Mobilizing The Will To Intervene Leadership To Prevent Mass Atrocities:

Mobilizing the Will to Intervene Frank Chalk, Kyle Matthews, Carla Barqueiro, Simon Doyle, 2010-08-23 Despite the handwringing and promises of never again the grim recurrences of genocide and crimes against humanity around the world have made it emphatically clear that the international community has been largely ineffective in stopping mass atrocity crimes Drawing on candid interviews with eighty key figures involved in American and Canadian responses to the Rwandan genocide of 1994 and the Kosovo crisis of 1999 Mobilizing the Will to Intervene explains why and provides a roadmap for change Since appeals to the moral law carry little weight in the political calculations of modern states the authors argue that civil society must persuade governments that the prevention of mass atrocities around the world is in every country's national interest In a globalized world violence disease and instability triggered by mass atrocities in one place affect the security health and prosperity of all other regions No nation is an island Impassioned insightful and determined Mobilizing the Will to Intervene is a direct appeal to American and Canadian politicians NGOs journalists and the public to participate effectively in the prevention of mass atrocities by pressuring their leaders to act With simple practical recommendations this book shows how civil society can participate in preventing future mass atrocities and help repair a ruined system of international aid

Mobilizing the Will to Intervene Institut montréalais d'études sur le génocide et les droits de la personne, Montreal Institute for Genocide and Human Rights Studies, Montreal Institute for Genocide and Human Rights Studies. Will to Intervene Project, Projet La volonté d'intervenir, Romeo Dallaire, Will to Intervene Project, Frank Robert Chalk, 2009* **Impediments to the Prevention and Intervention of Genocide** Samuel Totten, 2017-09-08 Academics NGOs the United Nations and individual nations are focused on the prevention and intervention of genocide Traditionally missions to prevent or intervene in genocide have been sporadic and under resourced The contributors to this volume consider some of the major stumbling blocks to the avoidance of genocide Bartrop and Totten argue that realpolitik is the major impediment to the elimination of genocide Campbell examines the lack of political will to confront genocide and Theriault describes how denial becomes an obstacle to intervention against genocide Loyle and Davenport discuss how intervention is impeded by a lack of reliable data on genocide violence and Macgregor presents an overview of the influence of the media Totten examines how the UN Convention on Genocide actually impedes anti genocide efforts and how the institutional configuration of the UN is itself often a stumbling block Addressing an issue that is often overlooked Travis examines the impact of global arms trade on genocide Finally Hiebert examines how international criminal prosecution of atrocities can impede preventive efforts and Hirsch provides an analysis of the strengths weaknesses and effectiveness of major international and national prescriptions developed over the last decade The result is a distinguished addition to Transaction's prestigious Genocide Studies series Reconstructing Atrocity Prevention Sheri P. Rosenberg, Tibi Galis, Alex Zucker, 2016 This proposes a new framework for atrocity prevention featuring scholars from around the globe including three

former UN special advisers **The Routledge Handbook of the Responsibility to Protect** W. Andy Knight, Frazer Egerton, 2012 This Handbook offers a comprehensive examination of the Responsibility to Protect norm in world politics which aims to end mass atrocities against civilians The Responsibility to Protect R2P is amongst the most significant norms in global politics As the authoritative guide to R2P this edited volume gathers together the most respected and insightful voices to address key issues related to this emerging norm The contributing authors do this over the course of three parts Part I The Concept of R2P Part II Developing and Operationalising R2P Part III The view from Over Here This book will be of much interest to students of R2P humanitarian intervention genocide human rights international law peace studies international organisations security studies and IR **Mass Atrocities, Risk and Resilience** Stephen McLoughlin, 2015-06-29 Mass Atrocities Risk and Resilience examines the relationship between risk and resilience in the prevention of genocide and other mass atrocities and explores two broad areas of neglect In terms of prevention there is very little research that analyzes how local and national actors manage the risk associated with mass atrocities In the field of comparative genocide studies to date there has been very little interest in examining negative cases Although much is known about why mass atrocities occur much less is established about why they do not occur The contributions in this book address this neglect in two important ways First they challenge commonly accepted approaches to prevention Second they explore negative cases in order to better understand how local and national actors have mitigated risk over time *Humanitarian Intervention and the Responsibility to Protect* Cristina Badescu, 2010-11-23 This book explores attempts to develop a more acceptable account of the principles and mechanisms associated with humanitarian intervention which has become known as the Responsibility to Protect R2P Cases of genocide and mass violence have raised endless debates about the theory and practice of humanitarian intervention to save innocent lives Since the humanitarian tragedies in Rwanda Burundi Bosnia Kosovo and elsewhere states have begun advocating a right to undertake interventions to stop mass violations of human rights from occurring Their central concern rests with whether the UN's current regulations on the use of force meet the challenges of the post Cold War world and in particular the demands of addressing humanitarian emergencies International actors tend to agree that killing civilians as a necessary part of state formation is no longer acceptable nor is standing by idly in the face of massive violations of human rights And yet respect for the sovereign rights of states remains central among the ordering principles of the international community How can populations affected by egregious human rights violations be protected How can the legal constraints on the use of force and respect for state sovereignty be reconciled with the international community's willingness and readiness to take action in such instances And more importantly how can protection be offered when the Security Council which is responsible for authorizing the use of force when threats to international peace and security occur is paralyzed The author addresses these issues arguing that R2P is the best framework available at present to move the humanitarian intervention debate forward This book will be of interest to students of the responsibility to protect war and

