

INTRODUCTION

Vehicle Identification

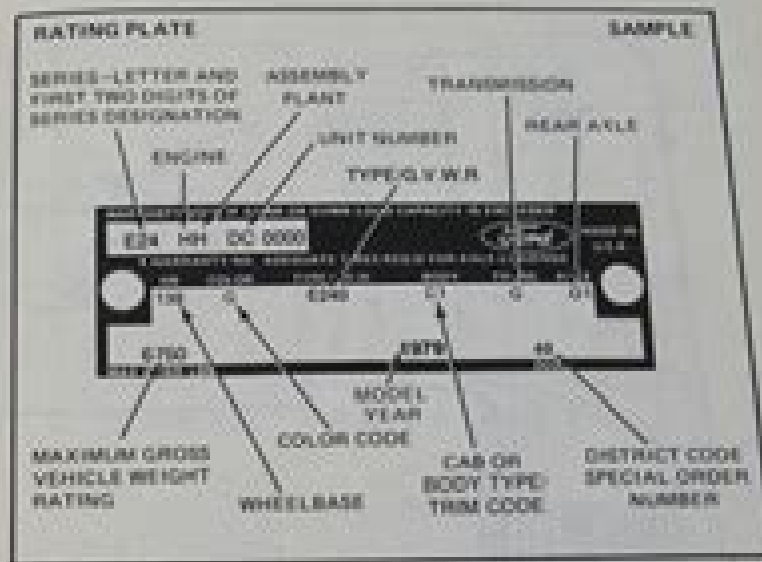

National Highway Traffic Safety Administration Regulations require that a Compliance Certification Label be affixed to each completed vehicle. The Compliance Certification Label indicates the month and year of manufacture of the completed vehicle, among other things. On Club Wagons and Econoline vans, this Safety Compliance Certification Label is located on the driver's side of the lock pillar. Further information about the Safety Compliance Certification Label can be found on page 66 of this guide. On completed derivations of Econoline vans, vehicles (the R.V. Cutaway, R.V. Chassis, Commercial Cutaway, Commercial Stripped Chassis, and Van/Super Van with deluxe seat optional), the Safety Compliance Certification Label is affixed at a location determined by a vehicle manufacturer of the completed vehicle. In these cases the completed vehicle is manufactured in two (or more) stages by two (or more) separate manufacturers, the manufacture of the completed vehicle occurring at a later date than the manufacture of the incomplete vehicle. Consequently, the model year of the completed vehicle may be later than the model year of its chassis.

Each Econoline and Club Wagon contains a vehicle warranty number which is stamped on the rating plate attached to the rear face of the driver's front door.

The model year of the vehicle may be determined from the unit number which consists of the last six characters in the warranty number on the rating plate. Econoline and Club Wagons have unit numbers of DC 0000 through 9999.

The official vehicle identification number (V.I.N.) for title and registration purposes is stamped on the left rear frame side rail; it is also listed on the Safety Compliance Certification Label and is the same as the warranty number.

INTRODUCTION

NOTE — Do not use the sample numbers on the rating plate shown. Use the actual numbers that appear on your vehicle.
