Model Driven Architecture and Ontology Development Dragan Gašević, Dragan Djuric, Vladan Devedžic, 2006-11-22

Defining a formal domain ontology is considered a useful not to say necessary step in almost every software project. This is because software deals with ideas rather than with self-evident physical artefacts. However, this development step is hardly ever done as ontologies rely on well-defined and semantically powerful AI concepts such as description logics or rule-based systems, and most software engineers are unfamiliar with these. This book fills this gap by covering the subject of MDA application for ontology development on the Semantic Web. The writing is technical yet clear and is illustrated with examples. The book is supported by a website. *Model Driven Engineering and Ontology Development* Dragan Gašević, Dragan Djuric, Vladan Devedžic, 2009-06-12. Defining a formal domain ontology is generally considered a useful not to say necessary step in almost every software project. This is because software deals with ideas rather than with self-evident physical artefacts. However, this development step is hardly ever done as ontologies rely on well-defined and semantically powerful AI concepts such as description logics or rule-based systems, and most software engineers are largely unfamiliar with these. Gašević and his co-authors try to fill this gap by detailing how to use model-driven engineering for ontology development on the Semantic Web. Part I of their book describes existing technologies, tools, and standards like XML, RDF, OWL, MDA, and UML. Part II presents the first detailed description of OMG's new ODM (Ontology Definition Metamodel) initiative, a specification which is expected to be in the form of an OMG language like UML. Finally, Part III is dedicated to applications and practical aspects of developing ontologies using MDA-based languages. For this second edition, the descriptions of the related standards like MOF, ODM, OCL, and OWL have been revised and updated, new chapters introducing the basic principles of model-driven engineering, recent research results on metamodelling, Semantic Web rule languages, an introduction to the Atlas Transformation Language (ATL) and its tool support, and last but not least many new examples have been added.

Model-Driven Architecture - Foundations and Applications Jos Warmer, Arend Rensink, 2006-06-29. This book constitutes the refereed proceedings of the Second European Conference on Model-Driven Architecture Foundations and Applications (ECMDA FA 2006) held in Bilbao, Spain, in July 2006. The 30 revised full papers presented (18 papers from the foundations track and 12 from the applications track) were carefully reviewed and selected from 78 submissions. The papers are organized in topical sections on integration, applications of MDA, process model, consistency, model management, transformation, ontologies, re-engineering, tools and profiles, tool generation, constraints, model management, and transformations. **Advancements in Model-Driven Architecture in Software Engineering** Rhazali, Yassine, 2020-09-18. An integral element of software engineering is model engineering. They both endeavor to minimize cost, time, and risks with quality software. As such, model engineering is a highly useful field that demands in-depth research on the most current approaches and techniques. Only by understanding the most up-to-date research can these methods reach their

fullest potential Advancements in Model Driven Architecture in Software Engineering is an essential publication that prepares readers to exercise modeling and model transformation and covers state of the art research and developments on various approaches for methodologies and platforms of model driven architecture applications and software development of model driven architecture modeling languages and modeling tools Highlighting a broad range of topics including cloud computing service oriented architectures and modeling languages this book is ideally designed for engineers programmers software designers entrepreneurs researchers academicians and students

Model Driven Architecture for Reverse Engineering Technologies: Strategic Directions and System Evolution Favre, Liliana, 2010-01-31 This book proposes an integration of classical compiler techniques metamodeling techniques and algebraic specification techniques to make a significant impact on the automation of MDA based reverse engineering processes Provided by publisher

Model Driven Architecture Uwe Aßmann, Mehmet Aksit, Arend Rensink, 2005-08-25 Model Driven Architecture MDA is an initiative proposed by the Object Management Group OMG for platform generic software development MDA separates the specification of system functionality from the implementation on a specific platform It is aimed at making software assets more resilient to changes caused by emerging technologies While stressing the importance of modeling the MDA initiative covers a wide spectrum of research areas Further efforts are required to bring them into a coherent approach based on open standards and supported by matured tools and techniques This volume contains the selected papers of software workshop on Model Driven Architecture Foundations and Applications MDAFA MDAFA 2003 held at the University of Twente Twente The Netherlands June 26 27 2003 and MDAFA 2004 held at Linköping University Linköping Sweden June 10 11 2004 The goal of the workshops was to understand the foundations of MDA to share experience in applying MDA techniques and tools and to outline future research directions The workshops organizers encouraged authors of accepted papers to resubmit their papers to a post workshop reviewing process 15 of these papers were accepted to appear in this volume on MDA

