Instead, it situates nonfiction resources within the recent emphasis on reading nonfiction as a way of enhancing critical thinking and combating susceptibility to fake news. Donald Latham offers strategies for evaluating nonfiction for the purposes of collection development, providing readers advisory and developing programs using nonfiction for children and young adults. The book includes lists of professional resources as well as recommended nonfiction titles. *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1957 **Research in Education**, 1974 The Problem of Private Health Insurance Susan F. Murray, 2024-04-11 Financial markets, actors, institutions, and technologies are increasingly determining which kinds of services and welfare are available, how these are narrated, and what comes to represent the common sense in the policy world and in everyday life. This Element problematizes the rationale and operation of one such financial technology, private health insurance, and the industry it inhabits. It offers a cross-disciplinary overview of the various drivers of these markets in middle income countries and their appeal for development institutions and for governments. Using a range of illustrative case examples and drawing on critical scholarship, it considers how new markets are pursued and how states are entangled with market development. It reflects on how the private health insurance sector in turn is shaping and segmenting health systems and also our ideas about rights, fairness, and responsibility.
