Understanding light and light modifiers such as diffusers and reflectors is absolutely essential to getting great results from a DSLR. In chapter 5 you'll find a complete discussion of lighting basics including the differences between continuous lighting and electronic flash. The full array of light modifiers is outlined and the chapter goes on to explain the strengths and weaknesses of the proprietary Sony Minolta hot shoe design. Naturally there is also a discussion of which flash units work with the A300 series. Chapter 6 consists of a series of exercises designed to enhance your skills when shooting in a wide variety of photographic situations including everything from macro photography and black and white to high dynamic range portrait and travel photography. Each topic is accompanied by numerous full color examples. DSLR photography entails far more than just the camera and lens. Once you fill your memory card with great images you will need to download, catalog, store, and edit those images. Chapter 7 takes you through a quick but informative tour of the software and hardware options available to simplify your digital workflow. You will be exposed to the differences between RAW and JPEG images and you'll receive a thorough overview of your RAW processing options. You also learn about sharpening and noise reduction software as well as the best editing applications.