Model Driven Engineering Languages and Systems Gregor Engels, 2007-09-13 This book constitutes the refereed proceedings of the 10th International Conference on Model Driven Engineering Languages and Systems formerly the UML series of conferences MODELS 2007 held in Nashville USA September 30 October 5 2007 The 45 revised full papers were carefully reviewed and selected from 158 initial submissions The papers are organized in topical sections

Advances in Conceptual Modeling Marta Indulska, Sandeep Purao, 2014-10-10 This book constitutes the refereed proceedings of workshops held at the 33rd International Conference on Conceptual Modeling ER 2014 in Atlanta GA USA in October 2014 The 24 revised full and 6 short papers were carefully reviewed and selected out of 59 submissions and are presented together with 4 demonstrations The papers are organized in sections related to the individual workshops the First International Workshop on Enterprise Modeling ENMO 2014 the Second International Workshop on Modeling and Management of Big Data MoBiD 2014 the First International Workshop on Conceptual Modeling in Requirements and Business Analysis MReBA 2014 the First International

Workshop on Quality of Models and Models of Quality QMMQ 2014 the 8th International Workshop on Semantic and Conceptual Issues in GIS SeCoGIS 2014 and the 11th International Workshop on Web Information Systems Modeling WISM 2014 The contributions cover a variety of topics in conceptual modeling including requirements and enterprise modeling modeling of big data spatial conceptual modeling exploring the quality of models and issues specific to the design of web information systems

Advances in Web Based Learning - ICWL 2008 Frederick Li, Jianmin Zhao, Rynson Lau, Qing Li, Denis McLeod, 2008-08-19 This year we received about 170 submissions to ICWL 2008 There were a total of 52 full papers representing an acceptance rate of about 30% plus one invited paper accepted for inclusion in this LNCS proceedings The authors of these accepted papers came from many different countries We would like to thank all the reviewers for spending their precious time reviewing the papers and for providing valuable comments that aided significantly in the paper selection process Authors of the best papers presented in this conference will be invited to submit extended versions of their papers for possible publication in a special issue of IEEE Internet Computing This was the second time that the ICWL conference was organized in China It was particularly special this year to hold ICWL 2008 in China as the Beijing 2008 Olympic Games were co located in the same country during the conference period We would like to especially thank our Organization Co chair Lanfang Miao for spending an enormous amount of effort in coordinating the local arrangements In fact we would like to thank the entire conference Organizing Committee for their hard work in putting together the conference In particular we would like to express our appreciation to our Registration Chairs Jiyang Jean Wang and Lanfang Miao and Treasurer Howard Leung for their tremendous efforts in communicating with the authors regarding registration matters and maintaining the registration lists up to date

Semantic Web and Model-Driven Engineering Fernando S. Parreiras, 2012-06-05 The next enterprise computing era will rely on the synergy between both technologies semantic web and model driven software development MDSD The semantic web organizes system knowledge in conceptual domains according to its meaning It addresses various enterprise computing needs by identifying abstracting and rationalizing commonalities and checking for inconsistencies across system specifications On the other side model driven software development is closing the gap among business requirements designs and executables by using domain specific languages with custom built syntax and semantics It focuses on using modeling languages as programming languages Among many areas of application we highlight the area of configuration management Consider the example of a telecommunication company where managing the multiple configurations of network devices routers hubs modems etc is crucial Enterprise systems identify and document the functional and physical characteristics of network devices and control changes to those characteristics Applying the integration of semantic web and model driven software development allows for 1 explicitly specifying configurations of network devices with tailor made languages 2 for checking the consistency of these specifications 3 for defining a vocabulary to share device specifications across enterprise systems By managing configurations with consistent and explicit concepts we