conflict studies human security international organisations security studies and IR in general **Teaching about Genocide: Insights and Advice from Secondary Teachers and Professors** Samuel Totten, 2018-09-30 Secondary level teachers and professors from various disciplines present their best advice and insights into teaching about various facets of genocide and or delineate actual lessons they have taught that have been particularly successful with their students **The Independence of South Sudan** Walter C. Soderlund, E. Donald Briggs, 2014-11-28 The Responsibility to Protect the report of the International Commission on Intervention and State Sovereignty ICISS focused on three international responsibilities in the area of human security the responsibility to prevent the responsibility to react and the responsibility to rebuild The report acknowledged the difficulty of identifying countries likely to experience widespread civil violence and then predicting when this would occur But the authors of this book submit that if ever a case of a responsibly to prevent was possible to anticipate South Sudan was it A Comprehensive Peace Agreement CPA ended the Sudanese second civil war in 2005 with a call for a referendum to be held in South Sudan in 2011 to determine the region s future In the event an overwhelming majority voted for independence for the region The question that motivated this book is whether the CPA would set in motion a process resulting in yet another brutal conflict and if that conflict was widely predicted what should be the response of the international community in terms of responsibility to prevent Mass media coverage has been identified as an important factor in mobilizing the international community into action in crisis and potential crisis situations however the impact of media reporting on actual decision making is unclear Thirty plus years of research has demonstrated consistent agenda setting effects while a more recent stream of research has confirmed significant framing effects the latter most likely to occur in cases where advocacy framing is used This book examines the way in which the press in Canada and the United States interpreted the potential for violence that accompanied South Sudan s independence in 2011 and whether or not their governments had a responsibility to prevent *Genocide* Adam Jones, 2016-12-16 *Genocide A Comprehensive Introduction* is the most wide ranging textbook on genocide yet published The book is designed as a text for upper undergraduate and graduate students as well as a primer for non specialists and general readers interested in learning about one of humanity s enduring blights Fully updated to reflect the latest thinking in this rapidly developing field this unique book Provides an introduction to genocide as both a historical phenomenon and an analytical legal concept including the concept of genocidal intent and the dynamism and contingency of genocidal processes Discusses the role of state building imperialism war and social revolution in fuelling genocide Supplies a wide range of full length case studies of genocides worldwide each with a supplementary study Explores perspectives on genocide from the social sciences including psychology sociology anthropology political science international relations and gender studies Considers The Future of Genocide with attention to historical memory and genocide denial initiatives for truth justice and redress and strategies of intervention and prevention Highlights of the new edition include Nigeria Biafra as a contested case of genocide Extensive new material on the Kurds

