rude awakening for everyone who believed that the banking industry was reformed after the Global Financial Crisis and that we'd never again have to choose between massive bailouts and financial havoc The Bankers' New Clothes uncovers just how little things have changed and why banks are still so dangerous Writing in clear language that anyone can understand Anat Admati and Martin Hellwig debunk the false and misleading claims of bankers regulators politicians academics and others who oppose effective reform and they explain how the banking system can be made safer and healthier Thoroughly updated for a world where bank failures have made a dramatic return this acclaimed and important book now features a new preface and four new chapters that expose the shortcomings of current policies and reveal how the dominance of banking even presents dangers to the rule of law and democracy itself

Broken Promises, Broken Dreams Alice Rothchild, 2010-02-02 The tragedies of the conflict between Israelis and Palestinians are never far from the pages of the mainstream press Yet it is rare to hear about the reality of life on the ground and it is rarer still when these voices belong to women This book records the journey of a Jewish American physician travelling and working within Israel and the Occupied Territories Alice Rothchild grew up in a family grounded by the traumas of the Holocaust and passionately devoted to Israel This book recounts her experiences as she grapples with the reality of life in Israel and the hardships of Palestinians living in the West Bank and Gaza The new edition includes a new preface two chapters on Israeli dissent and a chapter which explores the impact of a Palestinian home demolition and the work of Israeli soldiers and Palestinian fighters who have joined together to form Combatants for Peace Ultimately the book raises troubling questions regarding US policy and the mainstream Jewish community's insistence on giving unquestioning support to all Israeli policy
