Regional Economic Outlook, April 2017, Western Hemisphere Department International Monetary Fund. Western Hemisphere Dept.,2017-05-19 With the global economy gaining some momentum economies of Latin America and the Caribbean are recovering from a recession at the regional level in 2016 This gradual improvement can be understood as tale of two adjustments external and fiscal that are ongoing in response to earlier shocks But headwinds from commodity terms of trade shocks and country specific domestic factors are fading paving the way for real GDP to grow by about 1 percent in 2017 Regional activity is expected to pick up further momentum in 2018 but at a slower pace than previously anticipated while medium term growth is projected to remain modest at about 2.6 percent The outlook is shaped by key shifts in the global economic and policy landscape where slow growth low productivity and high income inequality are creating pressure for a shift toward inward looking policies in some advanced economies Domestic fundamentals and developments however will continue to play a significant role in determining growth for the region At the same time risks to the outlook have widened in a setting of higher global uncertainty In this challenging external context countries should aim for completing fiscal and external adjustments to preserve or rebuild policy buffers Charting a course toward higher sustainable and more equitable growth will also require strengthening structural reforms Specifically closing infrastructure gaps improving the business environment governance and education outcomes and encouraging female labor participation are necessary to boost medium term growth and foster income convergence Chapters in this report examine the ongoing external adjustment to terms of trade shifts drivers of capital flows to the region the role of the investor base and macroeconomic impact of migration and remittances

Greece International Monetary Fund. European Dept.,2017-02-07 This Selected Issues paper analyzes insolvency and enforcement issues in Greece The Greek insolvency and creditor rights framework has improved since the onset of the crisis as a result of successive reforms Nonetheless it remains underutilized fragmented and distortive and is not supported by an adequate institutional setting This is because many of the reforms undertaken in recent years were not part of a coordinated and comprehensive nonperforming loan resolution strategy but

were instead piecemeal and taken without proper stakeholder consultation and impact analysis Also the frequent and uncoordinated reforms have undermined legal predictability and certainty This situation of distress if left unaddressed affects enterprises households and financial and public creditors by preventing investment credit and consumption from recovering