reduce cost and risk and enhance agility in response to new requirements in the telecommunication area This book examines the synergy between semantic web and model driven software development It brings together advances from disciplines like ontologies description logics domain specific modeling model transformation and ontology engineering to take enterprise computing to the next level Models in Software Engineering Jörg Kienzle,2012-04-13 This book presents a comprehensive documentation of the scientific outcome of satellite events held at the 14th International Conference on Model Driven Engineering Languages and Systems MODELS 2011 held in Wellington New Zealand in October 2011 In addition to 3 contributions each of the doctoral symposium and the educators symposium papers from the following workshops are included variability for you multi paradigm modeling experiences and empirical studies in software modelling models run time model driven engineering verification and validation comparing modeling approaches models and evolution and model based architecting and construction of embedded systems **Handbook of Research on Emerging Rule-Based Languages and Technologies: Open Solutions and Approaches** Giurca, Adrian,Gasevic, Dragan,Taveter, Kuldar,2009-05-31 This book provides a comprehensive collection of state of the art advancements in rule languages Provided by publisher Model Driven Architecture - Foundations and Applications Alan Hartman,David Kreische,2005-11-04 This book constitutes the refereed proceedings of the First European Conference Workshops on Model Driven Architecture Foundations and Applications ECMDA FA 2005 held in Nuremberg Germany in November 2005 The 24 revised full papers presented 9 papers from the applications track and 15 from the foundations track were carefully reviewed and selected from 82 submissions The latest and most relevant information on model driven software engineering in the industrial and academic spheres is provided The papers are organized in topical sections on MDA development processes MDA for embedded and real time systems MDA and component based software engineering metamodelling model transformation and model synchronization and consistency *New Technologies for Constructing Complex Agricultural and Environmental Systems* Papajorgji, Petraq,Pinet, François,2012-03-31 This book presents high quality research on the design and implementation of information systems in the fields of agronomics mathematics economics computer science and the environment offering holistic approaches to the design development and implementation of complex agricultural and environmental information systems Provided by publisher **Telecommunications Networks** Jesús Hamilton Ortiz,2012-03-30 This book guides readers through the basics of rapidly emerging networks to more advanced concepts and future expectations of Telecommunications Networks It identifies and examines the most pressing research issues in Telecommunications and it contains chapters written by leading researchers academics and industry professionals Telecommunications Networks Current Status and Future Trends covers surveys of recent publications that investigate key areas of interest such as IMS eTOM 3G 4G optimization problems modeling simulation quality of service etc This book that is suitable for both PhD and master students is organized into six sections New Generation Networks Quality of Services Sensor

The Enigmatic Realm of **Model Driven Architecture And Ontology Development**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Model Driven Architecture And Ontology Development** a literary masterpiece penned with a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of those who partake in its reading experience.

Model Driven Architecture And Ontology Development Introduction

Model Driven Architecture And Ontology Development Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Model Driven Architecture And Ontology Development Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Model Driven Architecture And Ontology Development : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Model Driven Architecture And Ontology Development : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Model Driven Architecture And Ontology Development Offers a diverse range of free eBooks across various genres. Model Driven Architecture And Ontology Development Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Model Driven Architecture And Ontology Development Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Model Driven Architecture And Ontology Development, especially related to Model Driven Architecture And Ontology Development, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Model Driven Architecture And Ontology Development, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Model Driven Architecture And Ontology Development books or magazines might include. Look for these in online stores or libraries. Remember that while Model Driven Architecture And Ontology Development, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Model Driven Architecture And Ontology Development eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or

publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Model Driven Architecture And Ontology Development full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Model Driven Architecture And Ontology Development eBooks, including some popular titles.

FAQs About Model Driven Architecture And Ontology Development Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Model Driven Architecture And Ontology Development is one of the best book in our library for free trial. We provide copy of Model Driven Architecture And Ontology Development in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Model Driven Architecture And Ontology Development. Where to download Model Driven Architecture And Ontology Development online for free? Are you looking for Model Driven Architecture And Ontology Development PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Model Driven Architecture And Ontology Development. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Model Driven Architecture And Ontology Development are for sale to free while some are payable.
