Aktionsart in the Old High German Passive with special reference to the Tatian and Isidor translations Howard Jones, 2025-06-05 This study sets out an Aktionsart based model to account for the distribution of *uuesan* and *uuerdan* in the Old High German passive. An empirical analysis of major Old High German works demonstrates that the choice of copula can be explained by this model or by precisely defined departures from it, each of which represents a form of grammaticalization. Detailed examination of the Tatian and Isidor translations from Latin also shows that the choice of passive forms in each work is the response to the challenge of translating between two languages with different verb systems as well as to the contrasting demands of each work. Diese Studie entwirft ein Modell der Aktionsart, um die Verteilung von *uuesan* und *uuerdan* im althochdeutschen Passiv zu untersuchen. Eine empirische Analyse bedeutender althochdeutscher Schriften zeigt, dass die Wahl der Kopula entweder mithilfe dieses Modells oder im Licht klar definierter Abweichungen von diesem erklärt werden kann, wobei jede Abweichung eine Form von Grammatikalisierung darstellt. Zudem belegen eingehende Untersuchungen der Tatian- und Isidor-Bersetzen aus dem Lateinischen, dass die Wahl der Passivformen in jedem Werk auch immer ein Ergebnis der Beschäftigung mit zwei Sprachen mit verschiedenen Verbalsystemen ist und sich aus den unterschiedlichen Anforderungen eines jeden Textes ergibt.

The Parameter of Aspect C.S. Smith, 2013-03-09 During the period I have been working on this project, I have received institutional support of several kinds for which I am most grateful. I thank the Institute for Advanced Study at Stanford University and the Spencer Foundation for a stimulating environment in which the basic idea of this book was developed. The Max Planck Institute for Psycholinguistics at Nijmegen enabled me to spend several months working on the manuscript. A National Science Foundation grant to develop Discourse Representation theory and a grant from The University Research Institute of the University of Texas allowed me time to pursue this project. I also thank the Center for Cognitive Science at the University of Texas for research support. I thank Helen Aristar Dry for reading early drafts of the manuscript, Stefan Dahl for penetrating remarks on a preliminary version, and my collaborator Gilbert Rappaport for relentless comments and questions throughout. The individuals with whom I have worked on particular languages are mentioned in the relevant chapters. I owe a particular debt of gratitude to the members of my graduate seminar on aspect in the spring of 1990; they raised many questions of importance which made a real difference to the working out of the theory. I have benefitted from presenting parts of this material publicly, including colloquia at the University of California at Berkeley, the University of California at San Diego, the University of Pennsylvania, Rice University, the University of Texas, and the University of Tel Aviv.
