**Ending Sexual Violence in College** Joanne H. Gavin, James Campbell Quick, David J. Gavin, 2021-03-23 How do we create a culture of zero tolerance for sexual violence on college campuses In a world where one in five women on campus experience some form of sexual assault what would it take to create a campus culture that was free of violence against women From a public health perspective sexual assault is an epidemic on campuses but why What is it about a campus community culture that permits or encourages this at a time when a majority of students are now female In this practical guide for colleges and universities Joanne H Gavin James Campbell Quick and David J Gavin lay out a community based model that is designed to eliminate sexual misconduct spot it before it happens punish its perpetrators support its victims survivors and end this epidemic Ending Sexual Violence in College is a prescriptive guide for creating a campus culture that is intolerant of sexual misconduct regardless of who is involved or the context in which it happens A culture of intolerance the authors argue does not consider the role or status of either the perpetrator or victim survivor Rather this culture protects

all members Using a public health model with an emphasis on prevention to create this cultural change the book utilizes psychological and organizational research to understand the challenges of making these changes while enhancing the odds of permanent cultural change for the better Designed to spur community wide conversations on how we can make our campuses safe from sexual violence this book s preventive approach allows communities to self monitor The authors include case studies of institutions that have not been proactive in putting programs in place to protect students as well as examples of institutions that are effectively addressing these problems Aimed at college administrators and Title IX coordinators who are responsible for leading campuses that are safe for everyone Ending Sexual Violence in College also enables those who work or live on a college campus to take an active role in making the campus safer The Military as a Separate Society Pauline Collins,2019-10-09 The exercise of public power by the military in civilian Western democracies such as Australia and the United States demonstrates a tendency toward diminished responsibility for moral behavior Pauline Collins argues that a different system of military criminal investigation and discipline outside the civilian justice system enables the military to operate like a coterie and can lead to a failure in the requisite moral standard of behavior required of military personnel and maintaining civilian institutional control Collins argues that the justifications for separate treatment weakens both the military reputation and the practice of civilian control of the military as well as leading to an overall decline in morality and values in a democratic society The Wiley Handbook on the Psychology of Violence Carlos A.
