

4 Detailed Plans

Putting it All Together Practicing Perseverance

Time Frame: 30-45 min.

Lesson Overview: To succeed at the highest level, show persistence and perseverance.

Lesson Objectives:
Students will be able to practice perseverance in challenging situations.

Keywords:
Perseverance

Materials Needed:

- Mini marshmallows or tiny erasers
- Playground balls

DO:

- Partner students in your preferred way.
- Give each pair a plastic cup and 10 of *so* mini marshmallows, mini erasers).
- Have students stand across from one another.
- One student will hold the plastic cup and hold the 10 mini items.
- The student with the mini item will under one at a time to the partner with the cup.
- The goal is for students to catch all 10 cup without dropping any.
- Have students take one step backward as marshmallows/eraser.

Productive Struggle Inspiring Math Perseverance

Time Frame: 30 min.

Lesson Overview: Many children and adults believe that they can't do math. But every student CAN do math, especially when we provide opportunities for positive and productive struggle.

Lesson Objectives:
Students will be able to practice perseverance in (potentially) challenging situations.

Keywords:
Perseverance, productive struggle

Materials Needed:

- Math problems from your textbook

DO:

Model Positive Productive Struggle

- When working on a math problem (easy or difficult) explain your thinking and how to solve the problem. This helps students make sense of what they're doing.
- Model your reasoning using number lines, arrays, skip counting, and more. This helps students understand that there is more than one way to get to any answer—right or wrong!
- Invite mistakes and have students correct them.
- Deliberately get something wrong, so that they can correct you and prove their answer.

Praise Those That Finish Last

- Adversity makes people wiser. In a math sense, this means if you get something wrong, try again. It's the journey to understanding that's most powerful. In my classroom, I praise students who are the last ones to finish their assignment or assessment, not the first. Why? Because I know these were the students that took their time, explained their thinking, and wanted to exceed my expectations. They possessed the mindset that they would do their best, not give up, and make their teacher proud.

Taylor, Ed.D. & James A. Taylor, Ph.D.,2025-08-08 Many of our students are struggling For example reading scores for fourth graders across America continued to decline in 2024 This is a critical finding because studies have shown that children who cannot read at grade level by the start of fourth grade are four times less likely to graduate on time We can no longer attribute these problems solely to the effects of the 2020 2023 pandemic because many of the difficulties actually began before COVID 19 Undoubtedly the pandemic slowed or reversed academic progress for children across the nation but the ramifications for parents and educators are loud and clear it is incumbent on us to find solutions and not make excuses The real path to improving K 12 public education lies with local control Successful improvements in outcomes for students can occur when there is collaboration among five key stakeholder groups in any K 12 public school system parents teachers school principals school superintendents and school boards When these five groups are engaged collaboratively and purposefully toward the same goal of maximizing the educational potential of all children under their authority they form a Circle of Engagement that stimulates student success **Using Internet Primary Sources to Teach Critical Thinking Skills in Government, Economics, and Contemporary World Issues** James M.
