 This book is designed to be a physician's guide for those interested in diving and hyperbaric environments. It is not a detailed
 document for the erudite researcher; rather, it is a source of information for the scuba diving physician who is searching for
 answers put to him by his fellow nonmedical divers. Following the publication of *The Underwater Handbook: A Guide to
 Physiology and Performance for the Engineer*, there were frequent requests for a companion volume for the physician. This
 book is designed to fill the void. Production of the book has been supported by the Office of Naval Research and by the
 Bureau of Medicine and Surgery Research and Development Command under Navy Contract No. N000014-78-C-0604. Our
 heartfelt thanks go to the many authors without whose contributions the book could not have been produced. These articles
 are signed by the responsible authors, and the names are also listed alphabetically in these preliminary pages. Every chapter
 was officially reviewed by at least one expert in the field covered, and these reviewers are also listed on these pages. Our
 thanks go to them for their valuable assistance. We are grateful to Marthe Beckett Kent for editing Chapter III. Our thanks
 also go to Mrs. Carolyn Paddon for typing and retyping the manuscripts and to Mrs. Catherine Coppola who so expertly
 handled the many fiscal affairs. 2014 M/Y Triton Mitsubishi Motors Australia, 2013 **Current Catalog** National Library
