H.C. Bailey's Reggie Fortune and the Golden Age of Detective Fiction Laird R. Blackwell, 2017-07-14 H C Bailey s detective Reggie Fortune was one of the most popular protagonists of the Golden Age of detective fiction Fortune appeared in nine novels yet it was in a series of 84 short

stories that were published from 1920 to 1940 where he truly shone combining elements of several popular archetypes the eccentric logician the forensic investigator the hard boiled interrogator the psychological profiler the defender of justice This critical study examines the Fortune stories in the context of other popular detective fiction of the era Bailey's classics are distinguished by well clued puzzles brilliant sleuthing vivid description and social critique with Fortune evoking images of Don Quixote and the Arthurian Knights in his pursuit of truth and justice in an uncaring world D. H. Lawrence's Australia Dr David Game, 2015-08-28 In this first full length account of D H Lawrence's rich engagement with a country he found both fascinating and frustrating Game examines how Australia informed the utopian and regenerative visions that characterize so much of Lawrence's work He sheds new light on Lawrence's attitudes towards Australian Aborigines women and colonialism and revisits key aspects of Lawrence's development as a novelist and thinker *Oceanography and Marine Biology* R.N. Hughes, D.J. Hughes, I. P. Smith, A.C. Dale, 2015-08-26 The book examines basic areas of marine research subjects of special and topical importance and new areas as they arise This series is consistently among the highest ranking in terms of impact factor in the marine biology category of the citation indices compiled by the Institute of Scientific Information It is an essential reference for research workers and students in all fields of marine science and the series volumes find a place in the libraries of universities marine laboratories research institutes and government departments **The Supernatural and Fantastic in Short Detective Fiction** Laird R. Blackwell, 2020-10-30 Although fantasy and supernatural literature have long and celebrated histories many critics contend that the fantastic and the supernatural have no place in the logical rational world of the detective story This book is the first extensive study of the fantastic in detective fiction and it explores the highly debated question of whether detective fiction and the fantastic can comfortably coexist The locked room mystery which often uses the fantastic as a red herring to eventually be debunked by reason and logic has long been among the most popular subgenres of detective fiction This book also explores stories featuring almost supernaturally gifted detectives stories where the supernatural is truly encountered and stories with ambiguous endings Close to 500 detective stories from 1841 to 2000 in which the fantastic or supernatural plays a central role are discussed and analyzed Although not all the stories are judged to be successful as detective tales in the great majority the fantastic enlivens the tale and deepens the mystery without weakening the detective elements **The Modern Stephen King Canon** Patrick McAleer, Philip L. Simpson, 2018-11-29 The Modern Stephen King Canon Beyond Horror is a collection of essays focused on the more recent writings of Stephen King including *Revival* 11 22 63 and a selection of short stories by the Master of the Macabre The authors write about King works that have received little critical attention and aim to open up doorways of analysis and insight that will help readers gain a stronger appreciation for the depth and detail within King's fiction Indeed while King is often relegated to the role of a genre writer horror the essays in this collection consider the merits of King's writing beyond the basics of horror for which he is primarily known Recommended for scholars of literature horror and popular culture *Folk Illusions* K. Barker, Claiborne Rice, 2019-04-22 A well researched and well written book linking traditional folklore studies to current scientific research and to thinking about human behavior American Journal of Play Wiggling a pencil so that it looks like it is made of rubber stealing your niece's nose and listening for the sounds of the ocean in a conch shell these are examples of folk illusions youthful play forms that trade on perceptual oddities In this groundbreaking study K Brandon Barker and Claiborne Rice argue that these easily overlooked instances of children's folklore offer an important avenue for studying perception and cognition in the contexts of social and embodied development Folk illusions are traditionalized verbal and or physical actions that are performed with the intention of creating a phantasm for one or more participants Using a cross disciplinary approach that combines the ethnographic methods of folklore with the empirical data of neuroscience cognitive science and psychology Barker and Rice catalogue over eighty discrete folk illusions while exploring the complexities of embodied perception Taken together as a genre of folklore folk illusions show that people starting from a young age possess an awareness of the illusory tendencies of perceptual processes as well as an awareness that the distinctions between illusion and reality are always communally formed With clear focal points sound and carefully explained methodology and thought provoking substantial analysis this book makes an excellent contribution to children's folklore and related fields Elizabeth Tucker author of Children's Folklore A Handbook A compendium of perceptual illusions gathered from performers across the country sorted into formally related perceptual categories and analyzed under various theories of perception Journal of Folklore Research

Science and Affect in Contemporary Literature

Shannon Lambert, 2024-11-14 Moving from the micro world of quantum physics to the macro scales of earth science and ecology this book considers how in contemporary literature affective experiences like desire suffering anxiety and joy shape scientific persons practices and products This book brings into dialogue close readings of scientific writing and contemporary literary works by authors like Jeanette Winterson Richard Powers Hanya Yanagihara Thalia Field and Jenny Offill Combining narrative and affect studies it uses formal strategies such as moving metaphor visceral or affective description plot level analogy contraction and rhythm to engage with western scientific epistemologies which still tends towards the impassive

universal and objective While each chapter focuses on a different field or fields of science all foreground bodies human and nonhuman as a way of exploring knowledge production Through close readings the book argues that select scientific stories raise important questions about how knowledge is defined and who and what is invited into its processes of production