Genocide and Mass Atrocities in Asia Deborah Mayersen,Annie Pohlman,2013-06-03 The twentieth century has been labelled the century of genocide and according to estimates more than 250 million civilians were victims of genocide and mass atrocities during this period This book provides one of the first regional perspectives on mass atrocities in Asia by exploring the issue through two central themes Bringing together experts in genocide studies and area specialists the book looks at the legacy of past genocides and mass atrocities with case studies on East Timor Cambodia and Indonesia It explores the enduring legacies of trauma and societal divisions the complex and continuing impacts of past mass violence and the role of transitional justice in the aftermath of mass atrocities in Asia Understanding these complex legacies is crucial for the region to build a future that acknowledges the past The book goes on to consider the prospects and challenges for preventing future mass atrocities in Asia and globally It discusses both regional and global factors that may impact on preventing future mass atrocities in Asia and highlights the value of a regional perspective in mass atrocity prevention Providing a detailed

examination of genocide and mass atrocities through the themes of legacies and prevention the book is an important contribution to Asian Studies and Security Studies **Atrocity Speech Law** Gregory S. Gordon, 2017-04-11 This book is the first comprehensive study of the international law encompassing hate speech Prof Gordon provides a broad analysis of the entire jurisprudential output related to speech and gross human rights violations for courts government officials and scholars The book is organized into three parts The first part covers the foundation a brief history of atrocity speech and the modern treatment of hate speech in international human rights treaties and judgments under international criminal tribunals The second part focuses on fragmentation detailing the inconsistent application of the charges and previous prosecutions including certain categories of inflammatory speech and a growing doctrinal rift between the ICTR and ICTY The last part covers fruition recommendations on how the law should be developed going forward with proposals to fix the problems with individual speech offenses to coalesce into three categories of offense incitement speech abetting and instigation *The Peace* Romeo Dallaire, 2024-04-02 International humanitarian icon and bestselling author General Rom o Dallaire guides readers on a crucial and inspiring journey from past wars through post modern conflict toward a vision of lasting peace In *The Peace* Rom o Dallaire shows us the past present and future of war through the prism of his own life Trained in classic warfare during the Cold War era of mutual deterrence Dallaire in good faith commanded the UN s peacekeeping mission for Rwanda in 1994 only to see the country abandoned and descend into the hell of genocide The battered tortured warrior who emerged from that catastrophe grew determined to help repair the new world disorder to prevent genocide abolish the use of child soldiers and find ways to intervene in even prevent conflicts in defence of humanity And so Dallaire helped advance the doctrines of Responsibility to Protect and the Will to Intervene only to witness those initiatives falter because of the same old power politics national self interest and general indifference that had allowed the genocide in Rwanda to unfold unchecked In his final act Dallaire has become a warrior working towards a better future in which those old paradigms are rejected and replaced In *The Peace* he calls out the elements that undermine true security because they reinforce the dangerous self interested belief that balance of power and truces are the best we can do Too often we say we are at peace because the bombs are falling elsewhere and we ourselves are not under attack Dallaire shows us a path instead to what he calls the peace a state where above all else humanity values the ties that bind us and the planet together and acts accordingly This book is the cri de coeur of a warrior who has been to hell and back and hopes to help guide us to a better place

Globalization and Human Rights in the Developing World Derrick M. Nault, Shawn L. England, 2011-07-12 Focusing on world regions where human rights abuses are the most serious extensive and sustained this book fills a crucial gap in our knowledge of the difficulties and promise of promoting human rights in our global age **Beyond the Banality of Evil** Augustine Brannigan, 2013 Positioning itself within significant developments in genocide studies arising from misgivings about two noteworthy observers Arendt and Milgram this book asks what lies beyond the banality of evil And suggests the

answer lies within criminology Offering the author s reflections about how to interpret genocide as a crime Beyond the Banality of Evil Criminology and Genocide endeavours to understand how the theories of criminal motivation might shed light on these stunning events and make them comprehensible While a great deal has been written about the shortcomings of the obedience paradigm and desk murderers when discussing the Holocaust little has been said of what results when investigations are taken beyond these limitations Through examination and analysis of the literature surrounding genocide studies Brannigan frames the events within a general theoretical approach to crime before applying his own revised model specifically to Rwanda and drawn from field work in 2004 and 2005 This provides a new and compelling account of the dynamics of the 1994 genocide and its distinctive attributes of speed popularity totality and emotional indifference With a focus on the disarticulation of personal culpability among ordinary perpetrators Beyond the Banality of Evil questions the effectiveness of individual level guilt imputation in these politically based collectively orchestrated crimes and raises doubts about the utility of criminal indictments that have evolved in the context of models of individual misconduct
